**Subject: ITU/TEMIC TRAINING PROGRAMME 2010**

Dear Sir/Madam

We are pleased to announce that the Telecommunications Executive Management Institute of Canada (TEMIC) and the ITU are once again offering financial assistance to developing countries to participate in this year's management training courses organized by TEMIC. The fellowships are intended to finance training and subsistence costs for the duration of the course. The cost of international airfares and domestic travel in Canada is to be borne by the home Administration of the participant.

We invite Administrations to submit candidatures for fellowships for the following courses in English taking place in Canada:

- ICT Development and Management Program, Ottawa and Montreal (3 – 14 May 2010)
- ICT Development and Management Program, Ottawa and Montreal (6 – 17 September 2010)

Kindly note that TEMIC courses are designed for executives and senior managers, responsible for the management of telecommunications organizations (PTTs as well as non-governmental entities).

There are a limited number of fellowships available. Administrations are requested to apply as soon as possible, using the attached nomination form. Both TEMIC and ITU attach great importance to participants' excellent command of English, to ensure that full benefit is derived from training.

ITU and TEMIC will notify Administrations as soon as participants have been selected.

Yours faithfully,

Sami Al Basheer Al Morshid  
Director
