- We need special attention, love, caring, support, etc etc.....

A) HOW TO BRING ABOUT NECESSARY CONDITIONS FOR DISABILITIES AS EQUAL?

- By creating a global awareness:
 - On the importance of accessibility to the information
 - And communication technologies

PETESAITA CHOSE:

- Sony Anycast System the best way in creating awareness for us.
 - Sony Anycast
 - » It's an audio visual portable recording studio.
 - » Enable us to capture important information from experts in this field.
 - » By viewing the stored information from time to time will enable our disabilities to understand how this Information and Telecommunication Technology works.
 - » Sony Agent in our country will support us if we can get the funding from ITU, BTU.

**B) HOW TO ELIMINATE
OBSTACLES IN ACCESSING
TELECOMMUNICATION/ICT
