2.2.1 *Shaping the Future: Converged Networks - (John Visser, ITU-T)*

What will life be like in the future? Who is our next generation user and what will this user expect? This presentation will show that network transformation and convergence are essential for enhancing the user experience and are driven by user demands. It will show that mobility must be a core and integral part of the Next Generation Network. The topics covered include:

- Value: Services / Service Infrastructure / Network
- Convergence Opportunity - NGNs
- Mobility is essential
- Simplifying the user's life
- Service architecture
- NGN Standards
