E-mail: albert.kamga@ties.itu.int

Mr KAMGA is a project engineer at the New information and communication technologies department, Ministry of Posts and Telecommunications, Cameroon. He is responsible of the implementation of the information system of the P&T ministry, and technical support for the other ministries. He is particularly involved in the implementation of the core system of e-government in Cameroon, with the ITU partnership.

Mr KAMGA is also the head of the operational team of the Adamaoua province (Cameroon) for the Multipurpose Community Telecentres project. At international, he is a member of the technical committee for the interconnection of the telecommunications networks in the central African sub-region (Cameroon, Chad, Central African Republic). He was member of the Cameroon delegation to the WRC-03. He also participated in some ITU-T studies group (SG16 - multimedia systems and terminals, SG13 – Next generation Networks).

Mr Albert KAMGA is graduated from the National Advanced School of Posts and Telecommunications (Yaounde, Cameroon) as Telecommunications Engineer in 1999. He also awarded certificates in NGN and approaches to E-government at DGF-KTC (Seoul, South Korea), and is currently following courses for a master in networks applications and technologies at the Université Jules Verne de Picardie, Amiens France.
