

Title: Bridging the Communications Divide through WiMAX and WiMESH Solutions

Presenter: Dr. Bilel Jamoussi, Director Strategic Standards, Nortel

Abstract: WiMAX and WiMESH Broadband Wireless Solutions are uniquely positioned to address the challenges faced by developing countries in bridging the communications divide by providing broadband wireless coverage to their citizens and enterprises. This presentation will provide an overview of these emerging technologies, the state of the industry standards and regulations to enable wide global deployment, and the unique characteristics of these solutions to the needs of developing nations.
