

Biography

Mauro Filippi, Marketing director of Marconi Communications S.p.A.

Doctor in Electronic Engineering, he is in Marconi since 1980 where he got the responsibility of the Telecommunications Systems and Networks design, then of the technical offers for the world-wide market. In 1999 he took the responsibility of the development of the value added services and then of the network strategy. Today he manages activities to address the market-product segment in the Mediterranean basin, in Scandinavia and in Latin America.
