I have 35 years in the Telecommunications Business, 15 years Working for the major Telephone operator in Mexico (Telefonos de Mexico), where I developed the first 20 mobile networks to be implemented in Mexico. I worked for 5 years in Motorola to develop the mobile business in Mexico during this period of time I got contract in 5 of 9 Regions, Now I have 15 years working for Ericsson to develop its regulatory activities in Mexico and in Latin America.

I have participated since 1995 in the last 5 World Radio Conferences as part of the Mexican Delegation and representing Ericsson Mexico since 1995 in the Organization of American States (OAS) in its Inter-American Telecommunications Commission (CITEL) meetings on Radiocommunications. I started participating In year 2000 within the ITU-R WP8F where is defined the spectrum requirements and the technical characteristic for IMT-2000 systems, From year 2005, I was appointed as a Chairman for the Developing Working Group in the IMT activities.
