

CURRICULUM VITAE

NATAŠA GOSPIĆ

I received the BSc and MSc. degree from the Faculty of Electrical Engineering and PhD degree from the Faculty of Transport and Traffic Engineering, University of Belgrade.

Most important job assignment:

- Assistant General Director of Community of Yugoslav PTT (1990- Jun 2000),
- General Manager mobile operator MONET (Jun 2000-March 2002),
- Advisor to General Manager of Telecom Srpske , B&H (March 2002-July 2004),
- Professor on University Belgrade and University Novi Sad, Serbia and University of Banja Luka, BiH,

I was engaged by ITU-D to be a lecturer in more then 40 ITU-D workshops for CEE and CIS and other development countries. I was the editor of the ITU-D Handbook “New technologies and new services”.

I used to be vice chairperson of SG 2 ITU-D, Rapporteur for Q 18/2 dealing with “Smooth transition from the existing mobile networks to IMT-2000 for developing countries” and chairperson of ITU Working Group on Gender Issues.

The scope of my recent work for telecom operators used to be: strategy and policy for mobile networks and service development, business policy, business models and implementation of NGN projects. I recently finalized the Project “Universal Service for Serbia-existing situation, needs and recommendation for solutions”.

Presently, I teach on three Universities: Belgrade, Novi Sad and Banja Luka.

I am Member of Technical Council of National Regulatory Agency.

I am the author of three books and more then 100 scientific and expert papers.
