

Colin Langtry

Colin Langtry is the Counsellor for Radiocommunication Study Group 5 in the International Telecommunication Union (ITU). In this capacity, he provides secretariat and technical support for activities within the ITU-R addressing fixed, mobile, radiodetermination, amateur and amateur-satellite services.

His prior experience includes responsibility for the Text Editing and Publications Division of the ITU Radiocommunication Bureau and, before joining the ITU, managing the spectrum planning activities in the Australian Spectrum Management Agency.
