

## **Contribution from the Communication Administration of the Republic of Azerbaijan**

The Communication Administration considers the below-mentioned principles as essential:

1. Presence of standard and legislative base;
2. Implementation of issuing licenses for juridical and physical entities;
3. Certification of technical communication equipment;
4. The state supervision on technical communication equipment, and communication networks, as well as systems of information.

You are kindly requested to take into consideration the above-shown view of the Communication Administration of Azerbaijan Republic.
