Contribution form Bhutan Communications Authority

Promoting universal access to information and communications technologies: BCA (five) regulatory principles

1. **Committing highest political support and national priority to ICT, in particular, to rural community ICT activities;**

2. **Building, expanding and maintaining a secure, reliable and cost-effective nationwide ICT infrastructure;**

3. **Facilitating and enabling equitable, ubiquitous and affordable access to ICT services;**

4. **Creating an enabling ICT environment through formulation of supportive and predictable policy, legal and regulatory frameworks; and**

5. **Fostering partnership among all stakeholders.**
