

## **Jim Ragsdale - Ericsson**

Jim received a BSEE degree from the University of Tennessee and completed Master's course work in physics at the State University of New York.

Before joining Ericsson, Jim worked in Data link and Network standards at IBM including working on SSCOP of AAL5 for ATM.

Upon joining Ericsson Jim was involved in TDMA standards including participating in the IMT-2000 submission for TDMA-SC. Later, Jim became involved in all the 3GPP technologies and their updates for the IMT-2000 Recommendation ITU-R M.1457.

More recently, Jim has been chairman of ATIS WTSC-RAN responsible for radio aspect standardization. Jim chaired the ATIS WTSC evaluation group for the IMT-Advanced evaluations.

Jim is a Senior Consulting Engineer at Ericsson Research responsible for standardization activities in TIA, ATIS, IEEE and ITU-R. Jim is an Ericsson delegate to Working Party 5D and 5A in ITU-R.
