

ITU-T Workshop “Opportunities and Challenges in Home Networking”

Abstract

Geneva, 13 – 14 October 2005

Speaker: Mark Jeffrey
Program Manager, European Media Standards
Windows Client Division
Media & Entertainment Technology Convergence
Microsoft Corporation (Geneva, Switzerland)

Session: **4: Security and Digital Rights Management**

Title of Presentation: **Protecting Broadcast Television in Home Networks**

This talk will discuss the issues and potential solutions for protecting copyright television content while increasing it's usefulness in modern home networks. This includes various means of protecting the broadcast itself, how the content can be acquired for the home, and enabling the consumer to legitimately use it across numerous devices. Specific mention will be made of the ITU-R studies, the work of DVB on CPCM, and Microsoft's own vision of premium content flowing through the home.
