

ITU-T Workshop

“Opportunities and Challenges in Home Networking”

CV

Geneva, 13 – 14 October 2005

Carlo Cori
Telecom Italia

Session: **3: Home Networking Services and Business Models**

Title of Presentation: Telecom Italia experience on Home Networking for delivery triple play services

Presentation:

Carlo Cori graduated in Electronic Engineering at University “La Sapienza” in Rome. He joined Telecom Italia in 1990 where, during the years, he was responsible first of cable test group, with particular emphasis to environmental aspects, then of xDSL equipment test group. Now in the Network Services Department he is responsible for home networking technologies. His activity is mainly focused on the evaluation, specification and labs and field test of new technologies. He was member of ITU-T SG 5.
