

ITU-T Workshop

“Opportunities and Challenges in Home Networking”

CV

Geneva, 13 – 14 October 2005

RYUICHI KOBAYASHI
NTT EAST CORP.

Session 5: Electromagnetic interference in the Home Environment

Title of Presentation EMC and Regulatory issues in Home Network Environment

RYUICHI KOBAYASHI, was born in 1969, Ibaraki, Japan. He received B.E.E and M.E.E degrees from University of Electro-Communications, Chofu, Tokyo, Japan, in 1991 and 1993, respectively.

He engaged in NTT Telecommunications Networks Laboratories, in 1993. Now he works at ‘Technical Assistance & Support Center’ and ‘Maintenance and Service Operations department’ in NTT East Corp.. His main jobs are to solve EMC troubles in the field and to maintain the Access Network infrastructures. He has joined ITU-T SG5 since 1997. His interests are the methodologies for measuring electromagnetic noises and electromagnetic environment, induction from power line and EMC issues related to co-location and home networks. Now, he is the Rapporteur of Question 1 and 8 in ITU-T SG5.
