

Clif Barber

Is Standards Director for Tantivy Communications, Inc., a private technology company located on Florida's Space Coast. Tantivy has developed technology to improve the data speeds, capacity, and coverage of all 3G mobile Internet standards, including their I-CDMA solution, the world's first all IP-based 3G solution with advances necessary for affordable portable broadband Internet access. A graduate of both IIT and Georgia State University, Mr. Barber has a long history with North American Standards Development Organizations beginning with TIA in 1988. He previously served as Secretary of 3GPP2 All IP AdHoc from its inception through April 2001, and he now serves as Secretary of 3GPP2 TSG-C, 3GPP2 TSG-S, and T1P1 WPWIA AdHoc, plus Vice Chair/Secretary of TIA TR45.5.
