

# ITU-T IPv6 Workshop

## CV

Geneva, 22-23 June 2005

---

MAKOTO SAITO  
NTT COMMUNICATION CORPORATION

**Session:** 2.2 Ipv6 network practice and commercial application

Makoto Saito is an IPv6 expert of NTT Communications Corporation. He had been working in the development of the total network architecture of the data centers in NTT/Verio. Since 2003, he has been engaged in the protocol design of m2m-x, which is NTT-Com's new platform for the secure managed P2P communication. Particularly, his specialty focuses on IPv6, IPsec, SIP, and so on.
