

ITU-T NEXT GENERATION NETWORKS WORKSHOP
IN COLLABORATION WITH IETF

CV

Geneva, 1 – 2 May 2005

Hui-Lan Lu
Lucent Technologies

Session: 3: QoS, Control & Signaling capabilities

Title of Presentation: Quality of Service Standardization for Next Generation Networks

Hui-Lan Lu is a Bell Labs Fellow at Lucent Technologies, where she is responsible for multimedia standards and their applications to research and development. She has a doctorate in physics from Yale University. A pioneer in the field of PSTN and IP convergence standardization, Dr. Lu has been active in the ITU-T and IETF for about ten years. She has numerous publications on various subjects, including the book entitled *Converged Networks and Services: Internetworking IP with PSTN* (John Wiley & Sons, 2000).
