CV

Geneva, 3 –4 October 2005

Charles Brookson
Department of Trade and Industry of the United Kingdom

Session: **2: Key areas of security standards focus**

Title of
Presentation: **ETSI Standards**

Eur Ing Charles Brookson CEng FIEE FRSA

Charles Brookson works in the Department of Trade and Industry of the United Kingdom, and is an Electronic Engineer. He previously was Head of Security for one2one (now T-Mobile UK), and British Telecom for twenty years before that. He has been involved in many security standards over many years.

He is Chairman of the NISSG, a group that was set up to co-ordinate security standards amongst the three European Security Standards Organisations and other bodies outside Europe.

He is also Chairman of ETSI OCG Security, which is responsible for security within ETSI, and has been Chairman on the GSM Association Security Group (representing operators in over 200 countries) for many years. He is on the Permanent Stakeholder’s Board of The European Network and Information Security Agency.
