**Where to find us**

8019.010 (Hong Kong, China Pavilion)

**Company Profile**

FON is the first and largest community-generated global WiFi network. Members (Foneros) share their home Internet connection and in return enjoy free WiFi at other Fonero access points. There are three types of Foneros: Linuses, Bills, and Aliens.

Linuses allow other Foneros to use their Internet connection for free, and in return can roam freely across the FON global WiFi community. Bills are more commercially oriented and charge a fee to use their access points, keeping 50% of all revenues generated. Aliens don't have a FON access point, but access the FON network for a small fee. See [www.fon.com](http://www.fon.com).
