Company Profile

Aculab enables developers and systems integrators to produce a variety of high performance communications solutions. Aculab's portfolio offers an exceptional mix of capabilities that are easy to integrate and bring real value – reduced costs, increased customer satisfaction and competitive advantage. A complete range of open standards building block technologies for use within telco or enterprise environments, as well as essential support services, are offered. Products include media resources, digital network access, VoIP, fax, speech processing and conferencing. Support is available to help developers through each stage of their product's life cycle including pre-sales consultancy, technical support, training and marketing.
