**Company Profile**

AETA.com capitalises on AETA Group's 20 years experience in telecom networks. Company strategy focuses on symmetrical DSL (G.SHDSL), E1, ATM and IP technology applications. AETA.com designs and markets a wide range of access network products: NTUs, CPEs and IADs; FLEXDSL & AEMODSL; high-speed G.SHDSL multiplexers and modems enabling ATM access to all major DSLAMs or TDM point-to-point transmission; FLEXRATE: E1 access multiplexers; AEMOD: Modems for private links up to 2Mbps. All AETA products can be remotely managed by a FLEXNMS OAM system. Our customer base includes telcos, integrators and VARs.
