URL: <http://www.jsat.net/>**Company Profile**

JSAT Corporation is a leading satellite operator in the Asia-Pacific region. JSAT owns and operates eight satellites in seven orbital slots. In addition to these satellites, Horizons Satellite LLC, the JSAT's joint venture with PanAmSat Corporation, will commence a new service with the Horizons-1 satellite at 127 K West longitude orbital slot toward the end of this year. This move will make JSAT the first Asian satellite operator to have its own satellite that covers North America. JSAT provides communications and broadcasting services that offer a variety of solutions to a wide range of customers. Based on its corporate slogan, JSAT, Expanding Horizons, the company is actively expanding its operation internationally and cultivating new customer sectors.
