Company Profile

Access is a global provider of integrated, next-generation data platforms and Internet access technologies for the mobile communications market. Our embedded browsers, NetFront and Compact NetFront power over 244 different commercial products including mobile cell phones, PDAs, set-top boxes, video game consoles, car navigation systems, digital televisions and other non-PC Internet devices. As a technology leader, we have maintained an active participation in the Internet governing bodies such as W3C, IETF, OMA and CDG. ACCESS CO.,LTD. was established in 1984 (IPO Feb.26, 2001) and reported revenues in 2002 of \$58 million.
