**Company Profile**

Kyocera Corporation was founded in 1959 as a producer of advanced ceramics. By combining these engineered materials with metals and plastics, and integrating them with other technologies, Kyocera has become a leading supplier of telecommunications equipment, semiconductor packages, electronic components, cameras, laser printers, copiers, solar energy systems and industrial ceramics. Our various product line-up for telecom includes electronic components, CDMA handsets, PHS handsets and infrastructure related systems, such as the Wireless Broadband Internet Access System (i-BURST) etc. The Kyocera Group employs 49,000 people worldwide, and recorded consolidated net revenues of 1.07 trillion yen during the year ended March 31, 2003.
