Company Profile

Aran Technologies is a wireless OSS company focused on meeting the real objectives of customer-centric service management. Aran Assure is the Customer Experience Management (CEM) solution provided by Aran Technologies to solve the issue of understanding the actual quality of service delivered to mobile customers. Aran's CEM technology revolutionises the running of a mobile network by enabling a shift in focus from managing the network to assuring the real time customer experience. CEM completes the mobile operator's view in their OSS by providing detailed visibility of the definitive QoS as experienced by the customer.
