Company Profile

DBTEL focuses on creating fashionable mobile devices with revolutionary attitude, refined designed and compact features. We have developed a full product line with 30 unique designs. DBTEL handsets are popular among consumers for their functionality and competitive prices. DBTEL high-end models combine elegance and elite features including audio-recording, video-recording and photo-taking capabilities. Consumers can choose from our two brands: DBTEL brand is focused on delivering value to customers; Dbtel brand gives individuals the freedom to design their own customer-made handsets to match their unique personal style and taste.
