Company Profile

ANIEL, the Spanish Electronics and Telecommunications Industries Association plays an active role in promoting international trade and encourages trade agreements between Spanish and foreign companies. ANIEL brings together companies dealing with telecommunications, information technology, software, consumer electronics, electronic components, professional electronics, outsourcing, etc. The Association accounts for over 90% of the Spanish industry's production and exports. ANIEL cooperates with both Spanish and EU authorities and liaises, at high levels, with national and international institutions. For further information about Spanish companies visit our web site www.aniel.es where among other useful information you will find a comprehensive catalogue of companies and products.
