Company Profile

Specializing in antennas, Antennessa designs some products which don't exist in a catalogue, nor need a technical added value. Following the economical and technical criterions expressed in clients' specifications, Antennessa delivers a prototype, a manufactured model and a complete technical folder. According to the customer's wish, Antennessa manages the manufacturing for limited-quantity production. Antennessa proposes EMF and CEM measurement tools for certification, measurement companies, mobile phone and antennae manufacturers, operators; SAR certification bench, SAR fast-measurement bench, isotropic wide band measurement system for the base stations security area, and near field simulation software for cellular base stations sites.

Classifications

Industry Sector : Communications, Broadcasting, Mobile

Company Type : Manufacturer, Service provider, Systems integrator

Geographic Regions of activity : Africa, Asia-Pacific, Europe, Latin America / Caribbean, Middle East, USA / Canada

Products & Services

Components and Accessories : Antennas
