Company Profile

Mango DSP is a leading manufacturer of high-performance multiprocessing hardware and software DSP solutions for the embedded systems market. Our trademark is the creation of high-speed systems with the densest amount of DSP processors on the board, the highest computational power, maximal memory and optimized performance. Our products serve both traditional and emerging markets including the homeland security, communications, medical imaging, machine vision, aerospace, and video technologies. With dozens of customers from a wide variety of emerging fields, Mango DSP's powerful processing systems can be found in many of the most advanced systems around the world.

Classifications**Industry Sector** : Communications, Mobile**Company Type** : Manufacturer, Systems integrator**Geographic Regions of activity** : Europe, Middle East, USA / Canada**Products & Services****Consumer Equipment** : 2.5G Wireless, Security Systems, Servers, Videoconferencing Equipment, Videostreaming
