**Company Profile**

Matimop– your gateway to the Israeli hi–tech industry, is a non–profit national organization, specializing in assisting companies to leverage their technology and develop business through joint RDactivities. Matimop implements government funded international cooperation programs for industrial RDin North America, Europe and South–East Asia. Matimop assists companies to participate in these programs, identify partners and access national funding sources. Matimop is the national liaison office in Israel for EUREKA, the European Industrial RDNetwork, and the Israeli coordinator of the Innovation Relay Center, a member of the European IRC Network for technology transfer.
