Company Profile

Visto is the leading provider of wireless messaging solutions to mobile operators for personal and corporate use. Visto's technology provides secure access to the most widely used corporate applications over any network and on a broad array of devices, and supports both browser-based as well as offline-capable devices. Visto Mobile Access Solution, Server Edition, provides departmental and enterprise access to corporate email. Visto MessageXpress provides individual access to corporate, Internet and POP3 email. Both Server Edition and MessageXpress are well suited to the converged wireless PDAs/phones using Palm OS, Pocket PC, Smartphone, J2ME and Symbian platforms.
