Company Profile

Action Engine is the leading provider of data services delivery platforms, which enable wireless operators to rapidly deploy innovative applications and data services on today's smart devices. Action Engine's platform enables operators to create unique, custom-branded applications and a consistent user experience across all smart devices, driving positive brand perception and increased data revenues. Action Engine is the only vendor capable of fully addressing user experience, branding and segmentation and new service creation on one intelligent platform. Thanks to its innovative underlying technology, Action Engine's platform supports today's hottest smart devices while giving mobile operators the flexibility for future innovation.
