Addendum 1 to Circular Letter
4/LCCE/134

20 February 2023

**To Administrations of Member States of the ITU, Radiocommunication Sector Members,
ITU-R Associates participating in the work of Radiocommunication Study Group 4 and
ITU Academia**

Subject: Further information on the invitation for submission of proposals for candidate radio interface technologies for the satellite component of the radio interface(s) for IMT-2020 and invitation to participate in their subsequent evaluation

The first invitation for submission of proposals for candidate radio interface technologies (RITs) or a set of RITs (SRITs) for the satellite component of IMT-2020 was issued with Circular Letter [4/LCCE/134](#) released on 23 November 2022. This Circular Letter also initiated an ongoing process to evaluate the candidate RITs or SRITs for the satellite component of IMT-2020 and invites the formation of independent evaluation groups and the subsequent submission of evaluation reports on these candidate RITs or SRITs.

The purpose of this addendum to Circular Letter 4/LCCE/134 is to inform that, in view of the confirmed dates of RA-23, WRC-23 and CPM27-1 in November/December 2023, it is not practical to hold the Working Party 4B meeting 53*bis* in December 2023. As such, in agreement with the Working Party 4B Management Team, the submission of the above-mentioned proposals will end on 31 December 2023 and Working Party 4B meeting 53*bis* will take place in January 2024 (date to be confirmed).
