

OPINION ITU-R 38*

EXCHANGE OF MONOCHROME AND COLOUR TELEVISION
PROGRAMMES VIA SATELLITES

(1970)

The CCIR,

CONSIDERING

- (a) the importance of facilitating the exchange of television programmes via satellites;
- (b) that, if this exchange is to be made between countries using the same standard or the same system, any conversion or any transcoding at intermediate points could lower the quality of the signal,

IS UNANIMOUSLY OF THE OPINION

that the attention of administrations and organizations responsible for the transmission of international television programmes should be drawn to the desirability of conserving, in the transmission over their networks, the original standard and system, to provide a better quality of service.

* This Opinion has been brought to the attention of Study Groups 4, 9 and the CMTT.
