- c) the report of the Council Group on the Financial Regulations and Related Financial Management Issues (Group FINREGS) presented to the 2005 session of the Council (Document C05/39), which includes modifications to the Financial Regulations and the elaboration of new Financial Rules,

recognizing

- a) that, based on the recommendations of the Group of Specialists and consistent with Council Resolution 1216 concerning their implementation, the new results-based budgeting (RBB) concept was incorporated, along with the more traditional system of budgeting, into the presentation of the draft biennial budget for 2006-2007 as a transitional measure until the full implementation of RBB can be achieved;

D 545 Non-payment of cost recovery fees relating to satellite network filings

(C07)

The Council

considering

- a) the revision of the methodology and scale of charges for cost recovery of the processing of space notices established in Decision 482 modified by the Council at its 2002 session;
- b) the need to provide some corrective measures regarding the deviations of the charging methodology for the processing of space notices as set out in Decision 482 (C02) for certain networks, leading to large invoices which may not be in line with the amount of work;
- c) that in Decision 513 the Council, at its 2003 session, agreed on the need to address the above issue on a temporary basis, pending a review of the charging methodology by the Council at its 2004 session;
- d) that the application of Decision 513 still resulted in some invoices having values significantly higher than CHF 100 000;
- e) that the Plenipotentiary Conference (Marrakesh, 2002), through its Resolution 88 (Rev. Marrakesh, 2002), has approved the principle of cancellation of a filing when the corresponding cost recovery payment has not been effected in due time and has set the date of 1 August 2003 to implement the corresponding provisions of the Radio Regulations;
- f) that in accordance with the Financial Regulations, all decisions concerning write-offs of debts of Member States shall remain the exclusive purview of the Plenipotentiary Conference;
- g) that the cancellation of the satellite network filing does not result in cancellation of the invoice issued by ITU;
- h) that Council 2005 established a revised mechanism for cost recovery of satellite network filings now included in Decision 482 (modified 2005) which has been so far satisfactory to the ITU membership,

taking account

that the Plenipotentiary Conference (Antalya, 2006) adopted Decision 10 on the implementation of additional correctives measures relating to cost recovery on satellite network filings; and

it authorized the Council to decide on the payment or non-payment of fees in respect of satellite network filings cancelled as a result of non-payment,

recognizing

that the Radiocommunication Bureau has carried out a considerable amount of work in order to process these networks and published them in a relevant BR IFIC before being cancelled as a result of non-payment,

recognizing further

that the Union is currently facing severe difficulty as a result of, on the one hand, maintaining zero growth in the contributory level and, on the other hand, reductions in the number of contributory units and increases in expenditures,

decides

1 that for satellite network filings cancelled as a result of non-payment pursuant to the relevant provisions of the Radio Regulations, the following fees shall apply:

- 50 per cent of the original fee on the pending invoices (Decision 10 (Antalya, 2006));

2 that the payment of revised invoices shall not reinstate the regulatory rights of any network which has been cancelled due to non-payment in accordance with the relevant provisions of the Radio Regulations;

3 that upon payment of the revised invoices, the cost recovery fees for the invoiced satellite network filings shall be considered satisfied;

4 to withdraw the necessary amount from the Reserve Account, that shall under no circumstances exceed the amount of CHF 2 760 000,

further decides

1 that the *decides* 1 and 2 above shall also apply to the satellite networks filings for which the payments have been received after the cancellation of the filings in accordance with the relevant provisions of the Radio Regulations;

2 that the above *decides* 1 to 2 shall only apply to cancelled satellite network filings received before 1 January 2006,

instructs the Secretary-General

to conclude repayment schedules with any Member States that so request following the revision of invoices relating to the implementation of cost recovery for satellite network filings concerned by this Decision in the light of Resolution 41 (Rev. Antalya, 2006).

- 1) to examine the provisions of the Financial Regulations and Financial Rules, with a view towards ensuring conformity and consistency with the basic instruments of the Union, decisions of the Plenipotentiary Conference and the Council, as well as the evolving needs of ITU;
- 2) to ensure that, with the development of results-based budgeting and continuing improvements to the financial management system in ITU, consequential amendments to the financial instruments are undertaken on a continuous basis, such as classifying appropriations by programme and activity, with the corresponding reference to the Strategic Plan, instead of by category of expenditure;
- 3) to ensure that the flexibility arrangements provided for in the Financial Regulations and Financial Rules, including deferred activities to be carried out for the following biennium, are consistent with those of other United Nations organizations;
- 4) to undertake a review of the recommendations of the External Auditor, as presented annually to the Council, on an ongoing basis, taking into account Resolution 94 (Rev. Antalya, 2006) concerning the auditing of the accounts of the Union, and the terms of reference of the External audit outlined in Article 28 and Annex 1 of the Financial Regulations;
- 5) to ensure that the Financial Regulations include provisions for internal control in line with those of other United Nations organizations;

considering pertinent provisions in the Staff Regulations and Rules,

having examined the report by the Secretary-General concerning the international recruitment of Union staff,

invites the Members of the Union to cooperate to the fullest extent possible with the Secretary-General in helping to secure for the Union the services of staff possessing the highest standards of efficiency, competence and integrity.

R 792 Proposed amendments to Staff Regulations and Staff Rules

(C-1977, last amended C-1981)

The Council,

having considered the reports of the Secretary-General on proposed amendments to the Staff Regulations and Staff Rules for Elected Officials and the Staff Regulations and Staff Rules applicable to appointed staff,

authorizes the Secretary-General to amend the Staff Regulations and Staff Rules for Elected Officials and/or Staff Regulations and Staff Rules applicable to appointed staff in the future, without seeking prior approval of the Council in respect of those amendments which are necessary to delete obsolete references or to make minor changes in editing which do not entail changes in substance.

R 1004 Privileges, immunities and facilities related to activities of the Union

(C-1990)

The Council,

being aware of the fact that many activities of the Union, such as conferences and meetings (including regional telecommunication exhibitions and forums), seminars, regional representations and missions as well as services related to the implementation of technical assistance and cooperation projects are carried out not only at the seat of the Union, but also to a large extent in the territory of various Member States of the Union,

mindful of Article 17 of the International Telecommunication Convention, Nairobi 1982, which provides that “the Union shall enjoy in the territory of each of its Members such legal capacity as may be necessary for the exercise of its functions and the fulfilment of its purposes”,

considering that it is essential that the Union's activities referred to above be carried out under the available privileges, immunities and facilities,

recalling that the "Convention on the Privileges and Immunities of the Specialized Agencies", approved by the General Assembly of the United Nations on 21 November 1947 and accepted by the Union, precisely provides for such privileges, immunities and facilities needed by the Union, as one of the specialized agencies of the United Nations, for carrying out its activities,

recalling also its Resolution 193 on the latter Convention as well as its Decision 304 on the "Participation of the Delegations of Members of the Union in Conferences and Meetings of the Union",

noting, however, that quite a considerable number of the Members of the Union, i.e. almost half of them, have either not acceded at all to the latter Convention or have acceded thereto, but not with regard to the Union,

convinced that it is, in the interest of the Union, indispensable that the activities of the Union such as the ones referred to above be carried out in the territory of Member States of the Union having either become Parties to the latter Convention in respect of the Union or formally declared that they will apply the provisions of the said Convention to those activities of the Union, or otherwise having accorded sufficient privileges and immunities,

resolves

1 to urge hereby all the Members of the Union not having done so yet to accede to the Convention on the Privileges and Immunities of the Specialized Agencies of 21 November 1947 in respect of the International Telecommunication Union (see Section 41 of the said Convention) and to urge all those Members, which have acceded thereto, but not in respect of the Union, to do so by communicating a "subsequent written notification to the Secretary-General of the United Nations", in which they "undertake to apply the provisions of this Convention to" the International Telecommunication Union (see Section 43 of the said Convention);

2 to call upon hereby any Member of the Union, which has not yet acceded to the said Convention, or communicated the subsequent written notification referred to in paragraph 1 above, in respect of the Union, to ensure that the competent governmental authority formally declares that the provisions of the Convention on the Privileges and Immunities of the Specialized Agency shall apply to those activities of the Union, which are to be carried out in its territory, or otherwise accord equivalent privileges and immunities;

3 to reconfirm hereby its Resolution 193 and its Decision 304 referred to above, the provision of which shall continue to be applied,

instructs the Secretary-General

1 to bring the present Resolution immediately to the attention of all the Members of the Union;

2 to do everything in his power to ensure the appropriate implementation of the provisions of the present Resolution and to keep the Council informed, as appropriate, of any practical difficulties encountered by him in this respect, including of any measures he had to take in respect of any non-compliance with those provisions, in particular with regard to those activities of the Union, for which he cannot await any decision by the Council at its annual session prior to their being carried out or not.

R 1142 Occupational illness

(C-1999)

The Council,

having regard to Resolution 97 (Minneapolis, 1998) on occupational illness, adopted by the Plenipotentiary Conference,

resolves to instruct the Secretary-General

- a) to ensure that the safety, health and environmental standards in force in the host country of the Union are applied at ITU and to report on the matter to the Council at its 2000 session;
- b) to continue to study the issue of covering the risks of illness occurring by reason of prior employment with ITU and affecting former staff members of the Union, and to submit a report to the Council for its possible decision at its 2000 session.

R 1149 Introduction of a long-term care insurance scheme in the Union

(C-1999)

The Council,

taking into account Resolution 96 (Minneapolis, 1998) instructing the Secretary-General to prepare appropriate data regarding the possible introduction of a long-term care insurance scheme,

having regard to the fact that such a scheme has been studied by the Consultative Committee on Administrative Questions (CCAQ) and has met with wide interest among secretariats of other organizations of the common system which had already expressed their commitment to its adoption,

having regard further to the dual-component nature of the proposed scheme, with a low-premium programme applicable to all active staff and a voluntary programme allowing individual staff members to purchase further cover beyond their period of service with the Union, the burden thus being shared between employer and employee,

considering that it is in the Union's interest to retain its staff and, as an equal-opportunity employer, to attract the best qualified candidates in a highly competitive environment,

considering further that the comparator country for the United Nations common system is considering long-term care for federal employees and their relatives,

resolves to continue the preparatory work on the possible introduction of a long-term care scheme for ITU staff, with options for coverage beyond the period of service with the Union,

instructs the Secretary-General

1 to seek opinion of competent bodies of the United Nations Common System (including the International Civil Service Commission (ICSC), the Administrative Committee on Coordination, (ACC) and the Consultative Committee on Administrative Questions (CCAQ)) on:

- a) whether independent establishment of a long-term care insurance plan would be appropriate for ITU, or whether implementation should be coordinated throughout the United Nations common system;
- b) what steps, if any, these bodies have taken towards researching and developing a long-term care insurance plan for the common system;

2 to consult with other organizations of the United Nations common system on development of a scheme that would offer greatest benefit at minimum costs;

3 to report to the next session of the Council, on the result of the above actions, and on possible options for implementation of an appropriate scheme, with detailed estimates of any costs or financial risks arising from the participation of the Union.

- the human resources management policies of ITU need to remain consistent with the standards established by ICSC for the United Nations common system;

noting with appreciation

the work accomplished by the Tripartite Group on Human Resources Management, and by the internal working group comprising staff representatives and representatives of the ITU secretariat,

resolves

to postpone consideration of the recommendations by the Tripartite Group on Human Resources Management for the implementation within ITU of new contractual arrangements, until the United Nations General Assembly has determined the implementation arrangements that may affect consistency within the UN common system,

requests

that the Tripartite Group on Human Resources Management continue with its work and submit a report to the 2008 session of the Council that includes an update on actions taken by the United Nations General Assembly in this regard and a revised proposal for implementing within ITU a consistent contractual arrangement practice.

having examined

the proposal submitted in Document C07/54 to its 2007 session,

- b) the System-Wide Medium-Term Plan for the Advancement of Women 2002-06, to be adopted by ECOSOC in July, including ITU proposals and programmes,

believing

- a) that by including women in every phase of ITU policy and practice, ITU can benefit from drawing on a vast and rich resource, half the world's population;
- b) that gender balance, like geographical representation, should be taken into account in ITU policy and practices, including recruitment and publication, hiring, training and education, mobility and promotion opportunities, selection of leadership in all ITU bodies, and ITU elections,

considering

that Council 2001 has not been provided reports on progress made in increasing gender perspective in line with Resolution 70,

R 1253 Tripartite group on human resources management

(C06, amended

- c) the decision taken by the Council at its 2005 session to suspend the conversion of fixed-term contracts into permanent contracts until the 2006 session of the Council, pending a decision to be taken by the United Nations General Assembly on the proposal relating to the new contractual arrangements elaborated by the International Civil Service Commission (ICSC) in its report for the year 2005 (document A/60/30),

noting

that the United Nations General Assembly has not, to date, been able to examine the proposal made by ICSC at its sixtieth session, but has decided, by Decision 60/244, to postpone examination of the annual report of ICSC,

taking into account

- a) the concerns expressed by the Staff Council of the Union at the 2006 session of the Council with regard to ITU contracts policy and its impact on the motivation of staff members in general;
- b) the explanations provided by the secretariat regarding, in particular, availability of financial resources,

reaffirming

the principles set forth in Resolution 1195, according to which:

- the human resources management policies of ITU need to remain consistent with the standards established by ICSC for the UN common system;
- the standards established by ICSC on contracts policies and staff performance appraisal policies serve as recommendations to the UN organizations,

resolves

that a Tripartite Group on Human Resources Management be established, composed of Member States of the Council, representatives designated by the Secretary-General and staff representatives designated by the Staff Council,

instructs the Tripartite Group on Human Resources Management

- a) to carry out, with the view of ensuring and retaining a motivated and competent staff, a study of the contract situation in ITU, which should include detailed information on the current breakdown of contracts in ITU, by category of staff and by Sector, and the financial implications thereof – including cases submitted by staff members to the Administrative Tribunal of the International Labour Organization – and to identify the prevailing problems in this regard with a view to proposing options for satisfactory resolution of the matter;

Ref.: Documents 267/CA3 (1948), 5703/CA36 (1981).

D 517 Strengthening dialogue between the Secretary-General and the ITU Staff Council

(C04)

The Council,

considering

a) that, pursuant to *resolves 1* of Resolution 48 (Rev.Marrakesh, 2002) (Human resources management and development), the management and development of ITU's human resources should be compatible with the goals and activities of the Union and with the United Nations common system;

b) that, pursuant to *resolves 2* of Resolution 48, recommendations of the International Civil Service Commission approved by the United Nations General Assembly should be applied,

considering further

that, according to Regulation 8.1 of the Staff Regulations applicable to appointed staff, the staff's right of association is recognized, along with the representation of the interests of the staff before the Secretary-General by a Staff Council,

recognizing

that Decision 516 adopted by the Additional session of the Council in 2003 concerning the establishment of a mechanism to review a staff reduction plan in ITU, was successfully implemented and can serve as a useful precedent for the strengthening of consultations between the Staff Council and ITU management,

taking into account

concerns expressed by the staff through the Staff Council that consultations with ITU management on such matters as staff welfare and administration, including policy on appointments, promotions and terminations, need to be strengthened,

decides to instruct the Secretary-General

to immediately review the modalities of strengthening the dialogue between the Staff Council and the Secretary-General, or his designated representative, and the Directors of the Bureaux or their designated representatives, and prepare a progress report, which could include the identification of the possible need for amendments to the Staff Regulations and Rules, for consideration by the Council at its 2005 session.

2.3 Pensions

R 440 Investments of funds of the ITU staff superannuation and benevolent funds (C-1960)

The Council,

considering

- a) that apart from being morally responsible for the funds which in 1960 still remain entrusted to the Management Board (after transfer to the United Nations Joint Staff Pension Fund), the ITU has given its financial guarantee to the staff as regards the retirement and other pensions to be paid from the funds kept in the Staff Superannuation and Benevolent Funds (Articles 1, 2 and 84 of the Regulations for the Staff Superannuation and Benevolent Funds, 7th edition);
- b) that the debts of the Staff Superannuation and Benevolent Funds are expressed in Swiss francs;
- c) that the actuarial calculation are based on 3% interest, but that the current accounts in Swiss francs conceded to the Union by the Swiss Confederation, and the Swiss franc debentures backed by the Swiss Confederation, bear interest at more than 3%,

recommends that the Management Board keep the funds of the Staff Superannuation and Benevolent Funds from which retirement and other pensions are liable to be paid, in current account with the Swiss Confederation or in the form of debentures backed by the Swiss Confederation, and abstain from any investments which do not offer the same degree of security.

Ref.: Document 2499/CA15 (1960).

R 463 Actuarial bases for the ITU Staff Superannuation and Benevolent Funds (C-1961)

The Council,

in view of the proposal of the Management Board of the ITU Staff Superannuation and Benevolent Funds submitted by the Secretary-General (Document 2634/CA16),

considering that the present actuarial bases used for the calculations of the Funds are out of date, and that the actuary, consulted by the Management Board, approved the adoption of the proposed revised bases,

resolves that, as from 1 July 1961, the actuarial bases EVK/1960, Collection A, of the Federal Insurance Fund of the Swiss Confederation shall be used for the calculations of the Funds.

Ref.: Document 2710/CA16 (1961).

R 559 **Cost-of-living allowances to beneficiaries of the S.S. and B. Funds**
(C-1965)

The Council,

bearing in mind No. 262 of the International Telecommunication Convention, Nairobi, 1982,

considering Resolution 2007 adopted by the United Nations General Assembly at its 19th Session,

having examined the proposals by the Secretary-General contained in Document 3325/CA20,

resolves that, with effect from 1 March 1965, cost-of-living allowances paid to the beneficiaries of the ITU Staff Superannuation and Benevolent Funds shall be recalculated in accordance with the method laid down in Document 3325/CA20.

Ref.: Documents 3439/CA20 (1965), 4965/CA31 (1976), 6197/CA39 (1984).

R 589 **Cost-of-living allowances granted to beneficiaries of the ITU SS and B Funds**
(C-1966)

The Council,

in view of the provisions of the Montreux Convention, 1965, the Malaga-Torremolinos Convention, 1973 and the Nairobi Convention, 1982,

considering Resolution 2122, adopted by the 20th Session of the United Nations General Assembly,

resolves that, with effect from 1 March 1965, the cost-of-living allowances granted to beneficiaries of the ITU SS and B Funds shall be adjusted according to the index system used by the United Nations Joint Staff Pension Fund.

Ref.: Documents 3605/CA21 (1966), 4965/CA31 (1976), 6197/CA39 (1984).

R 1211 **Statutory rate of interest of the ITU Staff Superannuation and Benevolent funds**
(C03/ADD)

The Council,

in view of

the proposal by the Management Board of the ITU Staff Superannuation and Benevolent (SS&B) Funds, submitted by the Secretary-General (Document C03-ADD/6),

considering

that the yield on the investments of the Funds now easily covers expenditure and that the Management Board recommends that the statutory rate be eliminated,

resolves

1 that with retroactive effect as from 1 January 2003, the statutory rate of interest of the Funds is eliminated in Article 86 of the Regulations of the SS&B Funds;

2 to approve the amendment to Article 86, paragraph 4 of the Regulations of the SS&B Funds set out in the appendix to this Resolution.

3 CONFERENCES AND MEETINGS

3.1 General

R 83 Organization, financing and liquidation of the accounts of conferences and meetings

(C-1948, last amended C-1990)

The Council,

considering

- a) that all conferences and meetings of the Union should be uniformly organized, as regards both the material provisions and the accounting and liquidation of accounts;
- b) that the conferences and meetings referred to the Numbers 107 to 109 of the Nairobi Convention, 1982, should not exceed the expenditure authorized by the Council;
- c) that every effort should be made to reduce the expenditure of conferences and meetings and in the case of conferences the expenses of which are not included in the annual budget to accelerate the recovery of participants' contributory shares;
- d) that it is advisable to include, in the agreements to be concluded with inviting governments for the preparation of conferences or meetings, provisions covering cancellation, postponement or change of venue, so that such eventualities should not cause unnecessary prejudice to the Union,

resolves that the following provisions shall be applied for all conferences and meetings organized under the aegis of the Union:

A. Organization of conferences and meetings when there is an inviting government

1 At such time as he deems appropriate, the Secretary-General shall negotiate an agreement with the inviting government on the arrangements to be made by both the General Secretariat of the Union and that government, in order to supply the conference or meeting with the necessary material means for the satisfactory progress of the work;

2 this agreement, which shall specify the respective functions of both parties, shall be based, as regards its principles, on the arrangements described in Document 166/CA3. It may deviate from them to take into account the views of each inviting government and, in particular, the services which that government is in a position to offer free of charge;

3 in order, however, that the General Secretariat shall not be implicated in matters for which it does not have to assume responsibility, the agreement to be concluded should not deal with any question concerning the application of the Convention, which falls exclusively within the competence of the conference or meeting, or of the inviting government;

4 in particular, the agreement shall include no stipulation concerning the right of administrations in the matter of participation in the conferences, or concerning the Rules of Procedure of the conferences.

B. Financing of conferences and meetings when there is an inviting government

The agreement to be reached with the inviting government should in so far as possible, be based on the following data:

5 where it does not cover the expenses itself, the inviting government shall advance the necessary funds for the renting and preparation of premises, the reproduction and distribution of documents, the payment of salaries of the Secretariat personnel recruited locally, the purchase of supplies, the purchase or renting of office equipment and any other equipment, deemed necessary for the work of the conference or meeting;

6 these expenses shall be refunded as soon as possible to the inviting government by the General Secretariat of the Union;

7 the inviting government shall bear the expenses pertaining to a Reception Committee and, if the occasion arises, the entertainments and other diversions organized for the delegates;

8 for all other expenses, the Secretary-General shall also endeavour to obtain the advance of the necessary funds from the inviting government; these funds shall be refunded as soon as possible by the General Secretariat;

9 no conference or meeting may be held under Nos. 107 to 109 of the Nairobi Convention, 1982, unless the Council has provided the appropriate credits for the year or years in question. As far as possible, when the Council authorizes such credits, it shall be in possession of the agreement entered into with the inviting government but, in exceptional circumstances, it may authorize these credits subject to the later conclusion of this agreement by the Secretary-General. The provisions of the agreement and the amount of the credits available must always be brought to the notice of the Budget Control Committee referred to in Nos. 475 to 479 of the Convention, at the first meeting of this Committee;

10 for conferences and meetings organized under No. 115 of the Nairobi Convention, 1982, the agreement and draft budget shall be submitted to the Council if the Council holds a session before the conference or meeting begins. If it holds no session, approval must be given by the budget control committee at its first meeting, at the same time as the agreement and draft budget are referred to it;

11 the agreement with the inviting government must contain provisions covering cases where conferences or meetings are cancelled or postponed, or their meeting place is changed, as a result of a decision by the Union, adopted by its competent organs:

11.1 in general, it shall be clearly established that in such an eventuality the Union shall be responsible to the inviting government only for its commitments or actual expenditure in preparation for the conference – provided the government has not agreed to bear such expenses itself – and only in so far as they are indispensable and cannot be cancelled or reduced;

11.2 if the cost of preparing premises to house the conference is to be borne by the Union, the agreement shall stipulate the details of the work to be done and its cost, and the maximum economy shall be sought compatible with satisfactory organization of the conference;

11.3 except in very special cases, the reservation of accommodation for delegates, staff, etc., must not entail any financial commitment for the Union;

12 if the inviting government, instead of convening the conference or meeting, announces that it cannot receive the conference at the agreed place or time, the Union shall not be responsible for the expenses incurred by the inviting government in preparation for the conference or meeting;

13 on request by the inviting government, and if exchange conditions are suitable, contributions owed to the Union by that government may be accepted in local currency in such a proportion as will enable the conference expenses to be settled in that currency to be met.

C. *Settlement of the accounts of conferences the expenses of which are not included in the annual budget*

14 So as to reduce, as far as possible, the total interest of any sums advanced by the Government of the Swiss Confederation, it is important that the contributory shares of participants in these conferences should be recovered without delay. To this end:

14.1 when a conference covers a period running into the next financial year, the Secretary-General shall forward to the administrations or organizations concerned an account of their share of the expenses incurred during the current financial year;

14.2 if, at the close of a conference, it appears that the final accounts cannot be drawn up within one month, the Secretary-General shall immediately forward to the participants a provisional account of their share of the expenses on the basis of the statement of expenditure approved by the closing plenary meeting; an additional account shall be subsequently forwarded if, when the accounts are finally closed, a balance remains to be recovered.

D. *Limit of the prerogatives of conferences in financial matters*

15 A conference has no power to arrange for future sessions of the same conference after the termination of the original session, or for further conferences, except by the procedure prescribed in article 54 of the Nairobi Convention, 1982;

16 no conference other than a plenipotentiary conference has the power to authorize the Secretary-General to ask the inviting government to advance funds or to request the advance of funds from the Government of the Swiss Confederation. The Secretary-General can only act in this matter in accordance with the prescription of the Convention and the directives of a plenipotentiary conference, or of the Council;

17 administrative conferences and plenary assemblies of Consultative Committees must observe the provisions of Nos. 627 and 628 of the Nairobi Convention, 1982.

E. *Publication of the final texts of conferences or meetings*

18 In principle, the final texts approved by conferences or meetings, whatever their method of reproduction, shall be published by the General Secretariat in their usual place of publication and with the minimum of cost;

19 however, this rule may be disregarded in recognized cases of urgency and at the special request of the conference or meeting;

20 apart from the final texts distributed to the persons concerned as a conference document, no copy shall be supplied free of charge to participants in the conference or meeting.

F. *CCI Plenary Assemblies and Study Groups*

21 The provisions of this Resolution shall apply to CCI Plenary Assembly and Study Group meetings, for which the Secretary-General, in agreement with the Director of the CCI concerned, has to make the necessary administrative and financial arrangements.

1 to pursue ongoing efforts in the secretariat to reduce the length of documents and ensure their timely submission;

2 to prepare and make available appropriate drafting guidelines for authors for each conference, assembly or Council session on the length, format and layout and possible electronic application of documents, including suitable templates;

3 to avoid the reprinting of existing documents on paper which are accessible electronically and the constant re-issuing of amended texts unless absolutely justified, and, in respect of treaty-making conferences, to study the possibility, including the practical and legal implications, of dispensing with physical reprinting of texts (white, blue and pink) for each reading;

4 to study the correlation between meeting duration and volume of documentation with a view to developing indicative standards;

5 to investigate the possibility of extending the availability of suitable power outlets and local networking facilities to delegate positions in conference rooms,

encourages Member States and Sector Members to make every effort to contribute to reducing the volume of documentation by exercising restraint, in particular by requesting fewer or no paper copies of documents; making the greatest possible use of electronic document handling media; reducing the length of their contributions; and submitting documents for conferences in a timely manner,

further instructs the Secretary-General to report to Council-2000 on the implementation of this Resolution and its impact on meetings,

instructs the Directors of the Bureaux to report to Council-2000 on the procedures developed by the advisory groups and the resulting savings, as demonstrated by their trial application in a meeting or assembly,

a) of the imperative to proceed cautiously in order to avoid impeding the important work of Council, given its broad and complex agenda and the serious constraints on its time and resources;

b) of the need to respect Council's distinct characteristic, i.e., that it is the elected governing body of the Union in the interval between plenipotentiary conferences and, of the importance of ensuring accountability of the ITU Council to the Member States of the Union;

c) of the need to avoid introducing divisive or competitive dynamics to Council sessions or eroding the integrity of the decision-making hierarchy within each Sector;

d) of the imperative to avoid detracting from the important tasks of the Sector Advisory Groups as set out in Articles 11A, 14A and 17A of the Convention,

decides

1 to take note of the recommendations of Part A and Part B of the Report of the Working Group on Observers;

2 to extend the mandate of the Working Group to continue its examinations and to develop the draft texts including amendments to Council's Rules of Procedure and a draft Resolution for submission to Council 2005 for appropriate action, and to examine issues related to the implementation of the provisional admission of observers representing Sector Members to Council;

3 to approve the audio webcasting of Council proceedings to Member States and Sector Members subject to the implementation of appropriate measures to respect, in particular, the restricted nature of Council's proceedings;

4 to approve, subject to follow-up evaluation, the admission, on a provisional basis, of observers representing Sector members pursuant to No. 60B of the Convention to the 2005 session of Council on the basis of the criteria set out in Annex A,

further decides

to evaluate as far as possible at the 2005 session of Council, the implementation of the provisional admission to Council meetings of observers representing Sector Members as set out in this decision,

instructs the Directors of the Bureaux

to bring this decision to the attention of the Sector advisory groups and invite them to take appropriate measures, taking into account in particular the conditions specified in Annex A below.

ANNEX A
(to Decision 519)

1 Each Sector Advisory Group, through consultations and taking into account *conscious d)* above, nominates up to three Sector Members to attend Council as observers representing the Sector Members of that Sector.

2 A facility at ITU headquarters shall be provided for all nominated Sector Member observers should it not be possible for all of them to be seated in the Council meeting room. This facility shall have a live one-way audio feed to the meeting.

3 The name of each nominated Sector Member observer shall be formally communicated to the Secretary-General by the Bureau Directors, with sufficient prior notice to facilitate the registration of these individuals.

4 GENERAL SECRETARIAT

R 1110 Role of the ITU in the GMPCS-MoU

(C-1997)

The Council,

having considered the report of the Secretary-General on the Memorandum of Understanding concerning Global Mobile Personal Communications by Satellite presented in Document C97/68 and the proposal from the United States of America presented in Document C97/97,

having further considered the decisions taken at the 1997 session with respect to cost recovery for ITU products and services,

noting that the ITU Member States and Sector Members provided voluntary financial contributions to support the first World Telecommunication Policy Forum in October 1996,

further noting that the funds remaining from these voluntary contributions are now supporting the work of the GMPCS-MoU Group, and that voluntary contributions are being sought to support the implementation of WTPF Opinion No. 5,

resolves

1 that the ITU Secretariat shall continue to provide support to the GMPCS-MoU activities on the basis of full cost recovery recognizing that this is an acceptable role for the ITU Secretariat;

2 that the ITU Secretariat shall provide an accounting of the use to date of voluntary financial contributions to the first WTPF;

3 that the funds remaining from these voluntary contributions shall be used to support follow-up activities to the first policy forum-related activities for the next year;

4 that if additional funds are needed to support these activities, the Signatories to the GMPCS-MoU, as well as other interested parties, shall be requested by the ITU Secretariat to provide additional financial support to continue their work and to support the role of the ITU Secretariat in these activities.

Ref.: Documents C97/130 and C97/138.

R 1116 Implementation of the GMPCS-MoU arrangements

(C-1998)

The Council,

considering the conclusions of the first World Telecommunication Policy Forum on Global Mobile Personal Communications by Satellite (GMPCS), held in October 1996, and the related Memorandum of Understanding and Arrangements developed since then,

noting that the above Arrangements have been developed by a provisional group of Signatories of the Memorandum of Understanding and that that group remains acting as the “GMPCS-MoU Group”,

recalling Resolution 1110 adopted by the Council at its 1997 session, which resolved, *inter alia*, that the ITU secretariat should continue to provide support to the GMPCS-MoU activities on the basis of full cost recovery, recognizing that this was an acceptable role of the ITU secretariat,

considering further

- a) that the role of ITU as depositary of the GMPCS-MoU and its Arrangements is identified as part of the goals, and is consistent with the vision for ITU, contained in the draft Strategic Plan 1999-2003;
- b) that this role, while it will benefit the GMPCS industry and users worldwide, will also contribute to the relevance of the Union to the future of global telecommunications,

taking account of Recommendation 8 adopted by the World Telecommunication Development Conference (Valletta, 1998) entitled *Timely Implementation of GMPCS*, which notes the need for global implementation of the Arrangements so that the benefits of GMPCS services can be extended to all countries in a timely fashion,

resolves

1 to instruct the Secretary-General:

1.1 to act as depositary of the GMPCS-MoU and its Arrangements and to make available the information supplied by the Signatories implementing the Arrangements;

1.2 to act as the registry for type-approval procedures that administrations and/or competent authorities have notified to ITU as having been used to approve terminals;

1.3 to act as the registry of terminal types once administrations and/or competent authorities have notified to ITU that terminals have been granted type approval;

1.4 to authorize the use⁶ of the abbreviation “ITU” as part of the GMPCS-MoU mark on the understanding that ITU shall be protected against liability from such use;

2 that action under *resolves* 1.1 to 1.4 above shall be carried out in accordance with the Arrangements on the basis of full cost recovery, the details relating to the use of contributions by the Signatories being defined in consultation between them and the Secretary-General.

R 1271 **Four-year rolling Operational Plan of the General Secretariat for the period**
(C07) **2008-2011**

The Council,

recognizing

the provisions of Article 5 of the Convention,

having considered

the draft four-year rolling Operational Plan of the General Secretariat for the period 2008-2011 (see www.itu.int/council/C2007/014/detailed.doc),

having also considered

the need for the Secretary-General to have some flexibility in the implementation of the four-year rolling Operational Plan so as to take into consideration any warranted changes that may occur during the interval between two Council sessions,

⁶ The conditions of this use will be reviewed in the light of the results of Resolution 1117.

resolves

to approve the rolling Operational Plan for the General Secretariat for the years 2008-2011, as presented in www.itu.int/council/C2007/014/detailed.doc

D 496 Guidelines for Strategic Planning Workshops
(C-2000)

The Council,

considering

- a) the need to ensure the continuing relevance and leadership of the Union in a rapidly changing telecommunications environment and in an era of volatile technological change;
- b) that to respond to the changing telecommunications environment requires that the Union should be able to initiate new activities, and study new issues, in a timely and flexible manner;
- c) that, in approving the budget for the 2000-2001 biennium (Resolution 1133), Council provided funding for a “New Initiatives Programme”;
- d) that, on the initiative of the Secretary-General, two initial Strategic Planning Workshops were held in Geneva, on Electronic Signatures and Certification Authorities (9-10 December 1999) and on IP Telephony (14-16 June 2000);
- e) that the results of these two workshops were discussed by Council and were considered important and useful to the membership,

decides, with respect to the first two workshops

to instruct the Secretary-General to undertake further studies with a view to identifying the role that ITU can play in e-commerce, authentication and IP Telephony, as well as their legal implications for Member States, and in particular in developing countries,

decides, with respect to future workshops

- 1 to endorse the continuation of the New Initiatives Programme and the holding of additional workshops within the budget levels approved by Council for the 2000-2001 biennium;
- 2 to apply the following guidelines for the organization of future strategic planning workshops:

A Objectives

- The main purpose of the workshops is to advise the Secretary-General, in an informal manner on new topics of a regulatory, policy or other nature of high-current interest which cut across the work of the Sectors, with a view to possible inclusion of these topics in the regular work programme of the Union, and for reporting to the Council.

B Selection of topics, participants and locations

- The topics should be selected by the Secretary-General for their high-current interest to Member States and Sector Members.
- The Secretary-General shall select, and issue invitations to, relevant experts, after consultation with Directors of the Bureaux and taking into account proposals from the membership.

- In order to stimulate discussion, the target number of experts should be limited, while respecting the need for geographical balance among the Member States of the Union.
- The dates and topics of the workshops will be communicated to the membership of the Union well in advance to allow time for the submission of contributions and adequate preparation.
- Those who participate should preferably be experts in the subject under discussion and would participate in a personal capacity.
- Upon invitation, workshops may be held outside the headquarters of the Union.

C Finance and resources

- The meetings should be conducted in an efficient and cost effective manner, within the budget allocated by the Council.
- The expenditures incurred in organizing the Workshops, including any voluntary contributions, shall be presented in the accounts of the Union and will be subject to the Financial Regulations of the Union.

D Input and output documents

- Input documents shall include a background paper on the topic and a draft agenda. Where feasible, inputs should also include country case studies and presentations from participants.
- Any Member State or Sector Member may make an input to a Workshop.
- The participants shall determine the outputs of the workshop but they should, in no event, be considered as prescriptive regulatory outcomes or outputs with binding force.

E Information dissemination, technology transfer and education

- One of the objectives of the workshops should be to generate high quality, researched information that can be useful particularly for policy-makers and regulatory agencies, especially in developing countries.
- Each workshop should be accompanied by a website that would be used to inform the membership about the meeting and disseminate all the documentation from the meeting. Information generated could also be disseminated via the ITU News and other Union publications, and in other appropriate formats.
- As appropriate, the material developed shall be disseminated and may be used to assist with training programmes and in technology transfer and know-how.

F Cooperation with the Sectors

- Although the strategic planning workshops will be organized by the SPU, the Sectors will be invited to nominate focal points for cooperation and to assist in the planning and running of Workshops.
- The input documents, including case studies, and outputs shall be channelled to the appropriate Sectors.

G Reporting

- The Secretary-General shall report to Council each year on the activities carried out under the New Initiatives Programme and the Council shall decide on the appropriate follow-up.
- Where follow-up requires inter-sectoral work, or cannot be fitted in to the work of a Sector, this should be coordinated by the Secretary-General, in cooperation with the Directors of the Bureaux.

5 SECTORS

5.1 General

R 1115 International Harmonization of Technical Requirements for Legal Interception of Telecommunications (C-1997)

The Council,

noting

- a) that many Member countries of the ITU permit their law enforcement and national security agencies, under controlled conditions, to intercept telecommunications services;
- b) that the law enforcement and national security agencies of a significant number of ITU member countries have agreed on a generic set of requirements for legal interception (the International Requirements for Interception, IUR);
- c) that the costs of legal interception capability and associated disruptions can be lessened by providing for the capability at the design stage; and
- d) that such reduction of costs and disruptions could lead to more efficient provision and development of telecommunications infrastructure,

considering

- a) that the provision of a technical capability for interception in relevant standards would not intrude on the sovereign right of countries to decide whether and under what conditions they will permit legal interception; and
- b) that the consideration of requirements for legal interception could fall within the responsibility of both the ITU-R and the ITU-T,

further noting that some countries are in urgent need of results in this area,

*requests the ITU-R and the ITU-T to give priority to questions on the subject which administrations request them to study.*⁷

Ref.: Documents C97/135 and C97/138.

⁷ It is understood that all ITU-T and ITU-R studies will be based on contributions by administrations.

5.2 Radiocommunication (ITU-R)

R 1148 Status of the members of the Radio Regulations Board

(C-1999)

The Council,

considering

- a) the provisions of Articles 8 (No. 56), 9 (No. 63), 12 (No. 82) and 14 (Nos. 93 to 101) of the Constitution (Geneva, 1992) and those of Articles 2 (Nos. 20 to 22) and 10 (Nos. 139 to 147) of the Convention (Geneva, 1992), as amended by the Kyoto (1994) and Minneapolis (1998) Plenipotentiary Conferences;
- b) that the members of the Radio Regulations Board (RRB) are elected by the Plenipotentiary Conference as custodians of an international mandate;
- c) that they can therefore not be considered as “experts” within the meaning of No. 1001 of the Convention;
- d) that the Headquarters Agreement does not establish a special status for RRB members;
- e) that RRB members are bound by the Convention to participate in radiocommunication conferences, radiocommunication assemblies and, in the case of the chairperson and vice-chairperson of RRB, in the Plenipotentiary Conference, whether these conferences and assemblies are held at or away from headquarters;
- f) that the Plenipotentiary Conference (Minneapolis, 1998) decided that the Council should consider the appropriate means to provide RRB members with the rights and immunities necessary to carry out their duties, on the basis of a report by the Secretary-General following consultation of the host country (Document PP-98/271),

having examined the report drawn up by the Secretary-General (Document C99/61) in response to the decision by the Plenipotentiary Conference (Minneapolis, 1998),

having taken cognizance of the memorandum by the Radio Regulations Board (Document C99/66) transmitted to it by the Secretary-General,

resolves to instruct the Secretary-General

1 to continue to apply, in respect of RRB members, Article 17 of the Agreement between the Swiss Federal Council and the Union concerning the organization’s legal status in Switzerland and to identify, in cooperation with the Swiss authorities, ways and means of improving the situation of RRB members in order to facilitate the exercise of their duties;

2 to provide RRB members with an ITU document attesting to their status as elected members of RRB and setting forth those provisions of the headquarters agreement that apply to them;

3 to see to it that the agreements concluded between the Union and the host countries of conferences or meetings in which the members, chairperson and vice-chairperson of RRB have a duty to participate (No. 141 of the Convention) contain provisions granting RRB members the privileges and immunities necessary for the exercise of their duties at the said conferences or meetings;

4 to report to the Council on the measures taken,

requests the competent authorities of the countries of which elected RRB members are nationals to offer facilities, in particular with regard to the type of travel documents they issue, enabling RRB members to travel without hindrance in the exercise of their duties for the Union,

instructs the Director of BR to provide the linguistic, computer and other facilities that are necessary in order for RRB to perform its functions.

R 1257 **Schedule of invoicing to defray the expenses of the regional radiocommunication conferences and related activities**
(C06)

The Council,

having considered

Document C06/43(Rev.1) regarding the budget and the schedule of invoicing for the regional radiocommunication conferences and related activities,

having also considered

Council Resolutions 1230 (Council 2004) and 1250 (Council 2005, see relevant information in Annex 2),

resolves

to cancel Resolution 1230 and to approve the new schedule of invoicing presented in Annex 1 to this resolution, with the understanding that the invoices for the budgetary years 2006 and 2007 will be calculated according to the values presented therein and that an adjustment will be made in 2008, so as to reflect the actual costs of the regional radiocommunication conferences and related activities implemented during the 2006-2007 time-frame,

further resolves

1 that the invoices for the budgetary years 2006 and 2007 will be issued not earlier than 1 June 2006 and 1 June 2007, respectively;

2 to authorize a one-year delay, after the date of issue of the invoice, for payment of the 2006 contributions; no interest will be charged during this one-year period,

instructs the Secretary-General and the Director of the Radiocommunication Bureau

to take all the necessary measures so as to implement these activities in the most economical manner,

further instructs the Secretary-General

to provide to the final meeting of the Council to be held just prior to the 2006 Plenipotentiary Conference an updated financial statement of the actual and planned expenses for the RRC-related activities for the overall time-frame.

R 1268 **Four-year rolling Operational Plan of the Radiocommunication Sector for the**
(C07) **2008 to 2011 timeframe**

The Council,

recognizing

the provisions of Article 11A and Article 12 of the Convention,

having considered

the draft four-year rolling Operational Plan of the Radiocommunication Sector for the 2008 to 2011 timeframe,

having also considered

the need for the Director of the Radiocommunication Bureau to have some flexibility in the implementation of the four-year rolling Operational Plan so as to take into consideration any warranted changes that may occur during the interval between two Council sessions,

resolves

to approve the four-year rolling Operational Plan for the Radiocommunication Sector for the years 2008-2011 to undertake the Sector's activities.

Ref.: Documents C07/75 and C07/73.

D 522 Overdue payments for satellite network filings
(C04)

The Council,

taking into account

the provisions of Article 29, paragraph 2, of the Financial Regulations of the Union, which stipulate that “in the case of non-payment of accounts related to cost-recovery activities, the Council may decide to apply different modalities”,

decides

that, for amounts owed in connection with satellite network filings, no interest shall be charged on overdue payments.

Ref.: Documents C04/99 and C04/107.

D 531 Additional corrective measures relating to cost recovery on satellite network filings for those satellite networks subject to Decision 513*
(C05)

The Council,

considering

- a) the revision of the methodology and scale of charges for cost recovery of the processing of space notices established in Decision 482 modified by the Council at its 2002 session;
- b) that in Decision 513 the Council at its 2003 session agreed on the need to address this issue on a temporary basis, pending a review of the charging methodology by the Council at its 2004 session;
- c) that the Council at its 2004 session did not adopt a new charging methodology,

further considering

- a) that for filings subject to Decision 513, which covered multiple categories, the fee was calculated based upon the highest level of unit charge for the categories;
- b) that the application of Decision 513 still resulted in some invoices having values significantly higher than CHF 100 000,

finally considering

- a) the further need to provide some additional corrective measures regarding the deviations of the current charging methodology for processing space notices as set out in Decision 482 modified for very complex networks, leading to large invoices that may not be in line with the amount of work, which may not increase in a linear manner when the number of units is very large and/or the filing covers multiple categories,

* The payment of revised invoices will not reinstate any network which has been cancelled due to non-payment in accordance with the relevant provisions of the Radio Regulations.

decides

1 to invite the Council, at its 2006 session, to transmit this decision to the 2006 Plenipotentiary Conference, for consideration of the implementation of the corrective measures set forth in this decision for invoices issued for the 2002-2003 period, including:

- where the amount of an invoice relating to satellite networks subject to Decision 513, but excluding those networks in Categories 7 and 8 of Decision 482, exceeded CHF 100 000, the Bureau shall set the filing fee to be CHF 100 000;
- for those satellite networks affected by the first bullet above, and not nominated for the free entitlement, the Bureau would issue revised invoices for these filings and shall credit the responsible administration the difference in fees where payment has already been received;
- any credits arising from the application of the second bullet above shall be applied by the Bureau to currently issued but unpaid invoices or future invoices for satellite filings of that administration;
- the affected administrations shall advise the Bureau which invoices shall have the resulting credits applied to them;

2 to invite the Secretary-General to submit a report on this issue to the Council at its 2006 session.

Ref.: Documents C05/107 and C05/116.

D 532 Satellite network filing cost recovery: categories 7 and 8
(C05)

The Council,

considering

- a) Resolution 88 (Rev.Marrakesh, 2002) of the Plenipotentiary Conference, on the implementation of cost recovery for satellite network filings;
- b) Resolution 91 (Minneapolis, 1998) of the Plenipotentiary Conference, on cost recovery for some products and services of ITU, which states that cost-recovery charges for products and services shall be segregated to the specific product or service, covering only the exact cost of providing the product or service to which they relate, and should not be considered as generating revenue or profit,

recognizing

- a) that a discrepancy between the wording of Annex A to Decision 482 (calculation of number of units for categories 7 and 8) and the practical application by the Radiocommunication Bureau was identified by the Council ad hoc Group on satellite network filing cost recovery and reported to Council-04;
- b) Council-04 decided to add a footnote in Annex A to Decision 482 requiring further clarification;
- c) that, after Council-04, BR issued Circular Letter CR/225 which provides the following: “For categories 7 and 8, the “number of associated earth stations (specific or typical recorded in the database)” used to calculate the number of “units” is understood to refer to test points and feeder-link specific associated earth stations recorded in the database, as this has been the case in the application by the Radiocommunication Bureau of Decision 482 (modified, 2002)”;

d) that, at its March 2005 meeting, the Council ad hoc Group became aware that Circular Letter CR/225 did not completely reflect the actual practice of BR and that other elements were taken into account in the calculation of the number of units,

decides

1 that all invoices for all uncanceled filings issued on or after 1 January 2004 under categories 7 and 8 in accordance with Decision 482 (modified, 2002) or Decision 482 (modified, 2004) shall be capped at CHF 100 000, which shall apply to the sum of the calculated fees for the uplink and downlink filings;

2 that the Bureau shall extend the date for payment of invoices referred to in *decides* 1 until 22 October 2005;

D 535 Cost-allocation methodology
(C05)

The Council,

considering

the new cost-allocation methodology that has been elaborated with the aim of enhancing transparency of costs and attributing costs directly to the relevant cost objects to the extent possible (Document C05/12),

decides

to adopt the cost-allocation methodology described in Annex hereto, and that it will enter into force on 1 January 2006.

Annex: 1

ANNEX (to Decision 535)

Cost-allocation methodology within the framework of results-based budgeting

Introduction

1 In line with the recommendation of the Group of Specialists (Resolution 1210, Annex 1), the current cost-allocation methodology has been reviewed so that the costs of individual ITU outputs and activities are transparent and auditable. The main objective is that cost accounting shall efficiently support the development of an accurate activities-based budget, by generating comprehensive financial and management information, by tracking the costs incurred by the Union in performing specific activities under cost recovery, and by providing a tool for budget control and accountability for decentralized appropriations. The box below gives an overview of the objectives and certain characteristics of the methodology within the overall results-based budgeting (RBB) framework.

| <ul style="list-style-type: none">a) Improved cost transparency and auditability throughout the organization, thanks to clear cost object structures and allocation techniques.b) Clearly defined responsibilities for cost planning and control through well-defined cost-centre, activity and output structures.c) Long-term establishment of an organization based on service level agreements with defined or calculated prices per activity unit.d) Greater acceptance of allocation results thanks to a significant increase in the proportion of direct costs allocated by time and/or volume.e) More effective evaluation of performance by means of parallel cost-benefit analysis based on pre-defined key performance indicators for each activity and output.f) Improved cost tracking and monitoring through step-by-step cost allocation and analysis (drill-down). |

2 With regard to the specific terminology relating to results-based budgeting and/or cost accounting, please refer to the glossary of terms in Annex 4 to Document C05/10. Further, the list of outputs and activities relevant to the draft budget for 2006-2007 can be consulted at:

Cost-allocation methodology

3 The cost-allocation methodology presented in this document is an important component of the overall methodical approach. The diagram below gives a high-level overview of the cornerstones of the approach.

4 The cost centre constitutes the basis for both cost allocation and performance evaluation. A cost centre is the smallest organizational and operational unit where costs can be planned and controlled. A cost centre has responsibility for one or more activities. The costs readily identifiable with these activities are referred to as primary costs. In addition, a cost centre consumes services provided by other cost centres (e.g. IS services). These costs are referred to as secondary costs, since they are not directly linked with the cost centre, but are necessary in order for the cost centre to perform its activities.

5 Both the own resources (primary costs) and the additionally consumed services (secondary costs) are transformed into activities (e.g. checking orders, producing studies, implementing IT solutions) through a transformational step. Two types of activities are differentiated: general activities, which are common to all cost centres, and specific activities, which are directly linked with the specific characteristics of a given cost centre. To ensure that the activities performed by the cost centres meet requirements in terms of timeliness and quality, so-called key performance indicators (KPIs) are defined to allow an integrated cost/performance analysis.

6 Based on the combination of activities from different cost centres, outputs are generated. Outputs are products delivered and/or services provided to the membership or external customers. A distinction is made between Sector outputs and intersectoral outputs, which are not related to a specific Sector of the Union. For performance evaluation, KPIs are also defined for the different outputs.

7 In order to allocate the costs of the departments of the General Secretariat (GS) and the Bureaux fully to outputs, the proposed cost-allocation methodology applies a sequential process, comprising six steps.

Step	Action	Target
1	Plan cost centre resources by category of expenditure	Assignment of staff costs and other costs to cost objects (cost centres and outputs)
2	Determine capacities and costs of staff resources	Planning of net staff capacity in work-months and calculation of rates
3	Allocate resources and capacities to activities	Planning of net delivery capacity in volume (e.g. pages) and calculation of allocation price of activities
4	Allocate activities to internal service receivers	Invoicing of internal services (partly SLA-based), by crediting the provider and debiting the receiver
5	Define rules for the distribution of remaining costs to outputs	Calculation of the indirect distribution of remaining costs by key to outputs
6	Synthesis – Principle of full costing	All costs are allocated to outputs

Step 1 Plan cost centre resources by category of expenditure

Which cost elements are allocated to a cost centre?

1 Based on the draft budget for 2006-2007, the cost-accounting system administers some 180 cost centres for the departments and sub-units of the General Secretariat and the Bureaux, and 53 outputs (referred to as “internal orders” in the information system) representing the ITU projects and services provided to the membership and external customers.

2 Taking into account:

- a) the authorized budget limits set by the governing bodies of the Union;
- b) the provisions of Article 7 of the Financial Regulations;
- c) the prevailing budget guidelines;
- d) the planned biennial work programme, i.e. preparation and execution of conferences, meetings, cost-recovery services, etc.,

the basic needs in terms of resources necessary to generate the expected results are identified for each cost centre and output. The methodology assumes that each cost centre contributes actively to organizing and executing the output programme and to achieving the objectives set.

Step 2 Determine capacities and costs of staff resources

How much does one hour of service provided by staff cost?

1 In each cost centre, the planned capacity for every staff member is identified, in terms of work-months (12 months or less per year) in the corresponding grade. The planned capacity expressed in work-months represents the budgeted capacity of all posts assigned to a cost centre. This capacity figure is in fact the gross working capacity, which is in practice not fully available for service-related work due to holidays and other absence. To be realistic, the gross capacity has to be transformed into a net working capacity per staff member.

2 The individual net staff working capacity is calculated as follows:

- a) Net annual working days:

$365 \text{ days} - 104 \text{ weekend days} - 30 \text{ days annual leave} - 9 \text{ official holidays} - 12 \text{ average days of absence (training, sick leave)} = 210 \text{ net working days.}$
--

- b) Net annual capacity in hours per staff:

$210 \text{ net working days} * 8 \text{ hours/day} = 1\,680 \text{ hours /year.}$
--

3 Based on the net annual capacity per staff member, the standard rate per hour and grade is calculated for each cost centre. Hourly rates include staff costs and other costs (representative cost mix of the cost centre), as planned in Step 1, in conformity with the full cost-allocation principle.

4 The costs of services are allocated using average rates per grade and per cost centre. The use of average rates enables the application of unified allocation tariffs, and facilitates the control of staff costs at the level of the cost centre.

Step 3 Allocate resources and capacity to activities

How much does one unit of an activity cost?

1 The service catalogue lists all activities planned by cost centre, in accordance with the biennial work programme.

2 Activities are classified into two types, as stated above: general activities that can be provided by any cost centre, and specific activities that can be provided only by the cost centres of a specific department (e.g. “financial reporting” can be provided by several cost centres of the Finance Department).

3 Based on the methodology, service costs are allocated using two different so-called cost drivers: Time (all general activities and most of the specific activities are time-based and invoiced per service hour), and Volume (e.g. number of pages for documentation).

4 Under the methodology applied until 2005, virtually all costs were charged indirectly using key-based allocation measures (e.g. headcount in each cost centre), with the exception of documentation services, where the cost driver was already the number of pages for translation, typing and reprography.

5 The increased use of direct allocation measures, underpinned by the time-tracking system in the allocation process for actuals, enhances transparency and accuracy in the methodology. By means of such driver-based allocation, the proportion of costs that are indirectly allocated is reduced significantly. The following statistics illustrate this improvement (reference is made to the draft budget for 2006-2007):

Cost-allocation item	Methodology 2004-2005	Methodology 2006-2007
Volume-based activities	13	48
Time-based activities	–	96
General activities	–	17
Specific activities	–	127
Total direct allocation by cost drivers	13	144
Methods of indirect allocation by key	8	1 (see step 5)
Amount indirectly allocated	CHF 130 million or 80% of GS costs	CHF 37.9 million or 11% of total costs
Time tracking	Biennial retrospective time survey by the Sector Bureaux and LAU, CEC and SPU	Recorded on a daily basis by all staff members

6 Volume tracking is mainly done using the already existing document production system (DPS) recording pages produced per document.

7 The total primary costs of the cost centres identified in Step 1 are allocated to activities on the basis of time or volume.

8 As with the planning of the staff work-months (Step 2), each service provider plans the net delivery capacity for the different activities. The net capacity for each activity will be determined also by constraints such as the net staff working capacity, maximum production capacity (e.g. translation of pages by specialized staff) and technical capacity limits of machinery.

9 The unit price (standard rate or planned rate) of an activity is:

$$\text{Unit price} = \text{Activity's costs} / \text{planned delivery capacity}.$$

For documentation-related services such as translation, typing and reprography, or other services, as appropriate, prices that reflect historical data may be used in order to ensure continuity. The unit price is re-evaluated monthly based on actual cost and capacity information.

10 The activity rate is used for invoicing the volume of services provided to the service receiver. “Invoicing of services” is the basic tool in the cost-allocation methodology, by means of which the costs of the operational infrastructure of the Union are systematically allocated to outputs.

11 Direct cost allocation is, as far as possible, the main objective. The costs that cannot be allocated directly are, according to the methodology, defined as remaining costs (see Step 5). In order to reduce the amount of remaining costs in the draft budget for 2006-2007, a flat mark-up factor of 10% has been applied to all activity prices except for documentation services. This factor of 10% is based on best practices. The allocation of the remaining costs to outputs is proportional to the amounts of direct costs (“cost bearing principle”).

Step 4 Allocate activities to internal service receivers

How much does the service receiver have to pay, and for what?

1 Based on the forecast level of service delivery requirements (time for staff services, and volume for other driver-based activities) for each service receiver, the cost of activities is calculated by multiplying the amount of service (in hours or units of volume) by the unit rate (from Steps 2 and 3).

2 If the costs cannot be charged directly to outputs, as a second choice they should be allocated to the special generic cost centre of the receiving department (see also Step 1), from where they are subsequently allocated indirectly to the outputs (see Step 5), along with the costs incurred by the department’s own consumption of services, on a pro-rata key basis (see Step 5).

3 During budget implementation, the costs of activities are charged to outputs based on planned standard rates and on actual volume information captured from the time-tracking system and the document production system. Standard rates are recomputed on a regular basis (at the end of each month if appropriate) to reflect actual costs. The amounts charged are thus adjusted for variances occurring between the planned and actual costs.

Step 5 Distribute remaining costs to outputs

Which cost-centre costs have not yet been invoiced to outputs?

1 All remaining costs that have not been allocated directly to outputs through the invoicing of services (see Step 4) are, as a final step, distributed from the generic cost centres to the outputs, using an indirect key-based allocation scheme. The cost-accounting methodology keeps track of these costs within the generic cost centres.

2 The ITU cost-allocation methodology distinguishes two cases where costs cannot be charged directly to outputs:

- a) the service receiver to which activities have been invoiced is itself a cost centre;
- b) a cost centre has received costs for services for its own consumption.

3 Such remaining costs are allocated to outputs at pro-rata of the amounts that have been directly charged (see Step 4), for the General Secretariat as a whole and for each Sector.

4 In the case of the draft budget for 2006-2007, for instance, some 11% of the primary costs of the departments of the GS and Bureaux were allocated indirectly by key.

Step 6 Synthesis – Principle of full costing

What is the nature of the full costs allocated to the outputs?

- 1 Once the remaining costs have been distributed, the full costs of all cost centres (corresponding to the total primary costs in Step 1) are allocated to outputs.
- 2 This sequential cost-allocation process enables the financial information system to show all cost elements detailed by account, activity, provider, cost and volume, for both the planned and the actual values at output level.
- 3 Furthermore, the system keeps track of all provider/receiver relationships so that the cost-allocation path can be retraced at any time.

Output report	Nature	Planned cost & volume	Actual cost & volume	Variances (planned/ actual cost & volume)
Direct costs	From Step 1			
Services received	From Step 4			
Indirect costs	From Step 5			
Revenue*)	Income*)			
Grand total				

*) For outputs subject to cost recovery, the appropriate amount of revenue is directly allocated to the output to make any surplus/shortfall in relation to the total costs of the output transparent.

D 528 **Fostering discussion of issues revealed by further consideration of a WTSA Decision**
(C05)

The Council,

considering

a) that ITU is an intergovernmental agency of the United Nations in which Member States cooperate for the fulfilment of the purposes of the Union as set out in Article 1 of the Constitution;

b) that the Alternative Approval Procedure (AAP) has been highly successful producing nearly 800 Recommendations since its adoption in 2000;

c) that global standards developed by consensus serve the interests of all Member States facilitating the development of telecom infrastructure and services and are a core competency of the Union;

d) that technical Recommendations that are adopted under AAP should not address regulatory issues but that many technical matters may have policy or regulatory implications,

further considering

a) that the Purposes of the Union must be respected in all working procedures of the Sectors of the Union, including:

i) to maintain and extend international cooperation among all its Member States for the improvement and rational use of telecommunications of all kinds (CS 3);

- ii) to promote the extension of the benefits of the new telecommunication technologies to all the world's inhabitants (CS 6);

- iv) facilitate the worldwide standardization of telecommunications with a satisfactory quality of service (CS 13);

noting

that this is seen by some Member States as a fundamental ITU issue involving Council and Member States,

noting further

that all Member States should engage in discussion of this issue in order to clarify matters,

taking into account

that World Telecommunication Standardization Assembly (WTSA) Resolution 40 on “Regulatory aspects of ITU-T work” could be used as a vehicle to assist in the Resolution of the problem and that, pursuant to TSB Circular 25, the Director is conducting consultations on this issue,

requests that the Director of the TSB

a) work with the TSAG in discussing this issue in light of the concerns expressed in contributions to and views expressed during Council 2005, and address the implications of changes made to ITU-T Recommendation A.8, paragraph 5.4, such as:

- whether it weakens or strengthens the AAP; and
- whether it undermines or reinforces the historic ITU-T practices regarding global consensus critical to securing world-wide acceptance of ITU-T Recommendations; and

b) provide a report of their review to Council 2006,

instructs the Secretary General

to include with the report of the Working Group on Structure (C05/34), the summary records of Council 2005 and pertinent contributions on this issue, together with the relevant part of the report of the TSAG meeting which discussed this issue, and distribute them to Member States for their reflection on this matter,

R 1143 Strengthening the regional presence

(C-1999)

The Council,

considering

- a) Resolution 25 (Minneapolis, 1998) of the Plenipotentiary Conference;
- b) Resolution 71 (Minneapolis, 1998) of the Plenipotentiary Conference;
- c) Resolution 5 of the World Telecommunication Development Conference (Valletta, 1998);
- d) Council Resolution 1114 (Geneva, 1997),

recalling Resolution 25 (Kyoto, 1994) of the Plenipotentiary Conference,

reaffirming

- a) the importance of regional presence for achieving the purposes of the International Telecommunication Union;
- b) that the regional presence is a structural option for pursuing the purposes of the Union in the field in order to meet the needs of the membership;
- c) that if it is to play a pre-eminent role in the development of telecommunication networks and services worldwide, ITU must meet the needs of its membership,

emphasizing that the regional presence, as an integral part of the Union's overall activities, should reflect a "project management" approach based on operational processes that are coordinated between headquarters and the regional offices,

noting with satisfaction that steps have been taken to implement Resolution 25 (Minneapolis, 1998) as indicated in Document C99/14,

noting further that it is important for the regional offices to draw up their draft operational plans within the framework of the BDT operational plan, the guidelines as laid down in the strategic plan and the specific conditions of each region,

aware

- a) that Resolution 74 (Minneapolis, 1998) calls for the review and improvement of the management, functioning and structure of ITU and that this review will encompass the regional presence;
- b) that it is important to address the immediate needs of Member States and Sector Members,

resolves

1 that the role of the regional presence is to help fulfil the purposes of the Union in order to meet the needs of its membership through work in the field with telecommunication administrations and regulatory bodies, in particular those in the developing countries, including through collaboration with national, subregional and regional institutions, organizations and other entities;

2 that the regional presence, as an integral part of ITU, should support implementation of the decisions, recommendations, actions, programmes and projects approved by the Union through direct and ongoing collaboration with competent national authorities and regional and subregional organizations;

3 that the regional presence shall serve, as necessary, to represent the Secretary-General or the Bureau Director of one of the three Sectors;

4 that the functions of the regional presence stemming from ITU's dual role as a United Nations specialized agency and executing agency must be clarified, and that the activities described in Resolution 71 (Minneapolis, 1998) must be made clear and implemented e.g. by assigning to the regional presence the generic activities listed in Annex A to this Resolution;

5 that the regional presence, acting within the framework of the relevant international organizations, should serve as an advocate for the ITU's perspectives on telecommunication development;

6 that the involvement and participation of the developing countries and Sector Members in the regional presence and in all the activities of the Union, including the activities of ITU-R and ITU-T, should be enhanced,

instructs the Director of the Telecommunication Development Bureau, in close collaboration with the Secretary-General and the Directors of BR and TSB:

- 1 to establish closer contacts with Member States, Sector Members and various telecommunication operators from each region in order to gain a clearer understanding and take account of what they expect from the regional presence;
- 2 to set quantified objectives for the implementation of the operational plan, setting out specific constraints in terms of quality, allocated resources and/or time-frames, in consultation with TDAG;
- 3 to determine appropriate performance measurement systems for monitoring the activities referred to in *resolves* 4 (adapting them to the specific characteristics of the regional context), as well as those relating to the various programmes which come under the regional presence;
- 4 to prepare a report to the 2000 session of the Council on the extent to which the above objectives have been met and on planned objectives for 2001;
- 5 to implement gradually the decisions taken by the Council in its Resolution 1114 (Geneva, 1997);
- 6 to draw up and submit to TDAG, for opinion, an action plan to give effect to the instructions handed down under *instructs the Director of BDT* in Resolution 25 (Minneapolis, 1998) within the time-frame stipulated therein;
- 7 to report annually on the progress made in implementing the operational plan drawn up with each regional office, on the basis of quantified and measurable objectives;
- 8 to make the necessary adjustments to BDT's structure, both at headquarters and in the field, in order to balance the strengthening of regional resources (including through the transfer of resources from headquarters to the regional offices) with improved competence in the areas of backstopping, monitoring and coordination at headquarters;
- 9 to define and improve, both at headquarters and in the field, the operational processes pertaining to the regional presence, in order to ensure more effective utilization of resources and avoid duplication,

instructs the Secretary-General and the Directors of BDT, BR and TSB to proceed with the appropriate delegations, bearing in mind the specific circumstances and priorities in each region, with a view to enhancing the effectiveness of the regional presence,

instructs the Directors of BR and TSB to prepare for the 2000 session and subsequent sessions of the Council a report on the involvement and effective participation of members in the regions in the activities of their respective Sectors and on the measures taken to strengthen that involvement and participation,

further instructs the Secretary-General to report back to the 2000 session and subsequent sessions of the Council pursuant to Resolution 25 (Minneapolis, 1998).

R 1270 **Four-year rolling Operational Plan of the Telecommunication Development Sector for the 2008 to 2011 timeframe**

recognizing

the provisions of Article 18 of the Convention,

having considered

the draft four-year rolling Operational Plan of the Telecommunication Development Sector for the 2008 to 2011 timeframe (see www.itu.int/ITU-D/pdf/op/OP2008-2011.PDF),

6 EXTERNAL RELATIONS

6.1 ITU Membership

R 88 **Relations of the General Secretariat of the Union with States or administrations which are not Members of the Union**
(C-1948, last amended (C-1976))

The Council,

considering that it is advisable to give precise instructions to the Secretary-General in regard to the attitude he must adopt in the event of receiving communications from States or administrations which are not Members of the Union, and also in regard to the dispatch of documents of the Union that such States or administrations might request,

resolves that

1 with the exception specified below, the Secretary-General may correspond with, or forward documents to, Members;

2 the Secretary-General is authorized to correspond with States or administrations not mentioned in paragraph 1 above, with a view to informing them on accession to the Union and the implementation of the Convention or Regulations, or in the case of formal requests to accede, transmitted in accordance with the procedure laid down in the Convention;

3 in respect of any other communication he may receive from a State or administration which is not a Member, the Secretary-General shall take the following steps:

- a) if the communication concerns a matter of policy that the Council should normally consider and resolve, or in the case of doubt, he shall restrict himself to acknowledging it, informing the sender that it will be referred to the Council;
- b) if the communication is clearly of a factual nature, connected with the telecommunication services, the Secretary-General shall acknowledge it, informing the sender that a copy will be sent to the Members of the Union for their information, and shall take action accordingly in each case;

4.1 in cases referred to in paragraph 3 b) above, the Secretary-General shall publish the communication received under the heading: "Information received from sources outside the Union", followed by a note to the effect that the publication of the information in question does not imply recognition of the status of the sender in relation to the Union;

4.2 however, if the nature of the information received is such as to warrant its inclusion in official documents, it shall not be published separately, but shall be incorporated in the appropriate documents, under the title and with the explanatory note referred to in paragraph 4.1;

5.1 requests for documents, public sale of which is authorized, may be complied with in return for payment;

5.2 all Notifications, communications and circular letters distributed gratis by the Secretary-General to Members of the Union shall be furnished by him to any private individual or to any organization on request in return for payment at a price to be fixed by the Secretary-General;

6 until Germany becomes a Member once again, the Secretary-General is authorized to correspond with the Allied Control Commission in Germany; he shall, as a practical measure, be provisionally authorized to correspond with the occupation zones of Germany, bearing in mind the practice at present in force.

R 177 Circular telegrams to administrations

(C-1950)

The Council,

considering that the practice of circulating by telegram to all administrations communications emanating from an administration throws heavy burden on all administrations and private operating agencies, which is justified only in cases of urgent necessity for the services of the Union,

recommends

1 the administrations of the Union to refrain, insofar as possible, from requesting that their communications to the Union should be forwarded by circular telegram, restricting such requests to strictly indispensable cases;

2 that the Secretary-General, when he receives a communication from a Member of the Union with the request that he should forward it to all the other Members, by circular telegram, should comply only if he judges that the matter is urgent and of fundamental importance to the services of the Union, which might be prejudiced if telegraph is not used;

3 that in all other cases, he shall use the post, informing the administrations in question accordingly and referring to the present Resolution. If the administrations should insist on a circular telegram, the Secretary-General shall comply with the request.

R 216 Applications for Membership of the Union

(C-1951, last
amended
C-1984)⁸

The Council,

in view of the provisions of Nos. 2 to 6 of the Nairobi Convention, 1982, regarding applications for Membership of the Union,

considering

a) that there is no provision in the Convention limiting the number of applications for admission which may be made by any one country;

b) that the Secretary-General is not qualified to express an opinion upon the status of a country or the Government thereof having submitted an application,

resolves

1 that in accordance with No. 11 of the Nairobi Convention, 1982, Members which have signed and ratified the Convention or have acceded hereto are permitted to vote on the admission of a new Member (see also No. 178 of the Convention);

2 that applications for admission as Member sent to the Secretary-General, as well as the results of the consultations communicated by the Secretary-General to the applicant governments, must be sent through diplomatic channels and through the intermediary of the Swiss Government;

3 that a country of which the application for Membership has been declared unsuccessful may at any time make further application for Membership;

⁸ See also Decision 185.

4 that the procedure for treatment of an application, whether it is made for the first time or following one or more unsuccessful applications, shall be as follows:

- a) upon receipt of an application, the Secretary-General shall, as soon as possible, inform by telegram all countries listed in Annex 1 to the Convention and countries which have acceded to that Convention;
- b) the telegram shall specify that the countries called upon to give an opinion on the request for admission are those which have ratified or acceded to the Convention, together with those which ratify the Convention before the end of the consultation period provided that, at that time, they have not lost their right of vote under No. 117 of the Convention;
- c) the text of the telegram shall be confirmed by letter;
- d) upon expiry of the period of four months from the date of dispatch of the telegram, the Secretary-General shall determine whether the requisite majority vote in favour has been cast, namely, two-thirds of the countries indicated in b) above;

5 that the result of the consultation shall be published in a Notification of the Union, which shall list the Members voting in favour of admission and those voting against.

R 262 **Complaints from Members of the Union against other Members of the Union**

(C-1952, last
amended
C-1984)

The Council,

considering

- a) that the Secretary-General is requested to inform all Members of the Union of complaints made by certain Members, and of concern to a limited number of Members only;
- b) that the Secretary-General is not competent to intervene in disputes arising between Members of the Union;
- c) that two procedures are laid down for the settlement of disputes;
 - a) direct, friendly negotiations between the Members concerned;
 - b) recourse to the provisions of article 50 of the Nairobi Convention, 1982,

invites Members of the Union to abstain from calling upon the Secretary-General to acquaint other Members with their disputes, either by publication in a Notification or by any other means,

instructs the Secretary-General to refer those Members submitting complaints against other Members to the terms of the present Resolution, and to advise them that, in consequence, he cannot comply with their request.

(C-1990)

The Council,

pursuant to Resolution 64 (PLEN/2) of the Plenipotentiary Conference, Nice, 1989,

considering that Resolution 64 (PLEN/2) of the Plenipotentiary Conference of the ITU (Nice, 1989) instructs the Council to form a Committee from among its Members with the task of ascertaining the facts concerning Israel’s violations of the International Telecommunication Convention (Nairobi, 1982) and of reporting to the Council on those violations,

taking into account

- a) the results of the consultations of the Members of the Council during its 45th session;
- b) the need to establish a fact-finding Committee, from Members of the Council with regard to both a balanced distribution and the readiness of individual Members of the Council to serve on this Committee;
- c) the inability of the 45th session of the Council to form this Committee,

resolves

1 that the terms of reference of the above Committee shall be to ascertain the facts concerning Israel’s violations of the International Telecommunication Convention (Nairobi, 1982)⁹ which, within the occupied Palestinian and other Arab territories, prevent the Palestinian people and Arab civilians from making unrestricted use of telecommunication facilities;

2 to entrust the Secretary-General to constitute a fact-finding Committee consisting of at least five administrations from different regions within three months, and not later than 31 December 1990;

3 that the Committee may select its own Chairman,

instructs the Secretary-General to provide, within the limits of available resources, the secretariat and other assistance which may be required by the Committee,

invites Members of the Union to provide every assistance that may be required to facilitate the work of the Committee,

R 1097 Right to vote of Members of the Union

(C-1996)

The Council,

noting

a) that, pursuant to the provisions of No. 210 of the Constitution (Geneva, 1992), signatory Members which have not deposited an instrument of ratification, acceptance or approval of the Constitution and of the Convention shall no longer be entitled to vote, as from 1 July 1996, at any conference of the Union, at any session of the Council, at any meeting of any of the Sectors of the Union, or during consultation by correspondence, until they have so deposited such an instrument;

b) that non-signatory Members which have not yet deposited an instrument of accession to the Constitution and Convention (Geneva, 1992) have not had the right to vote since 1 July 1994, the date of entry into force of those two instruments,

noting further Recommendation 1 of the Plenipotentiary Conference (Kyoto, 1994) on deposit of the above-mentioned instruments,

considering that it is of the greatest importance that the Members of the Union should enjoy all their rights and, in particular, that they should be able to exercise their right to vote at conferences and meetings or in formal consultations of the Union,

resolves to urge all Members of the Union which have not yet deposited their single instrument to expedite their respective national procedures for ratification, acceptance or approval of (see Article 52 of the Constitution), or accession to (see Article 53 of the Constitution), the Constitution and the Convention of the International Telecommunication Union (Geneva, 1992) and to deposit their single instrument with the Secretary-General as soon as possible,

instructs the Secretary-General

resolves

to authorize the Secretary-General to delete the entities or organizations appearing in Annex A to Document C06/25 from the list of Sector Members in conformity with the provisions of No. 241 of the Convention with effect from 1 January 2007 if no repayment agreement is concluded with those entities or organizations before that date.

The Council,

having considered the provisions of Article V of the Agreement between the ITU and the United Nations,

considering that, as the Secretary-General has stated, the United Nations sends him free of charge many of the documents of the United Nations and its specialized agencies,

resolves to authorize the Secretary-General to send free of charge to the UN the documents and publications of the ITU as long as this reciprocal arrangement is maintained. (C-1950, last

- b) that the question of the conflict between the provisions of Article IV, section 11, of the above-mentioned Convention, on the one hand, and the definition of Government Telegrams and Government Telephone Calls given in Annex 2 to the International Telecommunication Convention, on the other, still remains unresolved,

recognizing that this question of conflict is the subject of Resolution 40 of the Plenipotentiary Conference, Nairobi, 1982,

ANNEX 2

RESOLUTION 2396 (XXIII)

THE POLICIES OF APARTHEID OF THE GOVERNMENT OF THE REPUBLIC OF SOUTH AFRICA

The General Assembly,

recalling its Resolutions on this question and Security Council Resolutions 181 (1963) of 7 August 1963, 182 (1963) of 4 December 1963, 190 (1964) of 9 June 1964 and 191 (1964) of 18 June 1964,

having considered the report of the Special Committee on the Policies of *apartheid* of the Government of the Republic of South Africa and the report of the Sub-Committee on Information on *apartheid* annexed thereto,

taking into account the decisions and recommendations contained in the Proclamation of Teheran adopted by the International Conference on Human Rights, held at Teheran from 22 April to 13 May 1968,

noting with concern that the Government of South Africa continues to intensify and extend beyond the borders of South Africa its inhuman and aggressive policies of *apartheid* and that these policies have led to a violent conflict, creating a situation in the whole of southern Africa which constitutes a grave threat to international peace and security,

recognizing that the policies and actions of the Government of South Africa constitute a serious obstacle to the exercise of the right of self-determination by the oppressed people of southern Africa,

convinced that the international campaign against *apartheid* must be intensified urgently in order to assist in securing the elimination of these inhuman policies,

- a) condemns the Government of South Africa for its cruel, inhuman and degrading treatment of political prisoners;
- b) calls once again for the release of all persons imprisoned or restricted for their opposition to *apartheid* and appeals to all Governments, organizations and individuals to intensify their efforts in order to induce the Government of South Africa to release all such persons and to stop the persecution and ill-treatment of opponents of *apartheid*;
- c) declares that such freedom fighters should be treated as prisoners of war under international law, particularly the Geneva Convention relative to the Treatment of Prisoners of War of 12 August 1949;

10 *urges* the Governments of all States to discourage, in their territories, by legislative or other acts, all activities and organizations which support the policies of *apartheid* as well as any propaganda in favour of the policies of *apartheid* and racial discrimination,

11 *requests* all States to discourage the flow of immigrants, particularly skilled and technical personnel, to South Africa,

12 *requests* all States and organizations to suspend cultural, educational, sporting and other exchanges with the racist régime and with organizations or institutions in South Africa which practice *apartheid*,

15 *request* the Special Committee to intensify its efforts to promote the international campaign against *apartheid* and, to this end, authorizes it:

RESOLUTION 2426 (XXIII)¹³

IMPLEMENTATION OF THE DECLARATION ON THE GRANTING OF INDEPENDENCE TO COLONIAL COUNTRIES AND PEOPLES BY THE SPECIALIZED AGENCIES AND THE INTERNATIONAL INSTITUTIONS ASSOCIATED WITH THE UNITED NATIONS

The General Assembly,

having considered the item entitled “Implementation of the Declaration on the Granting of Independence to Colonial Countries and Peoples by the specialized agencies and the international institutions associated with the United Nations”,

recalling the Declaration on the Granting of Independence to Colonial Countries and Peoples contained in General Assembly Resolution 1514 (XV) of 14 December 1960,

recalling its Resolution 2311 (XXII) of 14 December 1967 and other relevant General Assembly Resolutions,

taking into account the relevant reports submitted by the Secretary-General, the Economic and Social Council and the Special Committee on the Situation with regard to the Implementation of the Declaration on the Granting of Independence to Colonial Countries and Peoples concerning the implementation of the Declaration by the specialized agencies and international institutions associated with the United Nations,

bearing in mind that the national liberation movements in several colonial Territories, and particularly in Africa, require the urgent assistance of the specialized agencies, particularly in the field of education, health and nutrition, in their struggle to attain freedom and independence,

¹³ See Resolution 765/CA30 (1975).

noting with regret that some of the specialized agencies and international institutions associated with the United Nations, and in particular the International Bank for Reconstruction and Development and the International Monetary Fund, have not so far implemented Resolution 2311 (XXII) and other relevant Resolutions,

considering that, by virtue of the Charter of the United Nations, in particular Chapters IX and X, the United Nations shall make recommendations for the coordination of the policies and activities of the specialized agencies,

1 *reiterates its appeal* to the specialized agencies, the International Atomic Energy Agency and the international institutions associated with the United Nations to extend their full cooperation to the United Nations in the achievement of the objectives and provisions of General Assembly Resolution 1514 (XV) and other relevant Resolutions,

2 *expresses its appreciation* to the Office of the United Nations High Commissioner for Refugees and to those specialized agencies and international institutions which have cooperated with the United Nations in the implementation of the relevant General Assembly Resolutions,

3 *recommends* that the specialized agencies and international institutions concerned should assist the peoples struggling for their liberation from colonial rule and, in particular, should work out, within the scope of their respective activities and in cooperation with the Organization of African Unity and, through it, with the national liberation movements, concrete programmes of assistance to the oppressed peoples of Southern Rhodesia, Namibia and the Territories under Portuguese domination,

4 *appeals once again* to all the specialized agencies and international institutions and, in particular, the International Bank for Reconstruction and Development and the International Monetary Fund, to take all necessary steps to withhold from the Governments of Portugal and South Africa financial, economic, technical and other assistance until they renounce their policies of racial discrimination and colonial domination,

5 *recommends* that the International Bank for Reconstruction and Development should withdraw the loans and credits which it has granted to the Governments of Portugal and South Africa, which are being used by those Governments to suppress the national liberation movements in the Portuguese colonies and in Namibia, and against the African population of the Republic of South Africa,

ANNEX 4

RESOLUTION 2465 (XXIII)¹⁴

IMPLEMENTATION OF THE DECLARATION ON THE GRANTING OF INDEPENDENCE TO COLONIAL COUNTRIES AND PEOPLES

The General Assembly,

recalling the Declaration on the Granting of Independence to Colonial Countries and Peoples contained in its Resolution 1514 (XV) of 14 December 1960,

recalling its Resolutions 1654 (XVI) of 27 November 1961, 1810 (XVII) of 17 December 1962, 1956 (XVIII) of 11 December 1963, 1970 (XVIII) of 16 December 1963, 2105 (XX) of 20 December 1965, 2189 (XXI) of 13 December 1966 and 2326 (XXII) of 16 December 1967,

recalling also its Resolutions 2288 (XXII) of 7 December 1967 and 2425 (XXIII) of 18 December 1968 concerning the item entitled “Activities of foreign economic and other interests which are impeding the implementation of the Declaration on the Granting of Independence to Colonial Countries and Peoples in Southern Rhodesia, Namibia and Territories under Portuguese domination and in all other Territories under colonial domination and efforts to eliminate colonialism, *apartheid* and racial discrimination in southern Africa”,

recalling further its Resolutions 2311 (XXII) of 14 December 1967 and 2426 (XXIII) of 18 December 1968 concerning the implementation of the Declaration on the Granting of Independence to Colonial Countries and Peoples by the specialized agencies and the international institutions associated with the United Nations,

taking into account the Final Act of the International Conference on Human Rights, held at Teheran from 22 April to 13 May 1968,

noting with grave concern that eight years after the adoption of the Declaration many Territories are still under colonial domination,

deploring the failure of those colonial Powers, especially Portugal and South Africa, which have not complied with the Declaration and relevant Resolutions on the question of decolonization, particularly those relating to the Territories under Portuguese domination, Southern Rhodesia and Namibia, and gravely concerned about the attitude of those Member States which have not fully cooperated in the implementation of the above-mentioned Resolutions,

bearing in mind that the continuation of colonialism and its manifestations, including racism and *apartheid*, and the attempts of some colonial Powers to suppress national liberation movements by repressive activities against colonial peoples are incompatible with the Charter of the United Nations, the Universal Declaration of Human Rights and the Declaration on the Granting of Independence to Colonial Countries and Peoples,

deploring the attitude of certain States which, in disregard of the pertinent Resolutions of the Security Council, the General Assembly and the Special Committee on the Situation with regard to the Implementation of the Declaration on the Granting of Independence to Colonial Countries and Peoples, continue to cooperate with the Governments of Portugal and South Africa and with the illegal racist minority régime in Southern Rhodesia, which are continuing to repress the African peoples,

¹⁴ See also Resolution 765/CA30 (1975).

gravely concerned about the development in southern Africa of the *entente* between the Governments of Portugal and South Africa and the illegal racist minority régime in Southern Rhodesia, the activities of which endanger international peace and security,

convinced that further delay in the speedy and effective implementation of the Declaration remains a source of international conflicts and differences, which are seriously impeding international cooperation and endangering world peace and security,

stressing once again the need for the large-scale and continuous publicizing of the work of the United Nations in the field of decolonization, of the situation in the colonial Territories and of the continuing struggle for liberation being waged by the colonial peoples,

recalling that the year 1970 will be the tenth anniversary of the adoption of the Declaration,

1 *reaffirms* its Resolution 1514 (XV) and all of its other Resolutions on the question of decolonization,

2 *notes with satisfaction* the work accomplished by the Special Committee on the Situation with regard to the Implementation of the Declaration on the Granting of Independence to Colonial Countries and Peoples and expresses its appreciation to the Special Committee for its efforts to secure the complete and effective implementation of the Declaration,

3 *approves* the report of the Special Committee covering its work during 1968, including the programme of work envisaged by the Committee during 1969, and urges the administering Powers to give effect to the recommendations contained in that report for the speedy implementation of the Declaration and the relevant United Nations Resolutions,

4 *reiterates* its declaration that the continuation of colonial rule threatens international peace and security and that the practice of *apartheid* and all forms of racial discrimination constitutes a crime against humanity,

5 *reaffirms* its recognition of the legitimacy of the struggle of the colonial peoples to exercise their right to self determination and independence and notes with satisfaction the progress made in the colonial Territories by the national liberation movements, both through their struggle and through reconstruction programmes, and urges all States to provide moral and material assistance to them,

6 *urges* all States to comply strictly with the provisions of its various Resolutions and those of the Security Council concerning the colonial Territories, and in particular to give the necessary moral, political and material support to the peoples of those Territories in their legitimate struggle to achieve freedom and independence,

7 *requests* all States, as well as the specialized agencies and international institutions, to withhold assistance of any kind from the Governments of Portugal and South Africa and from the illegal racist minority régime of Southern Rhodesia until they renounce their policy of colonial domination and racial discrimination,

8 *declares* that the practice of using mercenaries against movements for national liberation and independence is punishable as a criminal act and that the mercenaries themselves are outlaws, and calls upon the Governments of all countries to enact legislation declaring the recruitment, financing and training of mercenaries in their territory to be a punishable offence and prohibiting their nationals from serving as mercenaries,

9 *requests* the colonial Powers to dismantle their military bases and installations in colonial Territories and to refrain from establishing new ones and from using those that still exist to interfere with the liberation of the peoples in colonial Territories in the exercise of their legitimate rights to freedom and independence,

10 *once again condemns* the policies, pursued by certain colonial Powers in the Territories under their domination, of imposing non-representative régimes and constitutions, strengthening the position of foreign economic and other interests, misleading world public opinion and encouraging the systematic influx of foreign immigrants while displacing, deporting and transferring the indigenous inhabitants to other areas, and calls upon those Powers to desist from such maneuvers,

11 *requests* the Special Committee to continue to perform its task and to seek suitable means for the immediate and full implementation of the Declaration in all Territories which have not yet attained independence,

12 *requests* the Special Committee to make concrete suggestions which could assist the Security Council in considering appropriate measures under the Charter of the United Nations with regard to developments in colonial Territories which are likely to threaten international peace and security, and recommends that the Council take such suggestions fully into consideration,

13 *requests* the Special Committee to continue to examine the compliance of Member States with the Declaration and with other relevant Resolutions on the question of decolonization, particularly those relating to the Territories under Portuguese domination, Southern Rhodesia and Namibia, and to report thereon to the General Assembly at its twenty-fourth session,

14 *invites* the Special Committee to pay particular attention to the small Territories and to recommend to the General Assembly the most appropriate methods and also the steps to be taken to enable the populations of those Territories to exercise fully their right to self-determination and independence,

15 *urges* the administering Powers to cooperate with the Special Committee by permitting the access of visiting missions to the colonial Territories in accordance with decisions previously taken by the General Assembly and by the Special Committee,

16 *decides* to establish a Preparatory Committee for the Tenth Anniversary of the Declaration on the Granting of Independence to Colonial Countries and Peoples, consisting of the members of the Special Committee and six other members to be nominated by the President of the General Assembly in consultation with the Chairman of the Special Committee, and requests that Committee to prepare a special programme of activities in connection with the tenth anniversary of the adoption of the Declaration with a view to finding further ways and means to expedite the achievement of the objectives set forth in the Declaration, and to report to the General Assembly at its twenty-fourth session,

17 *requests* the Secretary-General, having regard to the suggestions of the Special Committee, to take concrete measures through all the media at his disposal, including publications, radio and television, to give widespread and continuous publicity to the work of the United Nations in the field of decolonization, to the situation in the colonial Territories and to the continuing struggle for liberation being waged by the colonial peoples,

18 *requests* the administering Powers to cooperate with the Secretary-General in promoting the large-scale dissemination of information on the work of the United Nations in the implementation of the Declaration,

19 *requests* the Secretary-General to provide all the facilities necessary for the implementation of the present Resolution.

R 800 **Telecommunications, an important factor in economic and social development:
role of the ITU in this domain**

(C-1977, last
amended
C-1984)

The Council,

having examined the note by the Secretary-General entitled, “Telecommunications, an important factor in economic and social development: role of the ITU in this domain” (Document 5073/CA32),

noting

a) that in all countries, regardless of their level of development, the existence of an adequate telecommunication infrastructure is of vital importance for economic and social development in different areas and that in consequence many international organizations, in addition to the ITU, are interested in one or more aspects of telecommunication development;

b) that not all international organizations are sufficiently aware of the role of the ITU in the regulation and standardization of telecommunications or of the activities of the Union in preparing reports and recommendations relating to the planning and exploitation of the telecommunication infrastructure and services;

c) the request addressed to the Director-General of UNESCO by the General Assembly of the United Nations, in its Resolution A/RES/31/139, to report, in cooperation with the specialized agencies concerned, on progress achieved in the development of mass communication systems, this report to be considered at the 33rd Session (1978) of the Assembly,

¹⁵ Resolutions 2775 A-H (XXVI), 2795 (XXVI), 2796 (XXVI), 2839 (XXVI), 2871 (XXVI), 2872 (XXVI), 2874 (XXVI), 2878 (XXVI) and 2879 (XXVI).

considering

- a) that the International Telecommunication Union is recognized by the United Nations as the specialized agency responsible for taking such action as may be appropriate under its basic instrument for the accomplishment of the purposes set forth therein;
- b) that article 4 of the International Telecommunication Convention, Nairobi, 1982, states the purposes of the Union as being:
 - to maintain and extend international cooperation between all Members of the Union for the improvement and rational use of telecommunications of all kinds, as well as to promote and to offer technical assistance to developing countries in the field of telecommunications;
 - to promote the development of technical facilities and their most efficient operation with a view to improving the efficiency of telecommunications services, increasing their usefulness and making them, so far as possible, generally available to the public;
 - to harmonize the actions of nations in the attainment of those ends;
- c) that through its organs, as specified in Article 5 of the International Telecommunication Convention, the action of the Union in the domain of telecommunications extends from regulation and standardization to the completion of technical studies leading to intergovernmental agreements on the planning, operation and maintenance of telecommunication services of all kinds, including telecommunication transmission systems and tariffs intended for mass communications;
- d) that the ITU participates fully in the United Nations Development Programme as the executing agency for telecommunication projects,

recognizing that, in seeking to harmonize national and international efforts in the development of telecommunications, the Union is bound to maintain contact with other international organizations dealing with communications in order to be informed of their activities and to inform these organizations of existing regulatory and standardization provisions as well as past and present activities of the Union having a bearing on their work,

invites all Members of the Union

- 1 to provide national delegations attending meetings of the United Nations, the specialized agencies and other international organizations, where items concerning communications will be discussed, with a briefing on the role and responsibilities of the Union in the domain of telecommunications;
- 2 to bring this Resolution to the notice of these national delegations,

instructs the Secretary-General

- 1 to bring this Resolution to the notice of the Secretary-General of the United Nations and to the heads of the UN specialized agencies and of all other international organizations having an interest in the development of telecommunications;
- 2 to cooperate fully with the Director-General of UNESCO in the preparation of the report requested by the General Assembly in its Resolution A/RES/31/139 and to report on the progress achieved to the 33rd session of the Council;
- 3 to further the purposes of the Union by continuing to participate in the work of the United Nations and other international organizations in matters concerning telecommunications; in these forums, to emphasize the role and activities of the International Telecommunication Union in the domain of telecommunication development.

R 1027 ITU Centenary Prize Funds

(C-1992)

The Council,

recalling its Resolution 816 (amended), entitled “ITU Centenary Prize”,

having considered the Report by the Secretary-General in Document 7238/CA47 entitled “Use of the Centenary Prize Funds”,

noting that the Members of the Council are in favour of using the available funds, originally contributed for the construction of an ITU Centenary monument, for the upgrading and modernization of the ITU Central Library,

considering that as a part of the Union’s effort to ensure more efficient interaction and exchange of information available at the Headquarters, the computerization of the Library would certainly result in quantitative and qualitative improvements in services rendered to the ITU Members and in particular to the Least Developed Countries,

resolves to use the Centenary Prize Funds for the modernization of the ITU Central Library, subject to approval of the donors,

instructs the Secretary-General

1 to seek the approval of Administrations which have contributed to the Fund;

2 to implement the project according to the proposal laid down in Document 7238/CA47.

This Resolution cancels and replaces Resolution 816 (amended).

D 43 Resolution 411 (V) of the General Assembly of the United Nations on administrative budgets of the specialized agencies

(C-1951, last amended C-1954)

The Secretary-General or his deputy should attend the meetings of the Consultative Committee on Administrative Questions.

D 45 Collaboration with the United Nations concerning the agenda of United Nations meetings

(C-1951)

The Council,

invited the Secretary-General to ask the United Nations to be good enough to consult with the ITU when the agenda of the United Nations organs and commissions are being drawn up, in order that matters of concern to the Union may be grouped together and dealt with, as far as possible, within a very short period. Such procedure would save the representatives of the Union long waits and hence would reduce official mission expenses.

R 1081 WorldTel

(C-1995)

The Council,

considering

- a) that the purposes of the ITU are, inter alia, to maintain and extend international cooperation between all Members for the improvement and rational use of telecommunications of all kinds;
- b) that, to this effect, the Union endeavours to promote the mobilization of the material and financial resources needed for implementing telecommunication projects;
- c) that the Constitution of the ITU (Geneva, 1992) recommends also to promote the establishment of preferential and favorable lines of credit to be used for the development of social projects aimed at extending telecommunication services to the most isolated areas in countries,

recalling the findings of the “Missing Link” report issued by the Independent Commission for World-Wide Telecommunications Development, December 1984, which documented the then existing gap between the industrialized and developing worlds and inter alia declared that “*neither in the name of common humanity nor on grounds of common interest is such a disparity acceptable*”,

having examined the report of the Secretary-General incorporating the World Telecommunications Advisory Council (WTAC) vision of a seamless, global telecommunications network serving the needs of developed and developing countries alike, a key infrastructure of economic and social development in the twenty-first century,

mindful that telecommunication brings about openness, accessibility, connectivity and networking; it affects mankind’s thought process, interpersonal relationships, education, institutions, communities, environment and international relations,

recognizing that there is an ever-widening economic gap between the industrialized and developing worlds, manifested in poor information infrastructure in the least and lesser developed countries,

acknowledging that the continued exclusive reliance on traditional methods of cooperation for expanding telecommunications around the world may alone not be sufficient to produce satisfactory solutions in providing access to telecommunications to a large segment of the population in the developing world, and

understanding that a new, complementary cooperation mechanism can be created with the aim of satisfying the telecommunication needs of developing countries, investors and the telecommunication industry in providing telecommunication access to a large segment of the population in these countries as a result of the introduction of cost-effective technologies and liberalized economic environments,

unanimously welcomes the establishment of WorldTel as a commercial transnational funding and development entity with a mission and structure as generally described in the report entitled “Closing the Global Communications Gap”,

resolves

- 1 that, in view of the developmental role which WorldTel is expected to play in expanding telecommunication networks and services in the least and lesser developed countries of the world, to encourage all interested parties to collaborate in a mutually beneficial commercial undertaking with the aim of closing the communications gap;
- 2 that the ITU may provide to WorldTel the expertise and services available in the Union, without impairing the Union’s functions, on the basis of commercial arrangements which may be entered into between them, for the identification of projects and for the delivery of programmes in the field of pre-investment studies, training, planning, management, legal and regulatory matters,
- 3 that the ITU shall have no financial or operational obligations to WorldTel except those matters covered by the arrangements referred to in resolves 2 above,

instructs the Director of the Telecommunication Development Bureau to provide all the necessary assistance to WorldTel within the framework of resolves 2 above,

instructs the Secretary-General to continue effective liaison between WorldTel and the ITU and to inform the Council about the progress of WorldTel.

R 1238 Use of the six official and working languages of the Union

(C05)

The Council,

considering,

- a) that Resolution 115 (Marrakesh, 2002) entered into force on 1 January 2005;
- b) that, in its Resolution 1213, the Council instructs the Secretary-General to present a plan for the transition to use of the six official and working languages on an equal footing in all of its spheres of activity, along with a concrete assessment of the funding that will be required to implement the plan;
- c) that, in its Resolution 1223, the Council instructs the Secretary-General, working in close coordination with the Bureaux Directors and NCOG, on actions to be taken with respect to use of the six official and working languages of the Union based on Group of Specialists (GoS) Mid-Term Recommendations (MTRs) 11 and 12,

noting

- a) that the report of the Secretary-General submitted to the 2005 session of the Council (Document C05/15) on implementation of the use of the six official and working languages on an equal footing indicates the studies undertaken by the secretariat in coordination with the Directors of the Bureaux and NCOG on the implications of GoS MTRs 11 and 12;
- b) that the advisory groups of the three Sectors have given advice on appropriate interim changes to working methods and practices in relation to the use of languages with a view to reducing language costs,

noting further

- a) that the NCOG reports that GoS recommendations 11 and 12 on interpretation and translation services provided by ITU could be considered as implemented;
- b) Document C05/14 containing the conclusions of the Sectors advisory groups on implementation of Resolution 115;

resolves

to create a working group of the Council open to all Member States, in particular those representative of and reflecting the six official and working languages of the Union, and to conduct its work mainly by correspondence with the following terms of reference:

1 to review proposals presented by the Members of the Working Group and the General secretariat, the Directors of the Bureaux and the Sector advisory groups in Documents C05/14 and C05/15 and evaluate their practical implementation,

2 to evaluate the current ITU publications policy as far as the six official and working languages of the Union are concerned and to propose new cost-recovery and financing mechanisms in accordance with Resolution 66 (Rev. Minneapolis, 1998),

3 to develop recommendations for efficient and effective use of the six official and working languages of the Union on an equal footing including particular incentives for each linguistic group, based on practical experiences of the Sectors and the secretariat,

4 to prepare a report for consideration by the Member States and Council 2006 and for transmission to the next Plenipotentiary conference, as appropriate,

instructs the Secretary-General, in close coordination with the Directors of the Bureaux and with the advice of the Working Group on languages

1 to implement all necessary measures in order to finalize the implementation of Resolution 115 (Marrakesh, 2002) within the financial limits of the Union as defined in its 2006-2007 biennial budget;

2 to complete all appropriate structural changes for the rationalization of language services and document processing activities, and to report to the 2006 session of the Council;

3 to unify existing linguistic databases into a centralized system in order to respond to the needs of the ITU, including those of all the Sectors.

4 to explore and implement, as appropriate, the most efficient and economical solutions for the provision of ITU languages services, including the use of new technologies, remote translation, remote interpretation and outsourcing, and report accordingly to the 2006 session of the Council.

further instructs the Secretary-General and the Directors of the Bureaux

1 to provide all relevant information and assistance to the Working Group on languages;
