Approval of ITU-T Recommendations

By AAP-54, it was announced that the following ITU-T Recommendations were approved, in accordance with the procedures outlined in Recommendation ITU-T A.8:

- ITU-T Y.2068 (03/2015): Functional framework and capabilities of the internet of things

The International Public Telecommunication Numbering Plan (Recommendation ITU-T E.164 (11/2010)) and International Identification Plan for Public Networks and Subscriptions (Recommendation ITU-T E.212 (05/2008))

Note from TSB

ITU-T Study Group 2 has discussed the issue of reachability for shared/non geographic resources specified in Recommendation ITU-T E.164 and E.212 and it was agreed to bring to the attention of Member States, Sector Members and operators of the status of these resources.

Shared and non-geographic country codes (E.164 Country Codes 882/883, E.212 Mobile Country Code 901) have been subject to assignment for a number of years. Unfortunately, number ranges under these shared and non-geographic country codes are not always reachable and the use of Mobile Country Code 901 and E.164 Country Codes 882/883 appears to be more difficult than geographic resources.

The use of dedicated non-geographic number/identification ranges has a number of benefits such as:

- it avoids multiplying the ranges in each of the countries where the service is deployed and therefore prevents resource exhaustion
- it leaves more capacity in national numbering resources
- it offers for example more transparency to visited networks/countries to identify M2M services

As a result, there is a need to raise awareness of the availability of these numbering/identification resources to operators planning for example wide scale deployments of M2M services or other global services.

Member States, Sector Members and operators are therefore encouraged to facilitate the opening and use of shared and non-geographic E.164 Country Codes and Mobile Country Codes (MCC) subject to the applicable national regulations and requirements, commercial agreements and relevant ITU-T Recommendations. For example, Member States can monitor the assignees' announcements in the ITU Operational Bulletin as well as relaying this information nationally as appropriate (e.g., national numbering plan websites).

The status of reserved or assigned ITU-T E.212 shared Mobile Country Codes (MCC) and associated Mobile Network Codes (MNC) can be found at:

http://www.itu.int/net/ITU-T/inrdb/e212_901.aspx

The list of global services and network codes assigned under ITU-T E.164 codes 881,882 and 883, in accordance with Recommendation ITU-T E.164.1 can be found at:

http://www.itu.int/net/itu-t/inrdb/e164_intlsharedcc.aspx?cc=881,882,883

Assignment of Signalling Area/Network Codes (SANC) (Recommendation ITU-T Q.708 (03/99))

Note from TSB

At the request of the Administration of the Socialist Republic of Viet Nam, the Director of TSB has assigned the following signalling area/network code (SANC) for use in the international part of the signalling system No. 7 network of this country/geographical area, in accordance with Recommendation ITU-T Q.708 (03/99):

<i>Country/geographical area or signalling network</i>	<i>SANC</i>
Viet Nam (Socialist Republic of)	4-206

SANC: Signalling Area/Network Code.
Code de zone/réseau sémaphore (CZRS).
Código de zona/red de señalización (CZRS).

National Numbering Plan (According to ITU-T Recommendation E.129 (01/2013))

Web: www.itu.int/itu-t/inr/nnp/index.html

Administrations are requested to notify ITU about their national numbering plan changes, or to give an explanation on their webpage concerning the national numbering plan as well as their contact points, so that the information, which will be made available freely to all administrations/ROAs and service providers, can be posted on the ITU-T website.

For their numbering website, or when sending their information to ITU/TSB (e-mail: tsbtson@itu.int), administrations are kindly requested to use the format as explained in Recommendation ITU-T E.129. They are reminded that they will be responsible for the timely update of this information.

From 15.III.2015 the following countries have updated their national numbering plan on our site:
