Côte d'Ivoire (country code +225)

Communication of 13.VII.2020:

The *Autorité de Régulation des Télécommunications/TIC de Côte d'Ivoire (ARTCI)*, Abidjan, hereby announces the modification of the national numbering plan of Côte d'Ivoire, from eight (8) to ten (10) digits, effective 31 January 2021 in Côte d'Ivoire (country code: 225).

The change to ten (10) figures is being made in order to cope with the saturation of mobile service number resources on the one hand and ensure the availability of numbers on the other, thereby meeting the ever increasing demands of mobile telephone operators and future services, such as the Internet of Things.

Under the new ten-digit numbering plan, numbers will be structured as follows: **XZABPQMCDU**.

The theoretical maximum capacity of the ten-digit numbering plan is ten (10) billion numbers for all telecommunication services.

The minimum number length (excluding country code) is **3 digits** and the maximum number length (excluding country code) is **10 digits**.

1. Presentation of national ten-digit numbering plan

a) General

The method by which the numbering plan is used is based on sharing according to service type.

In the chain **XZABPQMCDU**, X denotes the services as follows:

- X = 0 for mobile telephone services;
- X = 1 for assistance and emergency services;
- X = 2 for fixed telephone services (geographic and non-geographic);
- X = 3, 4, 5, 6 and 7 for future services (future reserves);
- X = 8, 9 for value-added services.

b) Detailed presentation of new national numbering plan (see Annex 1)

2. Changeover

Aside from the country code (225) preceding the subscriber number in the event of calls originating from abroad, the changeover will consist in adding a prefix **XZ** to the old eight-digit numbers (ABPQMCDU) of the fixed and mobile telephone services. After the changeover on 31 January 2021, this will result in the following:

a) Mobile telephone services

- To call a MOOV CI subscriber, it is necessary to dial "**01**" followed by the old eight-digit number;
- To call an MTN CI subscriber, it is necessary to dial "**05**" followed by the old eight-digit number;
- To call an ORANGE CI subscriber, it is necessary to dial "**07**" followed by the old eight-digit number;

b) Fixed telephone services

- To call a MOOV CI subscriber, it is necessary to dial "**21**" followed by the old eight-digit number;
- To call an MTN CI subscriber, it is necessary to dial "**25**" followed by the old eight-digit number;
- To call an ORANGE CI subscriber, it is necessary to dial "**27**" followed by the old eight-digit number;

c) Emergency, assistance and value-added services

The numbers for emergency, assistance and value-added services, which vary in length from three to eight digits, remain unchanged.

(see Annex 2)

National Numbering Plan (According to Recommendation ITU-T E.129 (01/2013))

Web: www.itu.int/itu-t/inr/nnp/index.html

Administrations are requested to notify ITU about their national numbering plan changes, or to give an explanation on their webpage concerning the national numbering plan as well as their contact points, so that the information, which will be made available freely to all administrations/ROAs and service providers, can be posted on the ITU-T website.

For their numbering website, or when sending their information to ITU/TSB (e-mail: tsbtson@itu.int), administrations are kindly requested to use the format as explained in Recommendation ITU-T E.129. They are reminded that they will be responsible for the timely update of this information.

From 1.VII.2020, the following countries/geographical areas have updated their national numbering plan on our site:

<i>Country/ Geographical area</i>	<i>Country Code (CC)</i>
Morocco	+212
