Contents

General information

- (TSB) Lists annexed to Operational Bulletin: *Note from the TSB*
- (BR) International Monitoring System: *Note from the BR – Service document: List VIII (Subscription Circular)*
- (TSB) Access codes/numbers for mobile networks (According to ITU-T Recommendation E.164): *Note from the TSB (Access codes/numbers for mobile networks used with the E.164 country code: List No. 1 – Operational Bulletin No. 726 of 15.X.2000, Amendment No. 9)*
- (TSB) Bureaufax Service: *Note from the TSB*
- (TSB) Telephone Service: *Netherlands Antilles (Bureau of Telecommunication and Post (Regulator), Curaçao), France (Autorité de Régulation des Télécommunications, Paris), Gibraltar (Gibraltar Telecommunications International Ltd (Gibtel), Gibraltar), Malaysia (Telekom Malaysia, Kuala Lumpur), NANP (North American Numbering Plan), Switzerland (Office fédéral de la communication (OFCOM), Regulatory Authority for Telecommunications, Bienne)*
- (TSB) Changes in administrations/ROAs and other entities or organizations: *Burkina Faso (Ministère des Postes et Télécommunications, Ouagadougou), Canada (AT&T Canada Long Distance Services Company: Change of name), Poland (Ministry of Posts and Telecommunications, Warszawa), Portugal (Portugal Telecom, S.A., Lisbon: Change of name), Romania (Ministère des communications et des technologies de l'information, Bucarest), Tonga (Prime Minister's Office, Nuku'Alofa)*
- (TSB) Service Restrictions: *Note from the TSB*
- (TSB) Call-Back and alternative calling procedures (Res. 21 Rev. PP-98): *Note from the TSB*

Amendments to service documents

- (BR) List of Ship Stations (List V)
- (TSB) List of International Signalling Point Codes (ISPC)
- (TSB) List of Telegram Destination Indicators
- (TSB) List of ITU Carrier Codes
- (TSB) Dialling Procedures
- (TSB) Buraufax Table

Annex

- (TSB) List of ITU Carrier Codes (According to ITU-T Recommendation M. 1400 (02/2000)) (Position on 1 May 2001)

GENERAL INFORMATION

Lists annexed to Operational Bulletin

Note from the TSB

The following Lists* have been published by the TSB or BR as Annexes to the ITU Operational Bulletin (OB):

OB No.

- | | |
|-----|---|
| 665 | Various tones used in national networks (Supplement 2 to ITU-T Recommendation E.180) (Position on 1 April 1998) |
| 669 | Five-letter Code Groups for the use of the International Public Telegram Service (According to ITU-T Recommendation F.1 (03/98)) |
| 674 | Status of Radiocommunications between Amateur Stations of different countries (In accordance with optional provision No. 2731 of the Radio Regulations) (Position on 15 August 1998) |
| 685 | List of Mobile Country or Geographical Area Codes (Complement to ITU-T Recommendation E.212 (11/98)) (Position on 1 February 1999) |
| 691 | Service Restrictions (Recapitulatory list of service restrictions in force relating to telecommunications operation) (Position on 1 May 1999) |
| 692 | List of Telegram Destination Indicators (In accordance with ITU-T Recommendation F.32) (Position on 15 May 1999) |
| 693 | List of Telex Destination Codes (TDC) and Telex Network Identification Codes (TNIC) (Complement to ITU-T Recommendations F.69 and F.68) (Position on 31 May 1999) |
| 714 | List of Data Network Identification Codes (DNIC) (According to ITU-T Recommendation X.121) (Position on 15 April 2000) |
| 717 | List of ITU-T Recommendation E.164 assigned country codes (Complement to ITU-T Recommendation E.164 (05/1997)) (Position on 1 June 2000) |
| 719 | Dialling Procedures (International prefix, national (trunk) prefix and national (significant) number) (In accordance with ITU-T Recommendation E.164 (05/97)) (Position on 1 July 2000) |
| 720 | List of Data Country or Geographical Area Codes (Complement to ITU-T Recommendation X.121) (Position on 15 July 2000) |
| 725 | List of Names of Administration Management Domains (ADMD) (In accordance with ITU-T F.400 and X.400 series Recommendations) (Position on 30 September 2000) |
| 727 | List of Issuer Identifier Numbers for the international telecommunication charge card (In accordance with ITU-T Recommendation E.118) (Position on 1 November 2000) |
| 735 | List of International Signalling Point Codes (ISPC) (According to ITU-T Recommendation Q.708 (03/99)) (Position on 1 March 2001) |
| 737 | List of Signalling Area/Network Codes (SANC) (Complement to ITU-T Recommendation Q.708 (03/99)) (Position on 1 April 2001) |
| 739 | List of ITU Carrier Codes (According to ITU-T Recommendation M.1400 (02/2000)) (Position on 1 May 2001) |

* For information, all lists will be updated by numbered series of amendments published in the ITU Operational Bulletin, and will be reissued as necessary.

Furthermore, the lists can be consulted on line by subscribers (<http://www.itu.int/itu-t/bulletin/index.html>) in the ITU document database, under the heading "Operational Bulletin and Lists annexed".

International Monitoring System

Note from the BR

By subscription circular, the ITU has addressed to the Administrations and recognized operating agencies (ROAs) the order form for the following service document:

List of International Monitoring Stations (List VIII) (9th Edition – March 2001)
(Publication Notice No. 163-01 of 15 February 2001).

Administrations/ROAs are invited to complete the order form and return it to the ITU Sales and Marketing Division.

Access codes/numbers for mobile networks (According to ITU-T Recommendation E.164)

Note from the TSB

Several requests have been received in ITU, asking that a distinction should be made between the fixed telephone numbers and mobile numbers. A List of access codes/numbers for mobile networks has been prepared from the information received on the telephone service for publication in the ITU Operational Bulletin. Administrations/ROAs are requested to verify the information in this List and to inform ITU of any modifications that they wish to make.

The following information is an Amendment to the List No. 1 published in Operational Bulletin No. 726 of 15.X.2000, pages 4 to 11.

*Access codes/numbers for mobile networks
used with the E.164 country code
List No. 1, Amendment No. 9*

Bureaufax Service

Note from the TSB

In the Bureaufax Table, now available on the internet at <http://www.itu.int/itu-t/bureaufax>, modifications have been made to the following countries:

Spain
Niger

Telephone Service

Netherlands Antilles

Communication of 18.V.2001*:

The *Bureau of Telecommunication and Post (Regulator)*, Curaçao, announces the introduction of the following new telephone numbers in the Island of Saint Maarten, Netherlands Antilles (country code +599):

| Locality | Existing subscriber numbers | New subscriber numbers | Service |
|---------------|-----------------------------|------------------------|---------|
| Saint Maarten | +599 51XXXX | +599 551XXXX | Mobile |
| | +599 57XXXX | +599 557XXXX | Mobile |
| | | +599 552XXXX | Mobile |

France

Communication of 7.IV.2001*:

The *Autorité de Régulation des Télécommunications*, Paris, recalls that changes will take effect in the numbering plan for the French Overseas Departments (DOM) (Guadeloupe, Guyana, Martinique and Reunion) on 22 June 2001.

On 22 June 2001, the numbering plan for the French Overseas Departments (DOM) will become a uniform national ten-digit plan as has already been applied for the last three and a half years in metropolitan France. This will effectively mean a nine-digit plan for calls from abroad, as has been the case for calls from other countries to metropolitan France since 1996, owing to the fact that the first of the ten digits has an inoperative carrier selection function for incoming international calls.

To summarize, as from 22 June 2001, the E.164 numbers of these Departments will take the following format:

Country code (CC) (three digits) + national (significant) number N(S)N (nine digits), i.e. twelve digits in all.

With (unchanged):

| | CC |
|------------|------|
| Guadeloupe | +590 |
| Guyana | +594 |
| Martinique | +596 |
| Reunion | +262 |

Why change the plan at this time?

The recent rapid growth of the telecommunication market in these Departments has led to a substantial increase in the use of telephone numbering resources. As a consequence, it is now necessary to expand the stock of available numbers.

In addition, the available mobile services in these Departments will in future be identifiable by the first digit of the N(S)N .

The first three digits (ZAB) of the national number constitute the codes, as in metropolitan France. The digit Z = 6 identifies mobiles: with 6AB = 690 for Guadeloupe, 692 for Reunion, 694 for Guyana and 696 for Martinique.

- The arrangements for calling the DOM from other countries will change as from 22 June 2001.

Timetable for implementation of the new plan

| <i>Departments</i> | <i>Date and time (in UTC)</i> |
|--------------------|-------------------------------|
| Guadeloupe | 23 June 2001 at 0230 hours |
| Guyana | 23 June 2001 at 0230 hours |
| Martinique | 23 June 2001 at 0230 hours |
| Reunion | 22 June 2001 at 1830 hours |

International dialling format for calls to the French Overseas Departments as from 22 June 2001.

The following tables summarize the various numbering arrangements in terms of the situation prior to and after 22 June 2001.

| <i>Conversion Table for Guyana</i> | |

Malaysia

Communication of 31.III.2001*:

Telekom Malaysia, Kuala Lumpur, announces the implementation of the new telephone numbering plan migration of seven-digit numbers of existing customers to eight-digit numbers, for the second half of 2001.

The double access operation (permissive dialling) will not be provided but a recorded message for a period of three months will be available in the National (Malay) and English languages advising all the customers who had dialled the old access numbers.

For further information, see Telekom Malaysia Website: <http://www.telekom.com.my>

Country code: +60

International dialling format: +60 + area code + subscriber number

NANP – North American Numbering Plan

Communication of 27.III.2001:

The *North American Numbering Plan Administration* (NANPA) announces the geographic split of the NPA (Numbering Plan Area) 520, which currently serves most of Arizona excluding the greater Phoenix calling area, and the creation of area NPA 928.

The new NPA 928 will encompass most of the geographic area of the existing NPA 520, excluding the rate areas within Cochise, Pima, Pinal and Santa Cruz counties in the greater Tucson calling area. The following rate areas will retain the NPA 520: Ajo, Benson, Bisbee, Blackwater, Bowie, Casa Blanca, Casa Grande, Cascabel, Coolidge, Douglas, Elfrida, Eloy, Florence, Hayden, Momatke, Lone Butte, Maricopa Village, Maricopa, Nogales, Patagonia, Pearce, Portal, Sacaton, San Manuel, San Simon, Santa Rosa, Sasbe, Sells, Sierra Vista, Stutonic, Sunizona, Superior, Tombstone, Tucson, West San Simon, Whitlow and Willcox.

The split of the NPA 520, and the beginning of a permissive dialling period, will take place at 1201 hours (local time) on 23 June 2001. The permissive dialling period will end on 5 January 2002. During the permissive dialling period, either the NPA 520 or the NPA 928 code will be acceptable in a dialled number terminating in the new NPA 928 code. After the permissive dialling period, all calls dialled with incorrect NPA codes will be routed to intercept. This intercept recording announcement shall be available at least until 9 March 2002.

All international and domestic carriers are asked to ensure that the new NPA 928 code has been activated throughout their networks prior to 23 June 2001. Test calls to verify routing to the new NPA code can be made by dialling either of the two test numbers: +1 928 526 4928 or +1 928 348 7928. These test numbers will be in service as of 23 June 2001, and will be disconnected no earlier than 9 March 2002. Calls successfully completed to the test numbers will receive a recorded announcement.

For more information, see NANPA web site: <http://www.nanpa.com>

Switzerland

Communication of 17.IV.2001:

The *Office fédéral de la communication (OFCOM)*, Bienne, announces that two additional national destination codes (NDC) are now in use in the Zurich area:

| NDC (country code: +41) | Service | Note |
|----------------------------|----------------------|----------------|
| +41 1 XXX XX XX | PSTN / ISDN (Zürich) | Existing NDC |
| +41 43 XXX XX XX | PSTN / ISDN (Zürich) | Additional NDC |
| +41 44 XXX XX XX | PSTN / ISDN (Zürich) | Additional NDC |

All Administrations/recognized operating agencies (ROAs) are requested to ensure that access is given to all the above codes.

Moreover, the Office announces that Switzerland will have a closed numbering plan E.164 on 29 March 2002. From that date, the area code should always be included when dialling a number, even for local calls (*for example: 032 327 55 11*). All existing numbers and area codes remain unchanged. The leading "0" remains as prefix for national calls.

This change has no impact on international calls routed to Switzerland (*for example: +41 32 327 55 11*).

The list of allocated area codes and number blocks in Switzerland is available on the website: <http://www.bakom.ch> (link: <http://www.admin.ch/bakom/adb/>).

Canada

Communication of 10.IV.2001:

Change of name

AT&T Canada Long Distance Services Company announces that it has changed its name. Its new name is *AT&T Canada*. This is not a new entity, but the existing entity which has been re-named.

Poland

Communication of 30.III.2001:

The *Ministry of Posts and Telecommunications*, Warszawa, announces the establishment of the Office of Telecommunications Regulation (OTR) in Poland, on 1 January 2001.

The Office of Telecommunications Regulation (OTR) is now the regulatory authority for telecommunications in Poland. The Office is responsible for interpretation and implementation of the Polish telecommunications law, in other words, for regulation of the telecommunications sector. The whole set-up is in line with the provisions of European Union law.

The Office of Telecommunications Regulation (OTR) also assumes all the duties of the Polish National Radiocommunications Agency, which ceased to exist on the very same day.

For further information, please contact:

Mr Wladyslaw WILKANS
Director of the International Bureau
Office of Telecommunications Regulation
Ul. Kasprzaka 18/20

Portugal

Communication of 10.IV.2001:

Change of name

Portugal Telecom, S.A., Lisbon, announces that it has changed its name. Its new name is *PT Comunicações, S.A.* This is not a new entity, but the existing entity which has been re-named.

Romania

Communication of 26.III.2001:

The *Ministère des communications et technologies de l'information*, Bucarest, announces that, since January 2001, it has replaced the National Agency of Communications and Informatics. The Ministry's organization scheme is as follows:

- the Minister of Communications and Information Technology: His Excellency Mr Dan Nica;
- the State Secretariat for Parliament Relations, led by Mr Dinu Malacopol, State Secretary;

- the State Secretariat for European Integration and International Relations, led by Ms Luminita Alexandrina Hirtan, State Secretary;
 - European Legislative Harmonization Office, directed by Mr Radu Cernov, Director;
 - Office for Foreign Investors Relations, directed by Ms Corina Petrescu, Director;
- the State Secretariat for Communications, directed by Mr Ion Smeeianu, State Secretary;
 - General Direction for Legislation and Licenses in Communication, directed by Ms Cristina Filip, Director;
 - General Direction for Communication Development Strategy, directed by Ms Loric Schiopu, Director;
- the State Secretariat for Information Technology, led by Mr Sabin Chiricescu, State Secretary;
 - General Director for Strategy and Development of Information Society, directed by Ms Adriana Ticau, Director;
- the General Secretariat, led by Mr Marius Macovei, General Secretary.

For good coordination of the international activities, the Ministry has assigned the Office for Foreign Investors Relations to monitor all the international events related to IT&C.

Tonga

Communication of 6.IV.2001:

The *Prime Minister's Office*, Nuku'Alofa, announces that Tonga Communications Corporation came into effect on 5 February 2001, merging the domestic communications services, which used to be operated by Tonga Telecommunications Commission and the international services, operated by Tonga Telecommunications International Limited. The Corporation is established under the Tonga Communications Corporation Act and the Companies Act.

GSM Mobile Services are included in the authorized principal business activities of the Corporation provided under the Tonga Communications Corporation Act and supported by the Tonga Communications Act. This GSM Mobile System is to replace the old Analogue Mobile Cellular System of the Corporation.

**Call-Back
and alternative calling procedures (Res. 21 Rev. PP-98)**

Note from the TSB

Countries/geographical areas for which an information regarding "Call-Back and certain alternative calling procedures not in accordance with the relevant regulations" have been published in the ITU Operational Bulletin (No.):

Algeria (621), Netherlands Antilles (627), Saudi Arabia (629), Azerbaijan (663), Bahrain (611), Belarus (616), Bulgaria (665), Burkina Faso (631), Burundi (607), Cameroon (671), China (599), Cyprus (626), Colombia (602), Cook Islands (681), Cuba (632), Djibouti (614), Egypt (599, 690), United Arab Emirates (627), Ecuador (619), Ethiopia (657), Gabon (631), Guinea (681), Honduras (613), India (627), Jamaica (648), Japan (649), Jordan (652), Kazakstan (619), Kenya (605), Kyrgyzstan (616), Kuwait (610), Latvia (617), Lebanon (642), Madagascar (639), Malaysia (603), Malta (688), Morocco (619), Mexico (697), Niger (618), Nigeria (647), Uganda (603), Qatar (593), Dem. Rep. of the Congo (672), Seychelles (631), Sudan (686), South Africa (655), Tanzania (624), Thailand (611), Turkey (612), Viet Nam (619), Wallis and Futuna (649), Yemen (622).

In addition, in Operational Bulletins No. 658, No. 685 and No. 710, an information on the position of some countries concerning call-back was published under the heading "Call-Back". This information is the result of a survey made by ITU-T Study Group 3 in accordance with Resolution 21 (Rev. Minneapolis, 1998) of the Plenipotentiary Conference (Minneapolis, 1998) and Resolution 29 of the World Telecommunication Standardization Assembly, WTSA-2000 (Montreal, 2000).

TELECOMMUNICATION
STANDARDIZATION BUREAU
OF ITU

LIST OF ITU CARRIER CODES
(ACCORDING TO ITU-T RECOMMENDATION
M.1400 (02/2000))

(POSITION ON 1 MAY 2001)

List of ITU Carrier Codes

Note by the TSB

1. As the number of telecom operators in each country is growing rapidly, the number of interconnections between their networks is growing even faster. The standardization of designations of all the network interconnections is therefore of great concern for the operators involved. Only then are they able to do the provisioning and maintenance in a systematic and efficient way.

2. The proper use of ITU-T Recommendation M.1400 requires the identification of the operators sharing the interconnection. To that end an overall list of operators working in a country, with an officially recognized and standardized code for each of them, is of great help. It enables them to identify each other in a comprehensive and unique way. This will eventually result in one integrated database for all connections, in turn improving network operations and administration to the benefit of both providers and clients.

3. A centralized List of ITU Carrier Codes (ICCs) has been created with the ITU/TSB as the repository. All domestic and international carriers are expected to register with ITU/TSB for a carrier code. Instead of individual operators sending their ICCs to the TSB for registration, the national regulatory authorities are requested to provide the validated codes and related information of domestic network operators directly to the TSB.

4. The national authority in each country is requested to :

- inform the operators in that country on the need of using the carrier codes for designations to be used in inter-operator communication
- collect the filled-in form from each carrier/service provider/network operator in that country,
- ensure that the Carrier Codes are unique within that country,
- ensure that all information on the ICC Notification Form is provided, and to submit the information to the TSB Director

5. This List of ITU Carrier Codes replaces that published as an Annex to the ITU Operational Bulletin No. 714 of 15.IV.2000. Since then, a number of notifications have been received at TSB and they have been published separately in various issues of the ITU Operational Bulletin. The present list recapitulates all the different amendments that have been published up to Operational Bulletin No. 739 of 1.V.2001.

6. This List will be updated by numbered series of amendments published in the ITU Operational Bulletin. Furthermore, the information contained in this Annex is also available on the ITU home page www.itu.int/itu-t/bulletin, and can be consulted by subscribers by remote access. This List could also be made available on diskette as a database, on request.

7. Please address any comments, suggestions or new assignment concerning this List to the Director of the TSB:

International Telecommunication Union
Director of TSB
Tel: +41 22 730 5211
Fax: +41 22 730 5853
E-mail: tsbmail@itu.int

8. The designations employed and the presentation of material in this List do not imply the expression of any opinion whatsoever on the part of the ITU concerning the legal status of any country or geographical area, or of its authorities.

List of ITU Carrier Codes

Note: This information may be used while filling-out layer 2 record as explained in ITU-T Recommendation M.1400 – 2.3, 7.3 and 15.3.

Notification Form for List of ITU Carrier Codes

A Carrier is any operating Company that brings into service and maintains international or domestic leased circuits, switched circuits, digital blocks, etc.

ITU believes that all international and domestic carriers for switched circuits today must have an ITU Carrier Identification Code. This code is used to identify a carrier for the purpose of registration of interconnection with other carriers.

In order to develop a listing of ITU Carrier Codes (ICC) which may be used to identify the Carriers when filling out Layer 2 records as explained in Recommendation M.1400, the following Form must be filled by each international or domestic Carrier.

1. **Company full name:**
(the name of carrier)

2. **Company Code:**

| | | | | | |
|--|--|--|--|--|--|
| | | | | | |
|--|--|--|--|--|--|

(The code by which the carrier wishes to identify itself. This code should be of Roman characters (alpha or alphanumeric (a to z; 0 to 9)), six or less in length, and should be unique identifier of a network operator/service provider unique within each country. This code may be one that is in use today, provided it fits the definition.)

3. **Company official address:**
.....
.....
.....

4. **Contact point:**
Tel.: +
Fax: +
E-mail :
