France (country code +33; Guadeloupe +590; French Guiana +594; Martinique +596; Reunion +262)

Communication of 6.VI.2001:

Corrigendum of information published in the ITU Operational Bulletin No. 739 of 1.V.2001, pages 5-13.

The *Autorité de Régulation des Télécommunications*, Paris, recalls that changes will take effect in the numbering plan for the French Overseas Departments (DOM, départements français d'outre-mer) (Guadeloupe, French Guiana, Martinique and Reunion) on 22 June 2001.

On 22 June 2001, the numbering plan for the French Overseas Departments (DOM) will become a uniform national ten-digit plan as has already been applied for the last three and a half years in metropolitan France. This will effectively mean a nine-digit plan for calls from abroad, as has been the case for calls from other countries to metropolitan France since 1996, owing to the fact that the first of the ten digits has an inoperative carrier selection function for incoming international calls.

To summarize, as from 22 June 2001, the E.164 numbers of these Departments will take the following format:

Country code (CC) (three digits) + national (significant) number N(S)N (nine digits), i.e. twelve digits in all.

The arrangements for calling the DOM from other countries will change as from 22 June 2001.

Timetable for implementation of the new plan:

<i>Departments</i>	<i>Date and time (UTC)</i>
Guadeloupe	23 June 2001 at 0230 hours
French Guiana	23 June 2001 at 0230 hours
Martinique	23 June 2001 at 0230 hours
Reunion	22 June 2001 at 1830 hours

The following tables summarize the various numbering arrangements in terms of the situation prior to and after 22 June 2001.

These tables cancel and replace those published in the ITU Operational Bulletin No. 739 of 1.V.2001, pages 6-13.

International dialling format for calls to the French Overseas Departments (DOM) as from 22 June 2001:
