GENERAL INFORMATION

Lists annexed to Operational Bulletin

Note from the TSB

The following Lists* have been published by the TSB or BR as Annexes to the ITU Operational Bulletin (OB):

OB No.

- | | |
|-----|---|
| 665 | Various tones used in national networks (Supplement 2 to ITU-T Recommendation E.180) (Position on 1 April 1998) |
| 669 | Five-letter Code Groups for the use of the International Public Telegram Service (According to ITU-T Recommendation F.1 (03/98)) |
| 674 | Status of Radiocommunications between Amateur Stations of different countries (In accordance with optional provision No. 2731 of the Radio Regulations) (Position on 15 August 1998) |
| 691 | Service Restrictions (Recapitulatory list of service restrictions in force relating to telecommunications operation) (Position on 1 May 1999) |
| 692 | List of Telegram Destination Indicators (In accordance with ITU-T Recommendation F.32) (Position on 15 May 1999) |
| 693 | List of Telex Destination Codes (TDC) and Telex Network Identification Codes (TNIC) (Complement to ITU-T Recommendations F.69 and F.68) (Position on 31 May 1999) |
| 717 | List of ITU-T Recommendation E.164 assigned country codes (Complement to ITU-T Recommendation E.164 (05/1997)) (Position on 1 June 2000) |
| 719 | Dialling Procedures (International prefix, national (trunk) prefix and national (significant) number) (In accordance with ITU-T Recommendation E.164 (05/97)) (Position on 1 July 2000) |
| 720 | List of Data Country or Geographical Area Codes (Complement to ITU-T Recommendation X.121) (Position on 15 July 2000) |
| 725 | List of Names of Administration Management Domains (ADMD) (In accordance with ITU-T F.400 and X.400 series Recommendations) (Position on 30 September 2000) |
| 727 | List of Issuer Identifier Numbers for the international telecommunication charge card (In accordance with ITU-T Recommendation E.118) (Position on 1 November 2000) |
| 735 | List of International Signalling Point Codes (ISPC) (According to ITU-T Recommendation Q.708 (03/99)) (Position on 1 March 2001) |
| 737 | List of Signalling Area/Network Codes (SANC) (Complement to ITU-T Recommendation Q.708 (03/99)) (Position on 1 April 2001) |
| 739 | List of ITU Carrier Codes (According to ITU-T Recommendation M.1400 (02/2000)) (Position on 1 May 2001) |
| 741 | List of Mobile Country or Geographical Area Codes (Complement to ITU-T Recommendation E.212 (11/98)) (Position on 1 June 2001) |
| 746 | Access codes/numbers for mobile networks (According to ITU-T Recommendation E.164 (05/97)) (Position on 15 August 2001) |
| 746 | List of Data Network Identification Codes (DNIC) (According to ITU-T Recommendation X.121 (10/00)) (Position on 15 August 2001) |

* For information, all lists will be updated by numbered series of amendments published in the ITU Operational Bulletin, and will be reissued as necessary.

Furthermore, the lists can be consulted on line by subscribers (<http://www.itu.int/itu-t/bulletin/index.html>) in the ITU document database, under the heading "Operational Bulletin and Lists annexed".

Approval of ITU-T Recommendations

A. By TSB AAP-13 of 1 August 2001, it was announced that the following ITU-T Recommendations were approved, in accordance with the procedures outlined in ITU-T Recommendation A.8:

- ITU-T Recommendation H.223 (07/2001): Multiplexing Protocol for low bit rate multimedia communication
- ITU-T Recommendation H.245 (07/2001): Control Protocol for multimedia communication
- ITU-T Recommendation H.246 Annex F (07/2001): H.323 – H.324 Interworking
- ITU-T Recommendation H.248 Annex L (07/2001): Error codes and Service Change Reason Description
- ITU-T Recommendation H.248 Annex M.2 (07/2001): Congestion Handling Package
- ITU-T Recommendation H.248 Annex M.4 (07/2001): H.248 Packages for H.323 and H.324 Interworking
- ITU-T Recommendation H.323 Annex M.3 (07/2001): Tunnelling DSS1 in H.232
- ITU-T Recommendation H.323 Annex Q (07/2001): Far end camera control and H.281/H.224
- ITU-T Recommendation H.323 Annex R (07/2001): Robustness for H.323 Entities
- ITU-T Recommendation H.324 Annex I (07/2001): Usage of HTTP generic capability in H.324 terminals
- ITU-T Recommendation H.450.12 (07/2001): Common Information Additional Network Feature for H.323
- ITU-T Recommendation H.460.2 (07/2001): Number Portability Interworking between H.323/SCN networks
- ITU-T Recommendation Q.50 (07/2001): Signalling between circuit multiplication equipment (CME) and international switching centres (ISC)
- ITU-T Recommendation Q.50.1 (07/2001): Signalling between International Switching Centres (ISC) and Digital Circuit Multiplication Equipment (DCME) including the control of compression/decompression
- ITU-T Recommendation Q.732.2 Amendment 1 (07/2001)
- ITU-T Recommendation Q.733.3 Amendment 1(07/2001)
- ITU-T Recommendation Q.761 Amendment 1 (07/2001)
- ITU-T Recommendation Q.763 Corr. 1 (07/2001)
- ITU-T Recommendation Q.764 Amendment 1 (07/2001)
- ITU-T Recommendation Q.850 Amendment 1(07/2001)
- ITU-T Recommendation Q.1241 (07/2001): Introduction to Intelligent Network Capability Set-4
- ITU-T Recommendation Q.1244 (07/2001): Distributed functional plane for Intelligent Network Capability Set-4
- ITU-T Recommendation Q.1248.1 (07/2001): Interface recommendation for Intelligent Network Capability Set-4: Common aspects
- ITU-T Recommendation Q.1248.2 (07/2001): Interface recommendation for Intelligent Network Capability Set-4: SCF-SSF Interface
- ITU-T Recommendation Q.1248.3 (07/2001): Interface recommendation for Intelligent Network Capability Set-4: SCF-SRF Interface

- ITU-T Recommendation Q.1248.4 (07/2001): Interface recommendation for Intelligent Network Capability Set-4: SCF-SDF Interface
- ITU-T Recommendation Q.1248.5 (07/2001): Interface recommendation for Intelligent Network Capability Set-4: SDF-SDF Interface
- ITU-T Recommendation Q.1248.6 (07/2001): Interface recommendation for Intelligent Network Capability Set-4: SCF-SCF Interface
- ITU-T Recommendation Q.1248.7 (07/2001): Interface recommendation for Intelligent Network Capability Set-4: SCF-CUSF Interface
- ITU-T Recommendation Q.2111 Amendment 1 (07/2001)
- ITU-T Recommendation T.30 Corr. 1 (07/2001)
- ITU-T Recommendation T.30 Amendment 4 (07/2001)
- ITU-T Recommendation T.38 Amendment 4 (07/2001)
- ITU-T Recommendation V.25 Corr. 1 (07/2001)
- ITU-T Recommendation V.59 Corr. 1 (07/2001)
- ITU-T Recommendation V.80 Amendment 1 (07/2001)
- ITU-T Recommendation V.91 Corr. 1 (07/2001)
- ITU-T Recommendation V.92 Amendment 1 (07/2001)
- ITU-T Recommendation V.250 Amendment 1 (07/2001)
- ITU-T Recommendation Z.140 (07/2001): The Tree and Tabular Combined Notation version 3 (TTCN-3): Core Language
- ITU-T Recommendation Z.141 (07/2001): The Tree and Tabular Combined Notation version 3 (TTCN-3): Tabular Presentation Format

Assignment of Signalling Area/Network Codes (SANC) (ITU-T Recommendation Q.708 (03/99))

Note from the TSB

At the request of the Administrations of Germany, Argentine Republic, Chile, Portugal and Singapore, the Director of the TSB has assigned the following signalling area/network codes (SANC) for use in the international part of the signalling system No. 7 networks of these countries/geographical areas, in accordance with ITU-T Recommendation Q.708 (03/99):

<i>Country/geographical area or signalling network</i>	<i>SANC</i>
Germany (Federal Republic of)	2-222
Argentine Republic	7-042
Chile	7-059
Portugal	2-223
Singapore (Republic of)	5-049

SANC: Signalling Area/Network Code.

Code de zone/réseau sémaphore (CZRS).

Código de zona/red de señalización (CZRS).

Telephone Service

Angola (country code +244)

Communication of 31.VII.2001:

Angola Telecom, Luanda, announces the national telephone numbering plan for Angola.

Mobile network:

On 27 November 2000 and 27 March 2000 respectively, *Angola Telecom* announced that the Angola Telecom mobile code had changed from 9 to 91 and that new mobile operator *Unitel* had started to work in Angola, as from 2 April 2001. The mobile access codes in service in Angola are as follows:

<i>Service</i>	<i>Operator</i>	<i>Mobile access code</i>	<i>International dialling format</i>
Mobile	Angola Telecom	91	+244 91 XXXXXX
	Unitel	92	+244 92 XXXXXX

Belgium (country code +32)

Communication of 10.IX.2001:

Belgacom C.B.U., Bruxelles, announces that the Belgian mobile codes are the following:

<i>Mobile codes</i>	<i>Operator</i>
446	Radio Mobile, Dolphin
472 – 479	GSM Belgacom Mobile (Proximus)
485, 486	GSM KPN Orange
494 – 499	GSM Mobistar

All mobile codes are followed by a number of six digits.

Information concerning the Belgian numbering plan can be addressed to Belgacom.

Fax: +32 2 513 2011
E-mail: didier.lefebvre@belgacom.be

Chile (country code +56)

Communication of 17.VIII.2001:

The *Administración Chilena de Telecomunicaciones, Santiago de Chile*, announces that as from 11 February 2002, the telephone numbers of subscribers and pre-payment users of the mobile telephone service will increase in length from seven (7) to eight (8) digits. Numbers for the mobile telephone service will keep the digit "9" as the mobile virtual area code.

For calls to mobile telephones from any country other than Chile, it will be necessary to dial:

Country code + mobile virtual area code + mobile subscriber number, i.e.:

+56 9 Y XXX XXXX, where Y is the new first digit and XXX XXXX is the old mobile number.

Fax: +56 2 421 3131

Denmark (country code +45)

Communication of 14.IX.2001:

The *National Telecom Agency, Copenhagen*, announces that the following additions have been made to the Danish telephone numbering plan:

Eight-digit subscriber numbers for fixed network services

Network	Subscriber numbers
Sonofon	7240XXXX, 7242XXXX, 7243XXXX, 7244XXXX, 7245XXXX, 7246XXXX, 7247XXXX, 7248XXXX, 7249XXXX
Orange A/S	8251XXXX, 8252XXXX, 8253XXXX, 8254XXXX, 8255XXXX, 82560XXX, 82561XXX, 82562XXX, 82563XXX, 82564XXX, 82565XXX, 82566XXX, 82567XXX

Furthermore, the following eight-digit subscriber numbers for mobile network services, previously allocated to Song Networks and TDC Mobil (MIGway A/S), have been deleted:

255XXXXX 6099XXXX

The following eight-digit subscriber numbers for fixed network services, previously allocated to Consorte Danmark and Sonofon, have been deleted:

3223XXXX 90101XXX 90202XXX 90302XXX
90454XXX 90555XXX
7231XXXX 7232XXXX 7251XXXX 7252XXXX

United States, Iridium Satellite LLC (country codes +8816 and +8817)

Communication of 14.IX.2001*:

Iridium Satellite LLC recalls that the International Telecommunications Union (ITU) has reassigned country codes +8816 and +8817 to Iridium Satellite LLC, the new Iridium, for use in the Global Mobile Satellite Service (GMSS), also known as GMPCS, reference to ITU-T Recommendation E.164. With this reassignment, the carrier pricing structure has been dramatically reduced. Iridium Satellite LLC officially re-launched its commercial service on 30 March 2001.

All Administrations and ROAs are requested to include +8816 and +8817 in their existing country code translations as a valid code. Iridium Satellite LLC has interconnection agreements with the following carriers listed below. At the present time, these are the only valid interconnection carriers for terminating or originating traffic with the Iridium Network. Their local representative should be contacted for new pricing and routing information.

Concert (U.S.) <http://www.concert.com/>

Sprint (U.S.) <http://www.sprint.com/>

Telecom Italia (Italy) <http://www.telecomitalia.it/>

Carriers are also requested to ensure that they are correctly rating calls for the charges to call the Iridium network, as the carrier pricing structure for Iridium Satellite LLC has been dramatically reduced from those of the old Iridium. It has been noted that some PSTNs/carriers have reinstated their routing but not their rating tables, with the result that some customers are quoted or charged an incorrect price for calling an Iridium number.

Iridium Satellite LLC has made available a recorded announcement that will enable carriers to validate their routing. To access this service, please dial: +8816 311 10006 and +8817 311 10007. Calls placed to these numbers will terminate at Iridium Satellite LLC's switch with the following recorded announcement: "You have reached the Iridium Satellite Tempe Gateway, your access to the Iridium global network. Welcome."

Should carriers have any questions concerning this notification, they are invited to send an e-mail message or fax, with the contact information for both the person responsible for main translations and the main technical point of contact within the company, to the following contact address:

Lee Coriell
Iridium Satellite LLC
8440 South River Parkway
TEMPE
AZ 85284
United States
Tel: +1 480 752 1179
Fax: +1 480 752 1105
E-mail: lee.coriell@iridium.com

* See also ITU Operational Bulletin No. 737 of 1.IV.2001, pages 5 and 23.

Fiji (country code +679)

Communication of 14.IX.2001:

The *Ministry of Information and Communication*, Suva, announces that the numbering plan of the Fiji Islands will implement a uniform national seven-digit plan, with effect from 25 March 2002. The international public telecommunication number structure of the Fiji Islands will have ten (10) digits in all (including the country code +679).

The need to expand the numbering capacity is influenced by the opening up of the telecommunication services which will lead to the increase in the use of number resources.

General Feature of the New Numbering Plan:

International Public Number Structure

Country code (CC) and national (significant) number (N(S)N),
where CC is the country code consisting of three (3) digits,
N(S)N is the national (significant) number consisting of seven (7) digits.

New dialling format as from 24 March 2002 at 2400 hours UTC

<i>Network</i>	<i>Current dialling format (six-digits)</i>	<i>New dialling format (seven-digits)</i>
Fixed	2XXXXX 3XXXXX 4XXXXX	3 2XXXXX 3 3XXXXX 3 4XXXXX
Fixed	5XXXXX 6XXXXX 7XXXXX	6 5XXXXX 6 6XXXXX 6 7XXXXX
Fixed	8XXXXX	8 8XXXXX
Mobile	2XXXXX 9XXXXX	9 2XXXXX 9 9XXXXX

Recorded Announcement

Due to insufficient exchange capacity, no parallel access service will be available. However, after 24 March 2002, at 2400 hours UTC, all overseas calls to Fiji Islands accessing the six-digit N(S)N (e.g. +679 315 577) will be routed to a recorded announcement and the call will be discontinued. Only calls to Fiji Islands using the seven-digit N(S)N (e.g. +679 331 5577) will be completed.

Malta (country code +356)

Communication of 12.IX.2001:

Malta Communications Authority (MCA), Valletta, announces the following changes to the numbering scheme of the Maltese Islands.

The full liberalisation of telecommunications services set to take place on 1 January 2003 has created the need for additional numbering capacity to cater for new entrants and services that competition generates. To this effect a new numbering plan is in the process of being implemented. The existing numbering scheme will be unified to an eight-digit closed scheme.

The numbering change is scheduled for 1 November 2001, and shall occur in two phases.

Phase 1 will consist of a change to all fixed telephony services numbers (excl. DDI) which will move to an eight-digit scheme from the present six-digit scheme simply by adding a "21" prefix to the existing number. Changes in mobile telephony services will only affect Vodafone Malta numbers by changing "09" to "99". Go Mobile numbers will not be changed. A period of parallel running shall prevail between 1 November 2001 up to 30 April 2002 during which time both the new and old numbers remain operational. After the 30 April 2002 only the new numbers will be operational.

Phase 2 is scheduled for 1 June 2002 also with a six-month parallel running period. The second phase will only affect the local free-phone numbers and the DDI numbers. Details of these changes will be communicated at a later date.

Table 1: Conversion of the Maltese numbering plan to eight digits

Description	Existing numbering range	New numbering range	Start of parallel run	End of parallel run	Contact	Contact details

Morocco (country code +212)

Communication of 8.VIII.2001:

Information on Morocco's national numbering plan

The *Agence Nationale de Réglementation des Télécommunications (ANRT)*, Rabat, announces that, in accordance with Recommendation ITU-T E.164 and further to TSB Circular 51 of 9 July 2001, it is issuing the following information for the benefit of all concerned:

1. The destination codes currently used after the country code 212 to reach fixed geographic subscribers or mobile service subscribers with a number in Morocco from abroad;
2. The national numbering format to dial when in Morocco to reach fixed geographic subscribers, mobile service subscribers, freephone numbers and special services;
3. The numbering format to call abroad from Morocco.

Reminder

Under the national numbering plan for the Kingdom of Morocco (Country Code (CC) = +212), the national (significant) number (N(S)N) comprises eight (8) digits and the numbering structure is as follows:

- (T) ABPQMCDU, where :
 - (T) designates the long distance operator or carrier (Transporter); (T) = 0 for implicit operator.
 - A is the trunk code (area code) for geographic areas or mobile networks,
 - A = 1 and 7 available
 - A = 2 to 5 geographic areas
 - A = 6 for the mobile service
 - A = 8 and 9 for freephone numbers, premium rate numbers and intelligent network.
 - BPQ MCDU is the subscriber number comprising seven (7) digits.

A) Incoming international communication

The international format is:

CC (+212) + N(S)N (eight digits), where CC = country code, N(S)N = national (significant) number. To be more specific: +212 ABPQMCDU.

It is customary in the Kingdom of Morocco to consider that in the format: +212 ABPQMCDU, the digits following a national (significant) number are represented by the following letters: A = area code, BPQ = destination code for the home exchange, MCDU = thousands, hundreds, tens and units: the identity of a subscriber in a given exchange.

Destinations currently open to telephone traffic in the Kingdom of Morocco

The list of possible +212 ABPQ destinations is as follows:

- for the fixed telephone service (A = 2, 3, 4 or 5)
 - for mobile services (A = 6)
- X = any digit from 0 to 9

– *List of ABPQ for the fixed telephone service:*

<i>Geographic areas</i>	<i>ABPQ numbers</i>	<i>Geographic areas</i>	<i>ABPQ numbers</i>
Casablanca	222X 223X 224X 225X 226X 227X 228X 229X	Settat	232X 233X 234X 235X 237X
Marrakech	442X 443X 444X 446X 447X 448X	Méknès	552X 553X 554X 555X 556X 557X 558X 559X
Oujda	562X 563X 564X 565X 566X 567X 568X	Lâayoune	482X 483X 485X 486X 487X 488X 489X
Rabat	372x 373x 374x 375x 376x 377X 378X 379X	Tétouan	390X 391X 393X 394X 395X 396X 397X 398X 399X

– *List of ABPQ for the mobile telephone service:*

<i>Operator/Network</i>	<i>ABPQ numbers</i>
Maroc Télécom / Mobile (NMT 450 & GSM)	61XX 62XX
Maroc Télécom / Mobile (GSM)	66XX 67XX 68XX
Médi Télécom / Mobile (GSM)	63XX 64XX 65XX

B) National communication

To place a local, urban or long-distance call to a fixed national subscriber or to call a mobile subscriber, only one format need be used: 0A BPQ MCDU

C) Calls to special services

To obtain a two- or three-digit special service nationally, the dialling format is the following:

1X: X = 5 for the Fire Department, X = 9 for the Police

1YZ: Y = 0 to 9, Z = 0 to 9

D) Access to international lines

To call abroad from Morocco, dial the international prefix, which for Morocco = 00, i.e. the following format:

00 CC NDC SN, where CC = country code
NDC = national destination code
SN = subscriber number

Suriname (country code +597)

Communication of 23.VIII.2001*:

Telecommunicatiebedrijf Suriname (TELESUR), Paramaribo, announces that the series of mobile access numbers beginning with the digit "8" will migrate from a six-digit to a seven-digit plan, as from 1 August 2001. All cellular numbers will acquire an extra 8 before the old number, while the pager numbers will acquire an extra 9 after the first 8 of the old six-digit number.

All other number series will remain unaffected by this migration in the 8 series.

Chad (country code +235)

Communication of 3.IX.2001*:

The *Office Tchadien de Régulation des Télécommunications*, N'Djamena, announces that Tchad Mobile, one of the mobile telephone operators in Chad, has the following seven-digit numbering format: 8XXXXXX.

It is understood that this numbering is provisional, whilst awaiting adoption of the national numbering plan.

Venezuela (country code +58)

Communication of 10.VIII.2001*:

The *Comisión Nacional de Telecomunicaciones (CONATEL)*, Caracas, announces that the introduction of the National Numbering Plan (NNP) scheduled by CONATEL for this year, will continue on Saturday, 18 August 2001, with simultaneous implementation in the Falcón, Tachira, Apure and Sucre.

The NNP involves modification of the area codes and subscriber numbers and will affect both CANTV customers and those of other telephone service companies. Under the new numbering, when placing international calls to the states in question, the user will have to dial:

Telex Service

Austria

Communication of 11.IX.2001:

Cessation of telex service

The *Federal Ministry for Transport, Innovation and Technology*, Wien, announces that as effective from 1 January 2002, Datakom Austria will no longer provide the telex service (international and national) to and from Austria.

The telex destination code (TDC) "47" allocated to Austria (ITU-T Recommendation F.69), including the telex network identification code (TNIC) "A" (ITU-T Recommendation F.68) (also used as telegram destination indicator), remain, nevertheless, reserved for Austria.

E-mail: smalm@tdc.dk

Liechtenstein

Communication of 11.IX.2001:

The *Office for Foreign Affairs*, Vaduz, announces the following changes in the administration of the telecommunications sector in Liechtenstein.

On 1 January 1999, the *Amt für Kommunikation* (Office for Communications) was established by law as the independent national regulatory authority for the telecommunications and broadcasting sectors. The Office for Communications has since then gradually assumed all its competences in these two sectors, including those that have previously been vested in other authorities.

Within the remit of the Office for Communications lie all regulatory powers over the telecommunications and broadcasting marketplace, the management of the frequency spectrum, the administration of numbering, naming, and addressing resources as well as all international contacts and representations within its competences on an administrative and regulatory level. Within its proper regulatory and administrative competences, the Office for Communications acts independently from the Government or market parties as required by EU-/EEA-Treaty law.

General policy and licensing matters remain the prerogative of the Government respectively of the Ministry of Transport and Communications. An Ordinance regarding general licenses, which will reduce the need for individual licensing to a minimum, is expected to be adopted shortly. Furthermore, competencies for licensing can be delegated to the Office for Communications.

In line with the aforementioned changes, the Office for Foreign Affairs kindly asks to take note of the following modifications in contact points, addresses and responsible persons:

Policy Maker:

Government of the Principality of Liechtenstein
Ministry of Transport and Communications
Regierungsgebäude
Städtle 49
9490 VADUZ
Liechtenstein

H.E. Mrs Rita Kieber-Beck, Minister of Transport and Communications
