The networks include the cellular mobile network, PCS and satellite mobiles, among others. The NDC of the mobile network in the former plan was the digit 3. In the new plan, it increases by two digits and is divided into two different NDC (one for Network A and the other for Network B). The numbering of the freephone service, with ten digits structured 9800123456, migrates to 8000123456. The following table resumes the previous and new non-geographic NDC.

Previous NDC	New NDC	Service	Description
3	310	Network A	Cellular Telephony of Network A operators: Comcel, Occel and Celcaribe
3	315	Network B	Cellular Telephony of Network B operator: Bellsouth
980	800	Freephone	It applies to all freephone services
90X	90X	Premium rate	It applies to all premium rate services
947	947	Internet Access	Numbering for Internet access

The new numbering plan implies the addition of two digits in the non-geographic NDC numbering, as from 1 June 2002. The change in geographic numbering is planned for the month of April 2004 and information will be provided on this in due time.
