Withdrawal From Traditional Switched Transit Services

Cable & Wireless Jamaica Limited, Kingston, announces that with effect from 1 April 2004 *Cable & Wireless Jamaica Limited* will cease to accept traditional switched transit traffic originating from countries utilizing a non-direct routing arrangement. This decision is due to the inefficiencies and complexities associated with this method of routing and settlement of transit traffic, as well as the current availability of more modern and efficient methods.

All transit carriers concerned are requested not to accept transit traffic on a traditional direct and cascade method of accounting for *Cable & Wireless Jamaica Limited* from any carrier worldwide after 1 April 2004.
