National Numbering Plan (According to ITU-T Recommendation E.129 (09/2002))

Electronic version: www.itu.int/itu-t/inr/nnp/index.html

Administrations are requested to notify ITU about their national numbering plan changes, or to give an explanation on their web page concerning the national numbering plan, as well as their contact points, so that the information, which will be available freely to all administrations/ROAs and service providers, can be posted on the ITU-T website.

For their numbering website, or when sending their information to ITU/TSB (e-mail: tsbtson@itu.int), administrations are kindly requested to use the format as explained in ITU-T Recommendation E.129. They are reminded that they will be responsible for the timely update of this information.

From 15.I.2007 to 1.II.2007, the following countries/geographical areas have updated their national numbering plans on our site:

<i>Azerbaijani Republic</i>	<i>(country code +994)</i>
<i>Morocco (Kingdom of)</i>	<i>(country code +212)</i>
<i>Mongolia</i>	<i>(country code +976)</i>
<i>New Caledonia</i>	<i>(country code +687)</i>

List of Telex Destination Codes (TDC) and Telex Network Identification Codes (TNIC)

Notes from TSB

1. By TSB Circular 80 of 3 June 1994, TSB announced the approval of ITU-T Recommendation F.69 (06/1994), in accordance with Resolution No. 1, Section 8, of the WTSC (Helsinki, 1993). Consequently, TSB prepared a list of Telex Destination Codes (TDC) and the corresponding Telex Network Identification Codes (TNIC), which are allocated in accordance with ITU-T Recommendation F.68 (11/1988). This list, based on Annex A to ITU-T Recommendation F.69 as published in the Blue Book (Volume II – Fascicle II.4 – pages 142 to 145), incorporates the changes of codes or designations of names of countries/geographical areas already announced in the ITU Operational Bulletins over the past few years and was published as Annex to Operational Bulletin No. 693 of 1 June 1999.
2. The new list, annexed to ITU Operational Bulletin No. 878 of 15 February 2007, replaces the previous one. In addition, the two-letter telegram network codes, referring to paragraph 7.3 of ITU-T Recommendation F.32 (10/1995), corresponding to one-letter telex network identification codes and countries or geographical areas for which information regarding cessation of telex service has been published in ITU Operational Bulletin (No.), are appended to this list.
3. In the interests of keeping the list up to date, administrations/ROAs are requested to check the accuracy of the information it contains and to inform TSB of any changes which should be made for its updating (Fax: **+41 22 730 5853**, or E-mail: **tsbtson@itu.int**). Changes will be published in the following ITU Operational Bulletin as Amendments to the list.
4. Furthermore, the information contained in this Annex to ITU Operational Bulletin No. 878 is also available on the ITU home page www.itu.int/itu-t/bulletin/annex.html, and can be consulted by subscribers by remote access.
5. The designations employed and the presentation of material in this list do not imply the expression of any opinion whatsoever on the part of ITU concerning the legal status of any country or geographical area, or of its authorities.
