# List of Signalling Area/Network Codes (SANC)

## Note from TSB

1. This List of Signalling Area/Network Codes (SANC) replaces the previous one published as Annex to ITU Operational Bulletin No. 853 of 1.II.2006. Since then, various new assignments have been made and they have been published separately in various issues of ITU Operational Bulletin. The present List contains all the amendments that have been published up to ITU Operational Bulletin No. 881 of 1.IV.2007.

2. The present List includes:

- a list of SANC codes in numerical order
- a list of SANC codes in alphabetical order of names of countries/geographical areas.

3. ITU-T Recommendation Q.708 (03/99) states that the assignment of signalling area/network codes (SANC) is to be administered by TSB. The assignment/withdrawal of international signalling point codes (ISPC) will be made by each country who will then notify TSB.

4. A request for a SANC is to be made by the Administration in writing to the Director of TSB. In order to request an additional SANC an Administration must provide the Director of TSB a notification of the current assignment of ISPCs by that Administration.

5. For information, this List will be updated by numbered series of amendments published in the ITU Operational Bulletin. Furthermore, the information contained in this Annex is also available on the ITU home page (<http://www.itu.int/ITU-T/bulletin/annex.html>), and can be consulted by subscribers by remote access.

6. Countries who wish to take part in the international signalling network or require an additional signalling area/network code (SANC) should ask the Director of TSB for the assignment of an available SANC code. In their request they may indicate the available SANC code preferred. Please address any comments to the Director of TSB:
