List of International Signalling Point Codes (ISPC)

Note from TSB

1. This List of International Signalling Point Codes (ISPC) replaces the previous one published as Annex to ITU Operational Bulletin No. 869 of 1.X.2006. Since then, a number of notifications have been received by TSB and they have been published separately in various issues of the ITU Operational Bulletin. The present list recapitulates all the different amendments that have been published up to Operational Bulletin No. 887 of 1.VII.2007.
2. Recommendation Q.708 states that the assignment of signalling area/network codes (SANC) is to be administered by TSB. Each country will then be responsible for the assignment of international signalling point codes (ISPC) that will then be notified to TSB.
3. The numbering plan of Recommendation Q.708 contains 2048 SANCs providing for 16384 international signalling points. From these, currently 1536 SANCs are available for assignment allowing for 12288 international points. At present 801 SANCs are assigned; the reported utilisation is 4481 international signalling points.
4. In order to keep the list up to date, administrations are requested to notify TSB, by using the attached notification form, as soon as an ISPC assignment or withdrawal is made, <http://itu.int/itu-t/inr/forms/ispc.html>.
5. This List will be updated by numbered series of amendments published in ITU Operational Bulletin. Furthermore, the information contained in this Annex is also available on the ITU website <http://www.itu.int/itu-t/bulletin/annex.html>, and can be consulted by subscribers by remote access.
