Access codes/numbers for mobile networks

Note from TSB

1. Several requests have been received by ITU, asking that a distinction be made between the fixed and mobile telephone numbers. A List of access codes/numbers for mobile networks has been prepared from the information received on the telephone service for publication in the ITU Operational Bulletin. Administrations/ROAs are requested to verify the information in this List and to inform ITU on any modifications that they wish to make.

2. This List of access codes/numbers for mobile networks replaces that published in ITU Operational Bulletin No. 873 of 1.XII.2006. Since then, a number of notifications have been received by TSB and they have been published separately in various issues of the ITU Operational Bulletin. The present list recapitulates all the different amendments that have been published up to ITU Operational Bulletin No. 903 of 1.III.2008.

3. This List will be updated by numbered series of amendments published in the ITU Operational Bulletin. Furthermore, the information contained in this Annex is also available on the ITU website: www.itu.int/itu-t/bulletin/annex.html, and can be consulted by subscribers by remote access.

4. Please address any comments or suggestions concerning this List to the Director of TSB:
