Communication of 16.VIII.2013:

The *Information and Communication Technologies Authority (ICT Authority)*, Port-Louis, wishes to notify the TSB, in accordance with ITU-T Recommendation E.129, of a major E.164 numbering plan change that is scheduled to take place on 1<sup>st</sup> September 2013.

The numbering plan change concerns the migration from seven to eight digits of non-geographic E.164 numbers assigned to mobile networks, as detailed in the table attached herewith. The said migration will be done in a hard cut-off mode on the above-mentioned date, i.e. without parallel run.

The ICT Authority would like to inform that, following the allocation of a new mobile number block to an operator, there has been an addendum to the migration list submitted by the ICT Authority previously. The new mobile number block which has now been included in the migration list is 85X XXXX.
