### PART III List of Bureaux Handling the International Public Facsimile Service Between Public Bureaux (BUREAUFAX) 1)

#### List of International Bureaufax Bureaux open to Direct Reception of International Facsimile Documents

- COL. 1a: - postal code. In some cases, the postal code in column 1a corresponds to the locality where the facsimile terminal is installed (column 1b). In other cases, the groups of postal codes in column 1a correspond to the localities served by the gateway bureaux in column 1b.
- COL. 1b: - one or more "international receiving Bureaufax bureau(x)" (**gateway bureau**), "alternative main international Bureaufax bureau(x)", with full details (complete address, etc.), which receive international facsimile documents and re-route them, as required, to other national Bureaufax bureaux (see **PART IV**) or to other localities with no Bureaufax bureau;

COL. 2 - INTERNATIONAL CALL NUMBER OF THE FACSIMILE TERMINAL (PRECEDED BY THE TYPE OF NETWORK/CIRCUIT USED)\*

COL. 3 - FACSIMILE TERMINAL : group :

- 2 or 3 or 4;
- 3/2 in the case of interworking between group 3 and 2 terminals, or
- 4/3 in the case of interworking between group 4 and 3 terminals.

COL. 4a/4b/4c - HOURS OF SERVICE IN LOCAL TIME

COL. 4a : Monday - Friday,

COL. 4b : Saturday

COL. 4c : Sunday and public holidays.

The hours of service of the public bureaux listed in column 1b are entered in the appropriate sub-columns. The abbreviation "N" is used for public bureaux which are open permanently (day and night).

\* Type of network/circuit used:

PSTN Public switched telephone network;  
DATEL Circuits allocated to the DATEL service;  
DEDICATED Dedicated network for the facsimile service.

#### **PART IV List of Bureaux Handling the National Public Facsimile Service Between Public Bureaux (BUREAUFAX)**

##### **List of National Bureaufax Bureaux Not Open to Direct Reception of International Facsimile Documents**

- COL. 1a The postal code in column 1a corresponds to the locality in column 1b. In some cases, the groups of postal codes in column 1a correspond to the localities served by the bureaux in column 1b.
- COL. 1b Names of localities with "**national Bureaufax bureaux**" not open to direct reception of international facsimile documents.
- COL. 2 Name of the **international Bureaufax bureau (gateway bureau)** or the alternative main bureau entered in column 1b of **PART III**, to which facsimile documents should be transmitted.

#### **PART V Notes**

The data shows only those countries that have notified ITU of their participation in the Bureaufax service. If you participate in the Bureaufax service but your name is not listed in the data, or if you wish to modify information concerning your service, you are requested to complete the Bureaufax Table Notification Form.
