Telecommunication Standardization Workshop

25-27 October 2006, Maputo, Mozambique

Outline

ITU-T

1) ITU International Telecommunication Union

- Administrative entities
- Structure

2) ITU-T (Standardization Sector of ITU)

- Administrative entities
- Mission
- Membership
- Structure
- Workshops
- Intellectual property Rights (IPR)

ITU-T

ITU Landmarks

- 1837 Invention of the first electric telegraph
- 1844 Samuel Morse sent his first public message over a telegraph line between Washington and Baltimore
- *1865 Foundation of the International Telegraph Union by twenty States with the adoption of the first Convention. First Telegraph Regulations.*
- 1876 Alexander Graham Bell patents his invention of the telephone
- 1924 Paris - Creation of CCIF (International Telephone Consultative Committee)
- 1925 Paris - Creation of CCIT (International Telegraph Consultative Committee)
- 1927 Washington - Creation of the CCIR (Intl. Radio Consultative Committee)
- *1932 Madrid - Plenipotentiary Conference. Telegraph Union changes name to International Telecommunication Union - ITU*
- **1947** ITU becomes a Specialized Agency of the United Nations
- 1956 Geneva - CCIF and CCIT merged into CCITT (International Telegraph and Telephone Consultative Committee)
- *1992 Geneva - Plenipotentiary Conference. Creation of 3 Sectors: ITU-T (CCITT), ITU-R (IFRB, CCIR), and ITU-D (TCD)*

ITU-T

1865 Foundation of the International Telegraph Union

ITU-T

International Telecommunication Union

- Founded in 1865, it is the oldest specialized agency of the United Nations system
- ITU is an International organization where governments, industries, telecom operators, service providers and regulators work together to coordinate global telecommunication networks and services

Help the world communicate!

- 190 Member States (Government), 650 Sector Members (private sector)

ITU-T

What does ITU actually do?

- Spectrum allocation and registration
- Coordinate national spectrum planning
- International telecoms/ICT standardization
- Collaborate in international tariff-setting
- Cooperate in telecommunications development assistance
- Develop measures for ensuring safety of life
- Provide policy reviews and information exchange
- Insure and extend universal Telecom access

ITU Administrative Entities

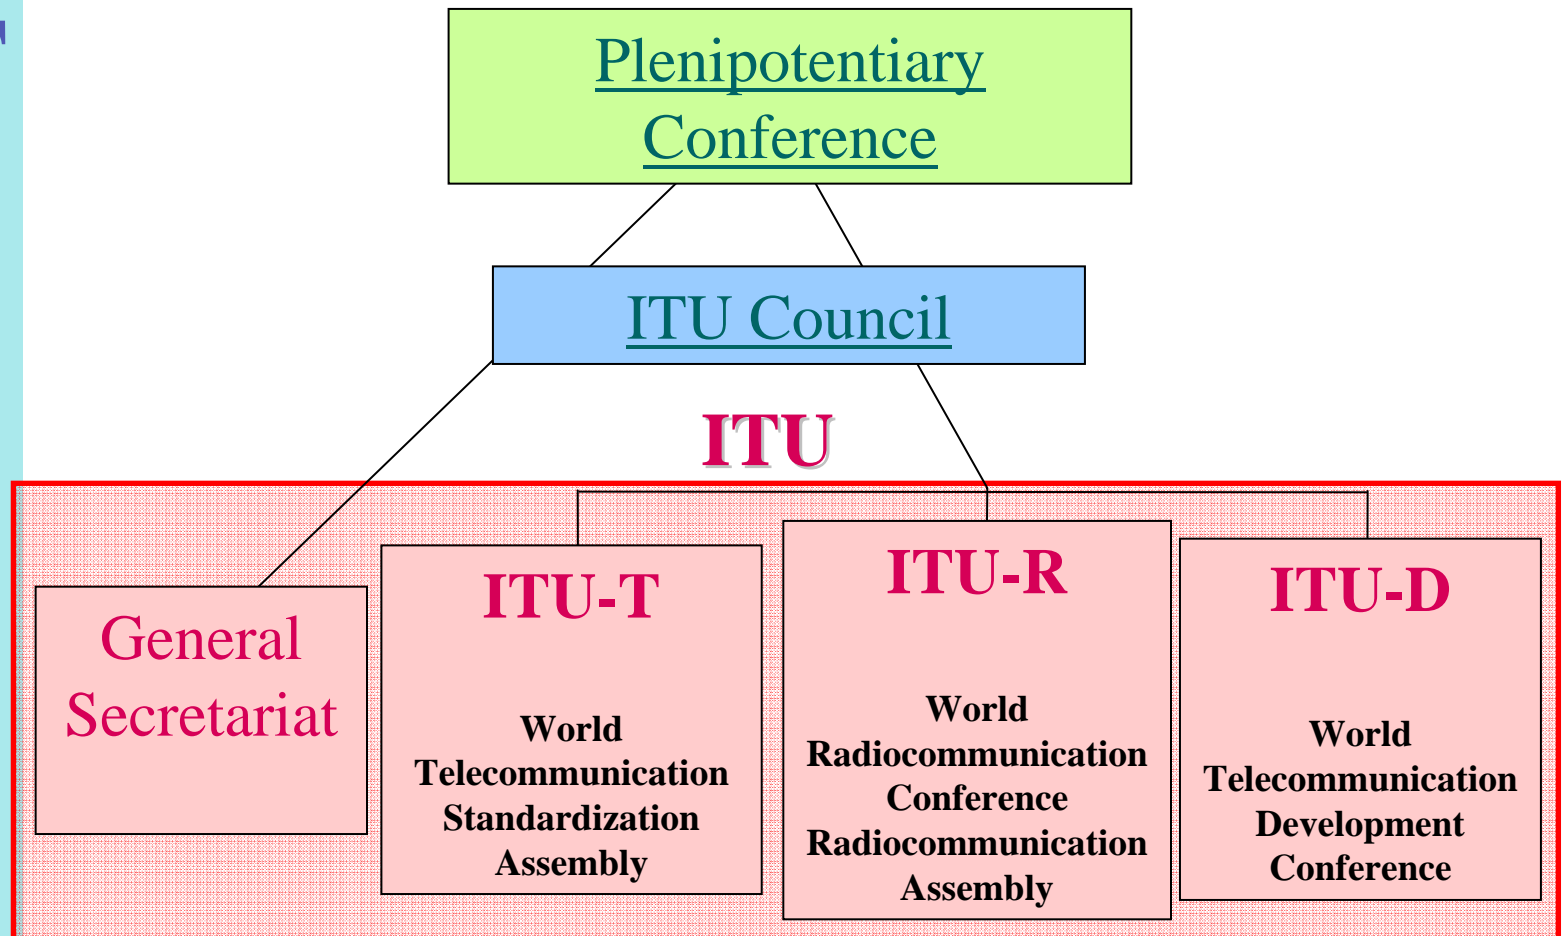

ITU-T

Plenipotentiary Conference

Key event, all ITU Member States decide on the future role of the organization

- Top policy-making body of ITU
- Held every four years (Previous Marrakesh 2002, next 6-24 November 2006 Antalya, Turkey)
- Sets the Union's general policies
- Adopts four-year strategic and financial plans
- Elects senior management team of the organization.

ITU-T

Bureau

ITU-D

ITU-T

ITU Council

The role of the Council is to consider, in the interval between Plenipotentiary Conferences, broad telecommunication policy issues to ensure that the Union's activities, policies and strategies fully respond to today's dynamic, rapidly changing telecommunication environment (**held yearly**)

- Prepares a report on ITU policy and strategic planning.
- Responsible for ensuring the smooth day-to-day running of the Union
- Facilitate the implementation of the ITU constitution, ITU convention and Plenipotentiary decisions
- Coordinate work programmes
- Approve budgets
- Control finances and expenditure

Bureau

Telecommunication
Standardization Workshop
October 2006

ITU Structure

- **General Secretariat**: Coordinates and manages the administrative and financial aspects of the Union's activities (*provision of conference services, information services, legal advice, finance, personnel, etc.*)
- **ITU-R**: Coordinates radio communications, radio-frequency spectrum management and wireless services.
- **ITU-D**: Technical assistance and deployment of telecom networks and services in developing and least developed countries to allow the development of telecommunication.
- **ITU-T**: Telecommunication standardization on a world-wide basis. Ensures the efficient and on-time production of high quality standards covering all fields of telecommunications (technical, operating and tariff issues). (*The Secretariat of ITU-T (TSB) provides services to ITU-T Participants*)

ITU-T

Telecommunication Standardization Bureau (TSB)

The **Telecommunication Standardization Bureau (TSB)** provides secretarial support for ITU-T and services for participants in ITU-T work (e.g. organization of meeting, publication of Recommendations, website maintenance etc.).

Disseminates information on international telecommunications and establishes agreements with many international SDOs.

For more details, please consult our website at:

<http://www.itu.int/ITU-T/info/tsb/index.html>

ITU-T

Mission of ITU-T Standardization Sector of ITU

- Helping people all around the world to communicate and to equally share the advantages and opportunities of telecommunication **reducing the digital divide** by studying technical, operating and tariff matters **to develop telecommunication standards (Recommendations)** on a **worldwide basis**.

main output

Recommendations

ITU-T

ITU-T Membership

(as of 19-May-2006)

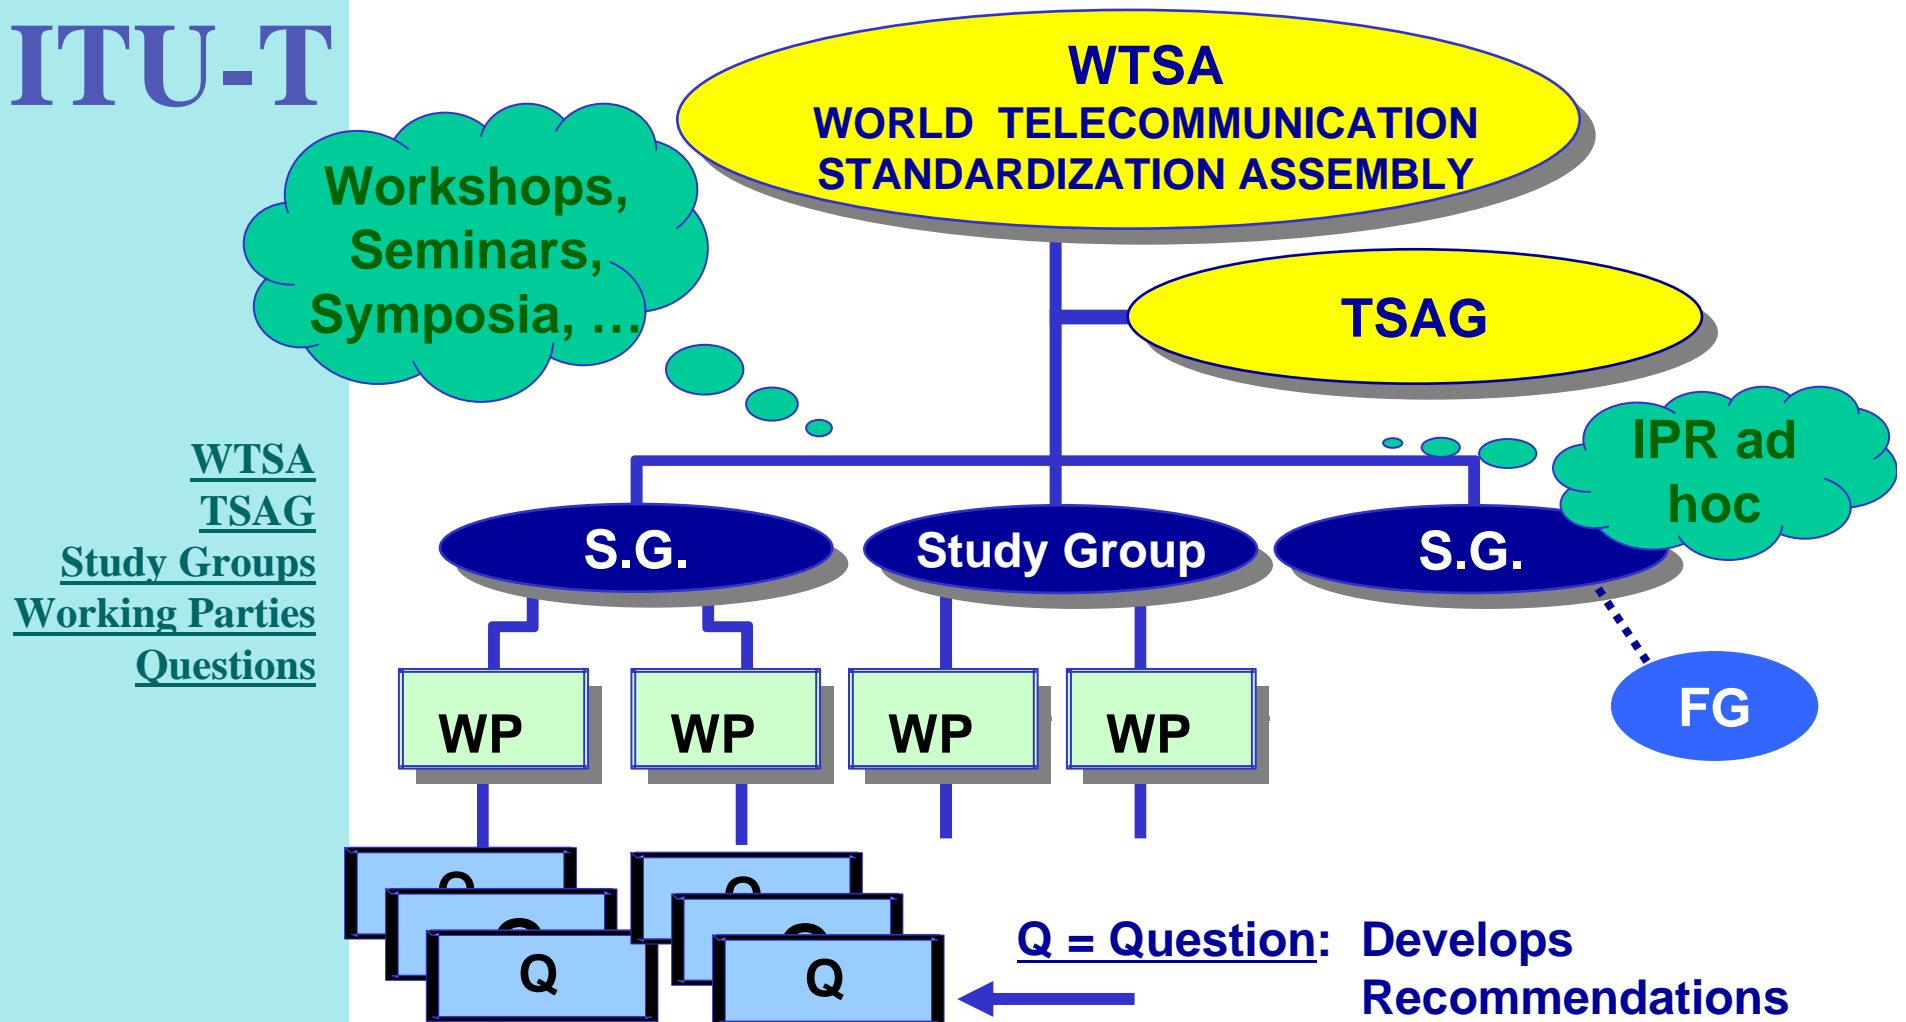

- **[190] Member States (Governments)**
- **[352] Sector Members:**
 - (157) Recognized Operating Agencies (ROA),
 - (147) Scientific or Industrial Organizations (SIO),
 - (48) Other entities dealing with telecommunication matters: Regulators, Regional and other international telecommunication, standards, financial or development organizations
- **[107] Associates:**

Associate is a way for small entities or organizations to participate in the work of a single ITU-T Study Group at a reduced financial contribution.

ITU-T

ITU-T Structure

ITU-T

ITU Environment

- The Telecoms MARKET became GLOBAL because of
 - Liberalization of telecom industry
 - Development of Internet:
(anyone can set up a service)
 - Success of mobile telephony
 - Rapid technological developments
- A GLOBAL Telecoms Market require standards
 - About 500 forums and SDOs ... compete & cooperate
 - and new technologies will bring new forums
- Competition in ICT \$standardization and Market pressure forced and continues to force, ITU-T to adapt to stay competitive

ITU-T

Characteristics of ITU-T

1. Work (mostly) done in Study Groups (13 of them)
2. ITU-T Product: Recommendations (= “standards”)
 - Example: G992.1 (ADSL), G993.1 (VDSL)
3. Unique partnership of private sector (Sector Members) & government (Member States)
 - Today, 95% of work is done by private sector
 - (Strong participation from Asia, esp. China)
 - Remaining 5% if regulatory impact
4. Truly global
5. Consensus decisions
6. Very flexible
7. Fast procedures, transparent procedures
8. Brand name
9. IPR Policy and copyright

ITU-T

ITU-T is fast

ITU-T is fast to:

- Start work: 1 day / few weeks
- Develop work: from weeks to 2-3 yrs
- Approve work: 2 months
*"Speedy Gonzalez approval procedure"
(= AAP) for technical standards (=95%
of work)*
- Publish work: couple of days after approval

ITU-T

ITU-T Recommendations to become available online for free

ITU Council 2006 decided to run a trial from January to Sept 2007:

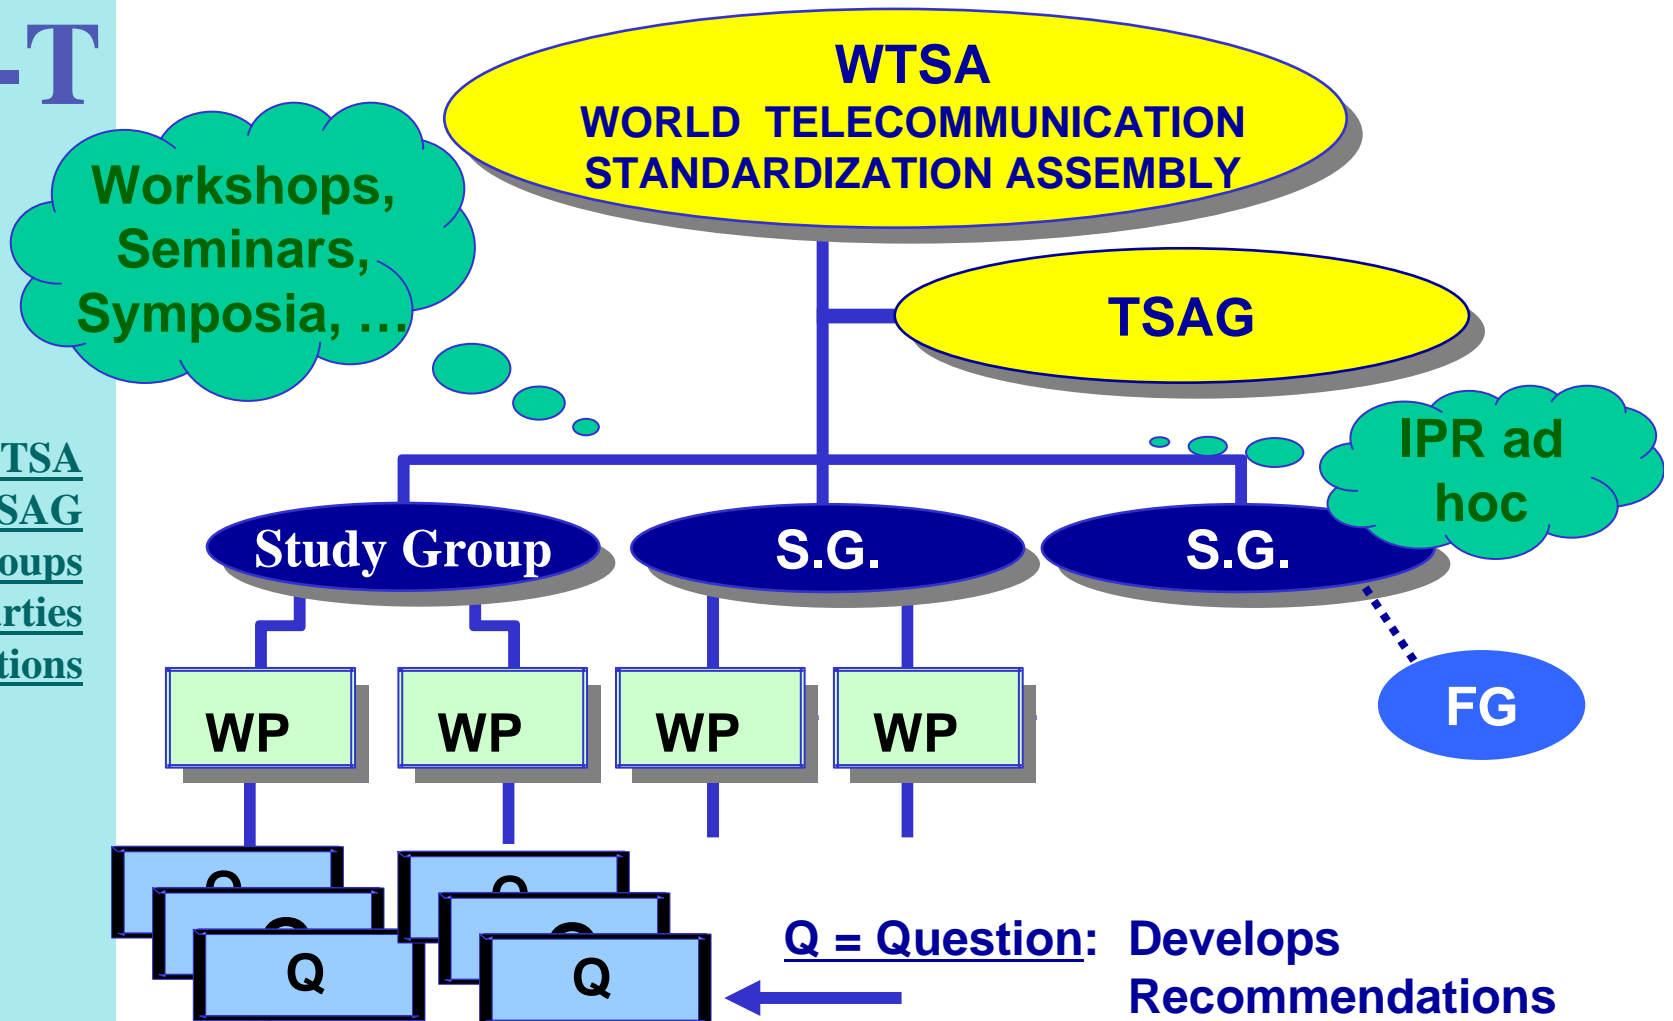

- Whole world will have access to ITU-T Recs online for free (finally edited version, pdf)
- ITU-T members to have access also to pre-published version (pdf, winword)

ITU-T

WTSA

TSAG

Study Groups

Working Parties

Questions

ITU-T Structure (Administrative Entities)

WTSA

World Telecommunication Standardization Assembly

ITU-T

WTSA **sets** the overall **direction** and **structure** for ITU-T, meets **every four years** and for the next four-year period:

- Defines the general policy for the Sector
- Establishes the study groups (SG)
- Approves SG work programmes
- Appoints SG chairmen and vice-chairmen.

An output of WTSA is a set of Resolutions which are freely available at:

www.itu.int/opb/publications.aspx?lang=en&parent=T-RES&selection=1§or=2

ITU-T

TSAG

Telecommunication Standardization Advisory Group

TSAG provides ITU-T with **flexibility** between WTSAs, and **reviews priorities, programmes, operations, financial matters and strategies** for the Sector (meets ~~ 9 months)

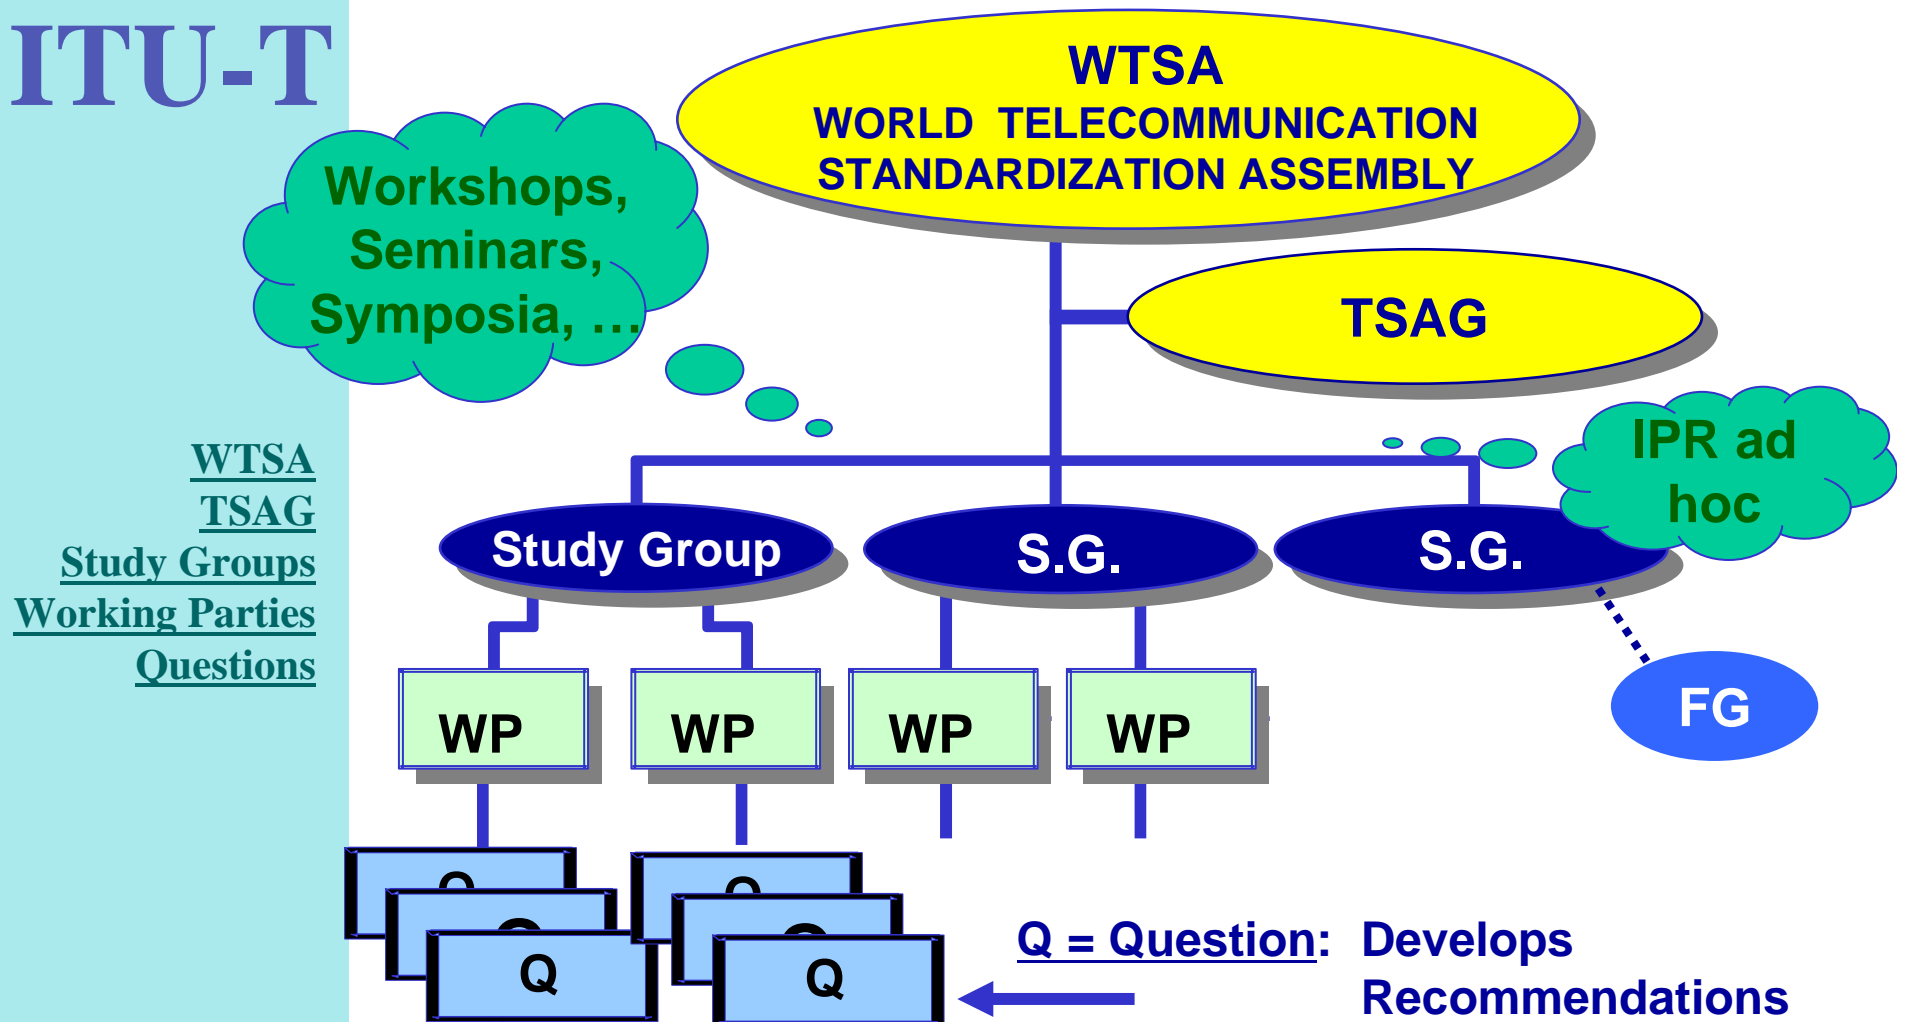

- follows up on accomplishment of the work programme
 - restructures and establishes ITU-T study groups
 - provides guidelines to the study groups
 - advises the TSB Director
 - produces the A-series Recommendations on organization and working procedures
- freely available at:

<http://www.itu.int/rec/T-REC-A/e>

ITU-T

ITU-T Structure (SG)

ITU-T

ITU-T Structure (SG)

ITU-T

Study Groups

Study Groups

- The **responsibility and mandates** of each Study Group is set out by **WTSA** (e.g SG 2 mandate is "Operational aspect of service provision, networks and performance") (*see Resolution. 2 "ITU-T S.G. responsibility and mandates"*)
- **Study Questions** adopted by **WTSA** and/or the relevant SG to prepare draft Recommendations
- **TSAG** may review **priorities, programmes**, and **provide guidelines** for the work of the Study Groups.

ITU-T

ITU-T Study Groups (1/5)

- **Study Group 2:** Operational aspects of service provision, networks and performance
 - *Lead Study Group on Service definition, Numbering and Routing*
 - *Lead Study Group for Telecommunication for Disaster Relief/Early Warning*
- **Study Group 3:** Tariff and accounting principles including related telecommunication economic and policy issues
- **Study Group 4:** Telecommunications Management
 - *Lead Study Group on Telecommunication Management.*

ITU-T

ITU-T Study Groups (2/5)

- **Study Group 5:** Protection against electromagnetic environment effects
- **Study Group 6:** Outside Plant and related indoor installations
- **Study Group 9:** Integrated broadband cable networks and television and sound transmission
 - *Lead Study Group on integrated broadband cable and television networks.*

ITU-T

ITU-T Study Groups (3/5)

- **Study Group 11: Signaling requirements and protocols**
 - *Lead Study Group on signalling and protocols*
 - *Lead Study Group on intelligent networks*
- **Study Group 12: Performance and Quality of Service**
 - *Lead Study Group on Quality of Service and performance*
- **Study Group 13: Next Generation Networks**
 - *Lead study group for NGN and satellite matters*

ITU-T

ITU-T Study Groups (4/5)

- **Study Group 15: Optical and other Transport Network Infrastructures**
 - *Lead Study Group on Access Network Transport and on Optical Technology*
- **Study Group 16: Multimedia Terminals, Systems and Applications**
 - *Lead Study Group on multimedia terminals, systems and applications*
 - *Lead Study Group on ubiquitous applications ("e-everything", such as e-health and e-business)*

ITU-T

ITU-T Study Groups (5/5)

- **Study Group 17: Security, Languages and Telecommunications Software**
 - *Lead Study Group on Telecommunication Security*
 - *Lead Study Group on Languages and Description Techniques.*
- **Study Group 19: Mobile telecommunication networks**
 - *Lead Study Group on mobile telecommunication networks and for mobility.*

ITU-T

SG Working methods

- **Face-to-face meetings:**
 - When? Each ~9 months
 - Where? Geneva (ITU premises) or any other venue in an inviting country for host the meeting
 - What happen? Debate on contributions, agreements on reports, approval of Recommendations, Creation of **Focus Groups** for urgent matters
- **Decision:** **Consensus** → unopposed agreements (absence of sustained opposition)
- **Contributions driven:**

The debates or the progress of the work occur if a contribution is submitted to the meeting!
(contributions, temporary documents)

ITU-T

Documentation

Meeting documents

- Contributions
- Temporary Documents
- Reports

Administrative documents

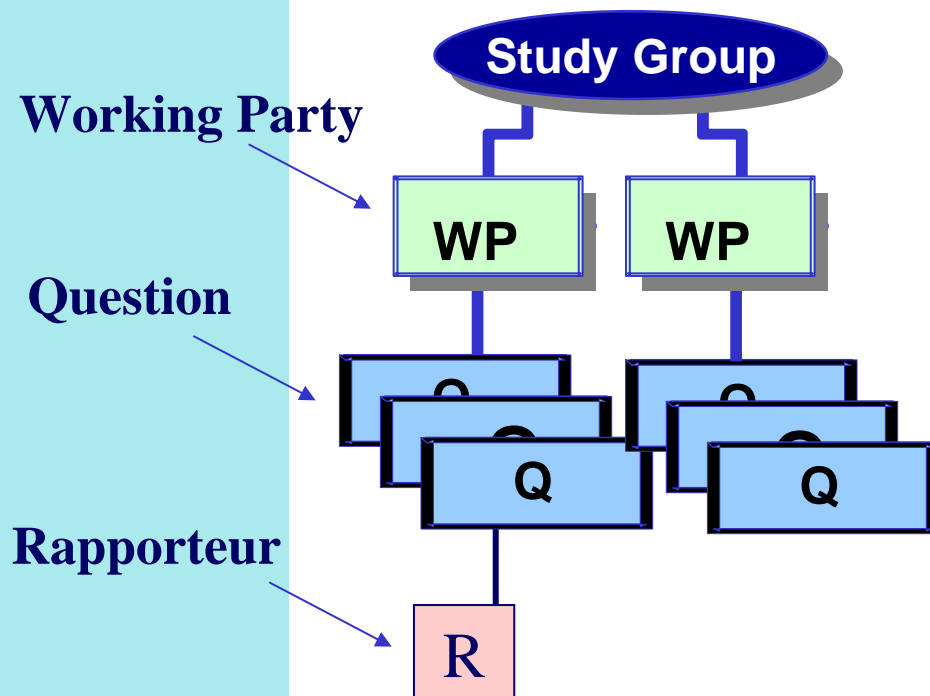

- Circulars
- Collective-letters
- AAP Announcements

ITU-T

SG Management Team

SG Chairman, Vice-Chairmen, WP Chairman (sometimes also the Vice-Chairmen) **TSB Engineer/Counsellor**

Example:

Study Group 16

**Multimedia terminals,
systems and applications**

Working Party 3

Media coding

Question 6

Video coding

Rapporteurs:

Mr Gary SULLIVAN

Mr Thomas WIEGAND

ITU-T

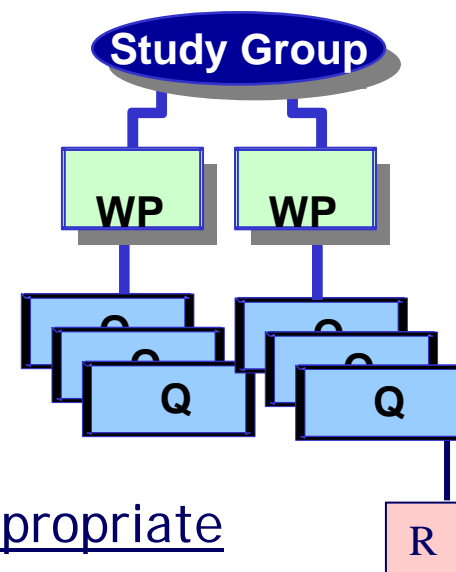

SG Management Team

- **Composition of MT**

- SG Chairman, Vice-Chairmen
- WP Chairman (sometimes also the Vice-Chairmen)
- TSB Engineer/Counsellor

- **Role of MT**

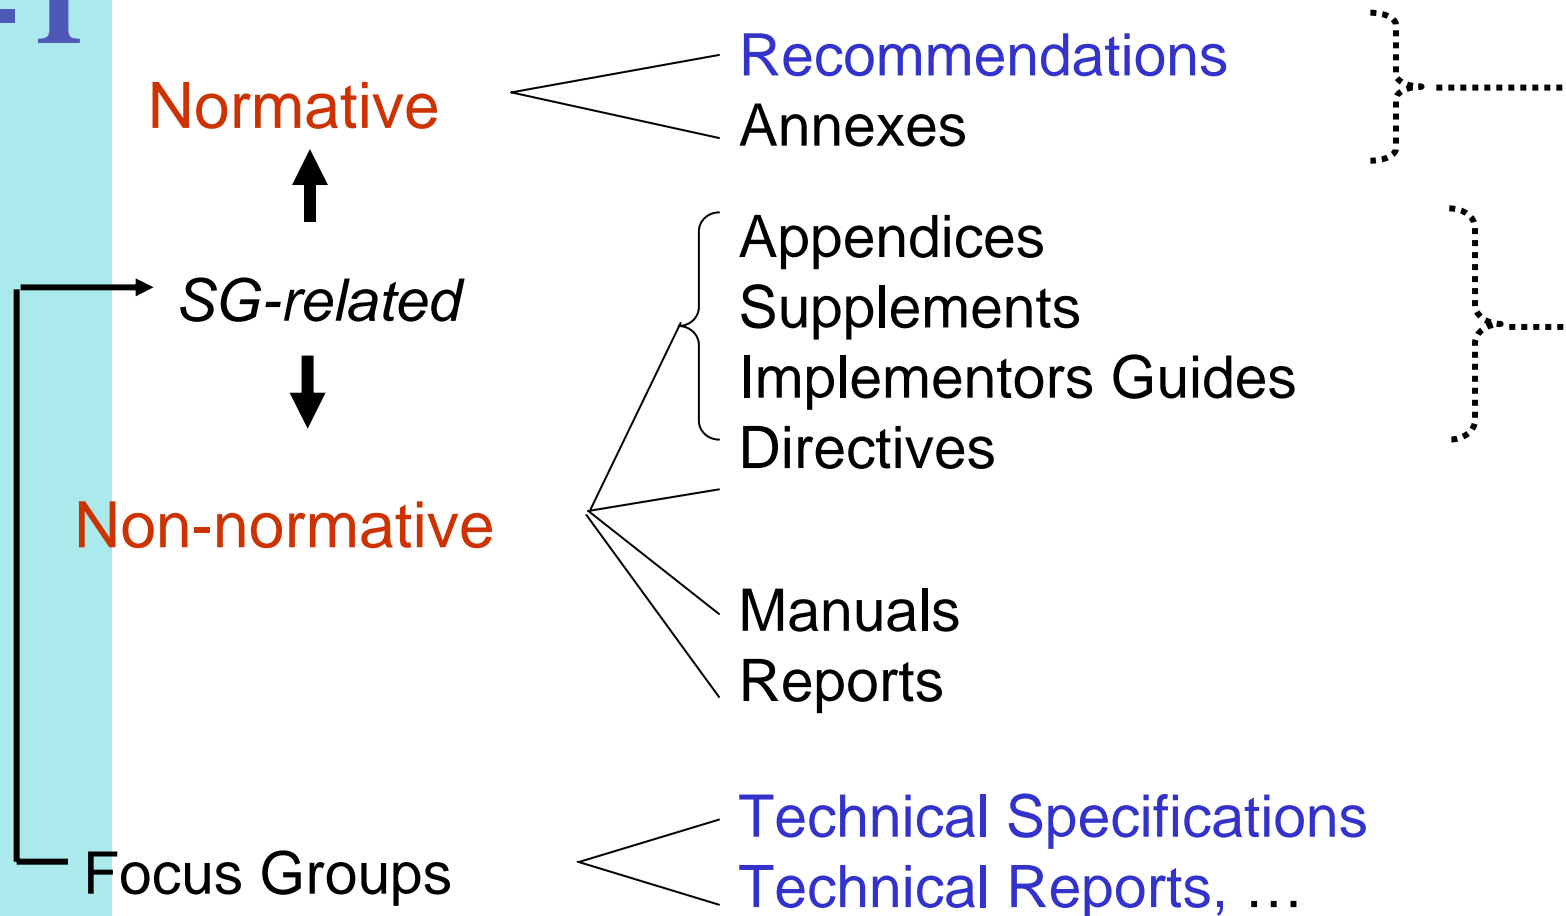

- Within the SG, establishment of an appropriate structure for the distribution of work
- Provide coordination and planning of meetings, prepare meeting agenda, documents assignment to WPs/Qs, chair meetings, develop a report, etc.
- Promote the Study Group activities coordinating with TSB (providing materials for Press Release, ITU-T e-flash, etc.

Telecommunication
Standardization Workshop
October 2006

ITU-T Recommendations

- Developed by 13 Study Groups divided into themed series (A, B, C... ect.)
- e.g. A-Series cover the Organization of the work of ITU-T
- e.g. H-series covers Recommendations on "Audiovisual and multimedia systems"
- All downloadable from various sites depending on the subscription (**free from Jan. 2007!**)
- Currently Free download up to three Recommendations per email address per year

ITU-T

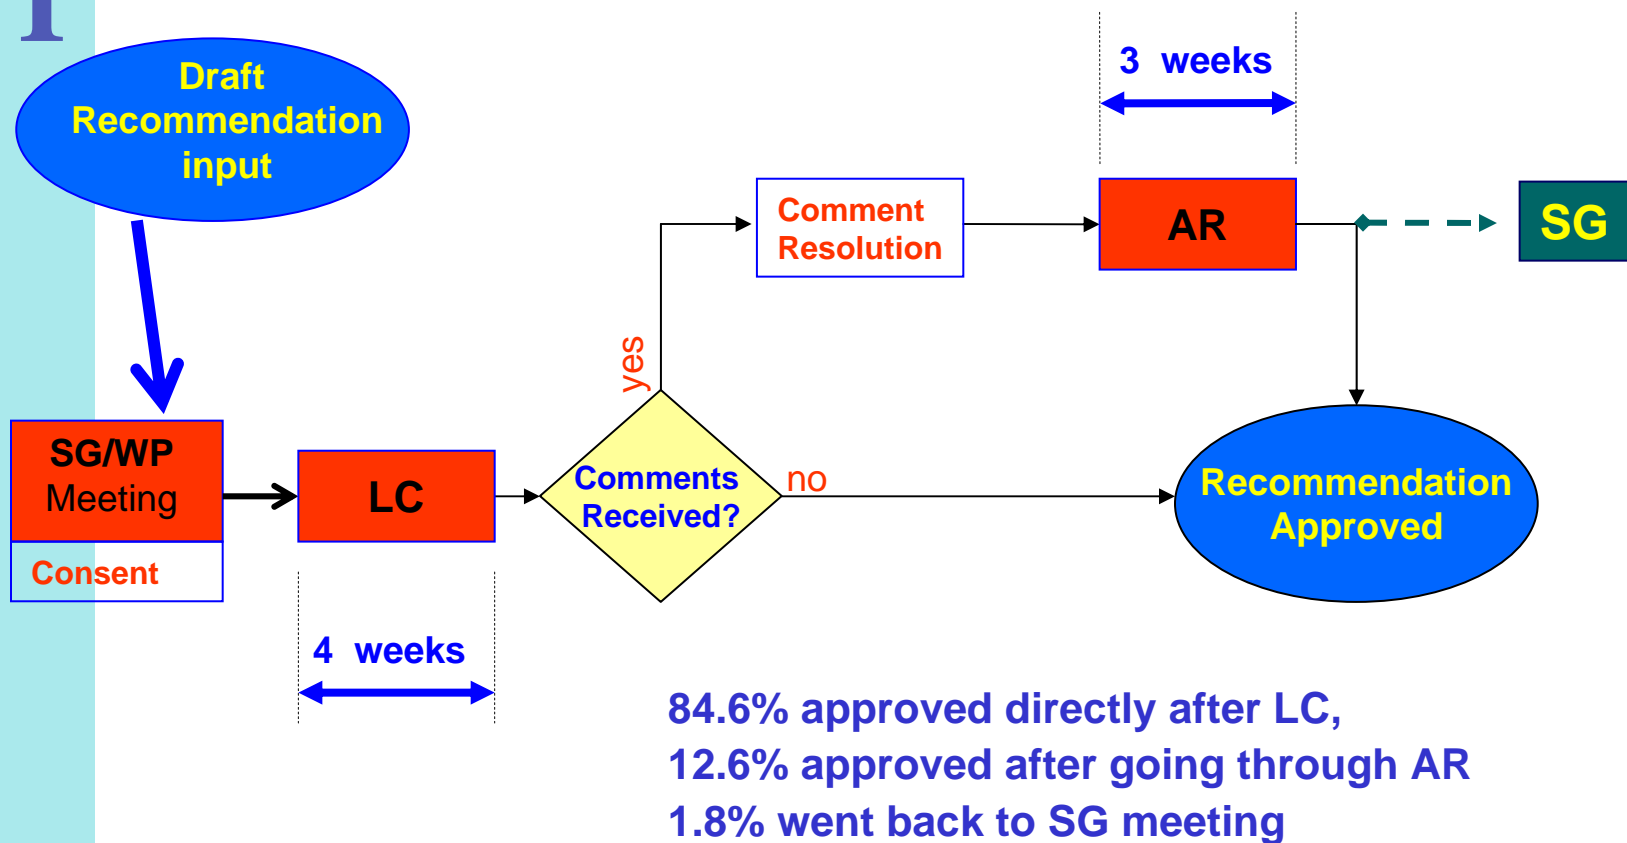

Approval Process

- **Traditional Approval Process** (TAP)
For Recommendations subject to policy or regulatory implications
Initiated by an SG or WP meeting and completed, for final approval, at the subsequent SG meeting (§9 Res.1)
- **Alternative Approval Process** (AAP)
For Recommendations without policy or regulatory implications
(since January 2001 → over 1000 Recs approved)
Once the text is considered sufficiently mature, it is submitted for AAP by an SG or WP meeting (Rec. A.8)

ITU-T

Simplified AAP flow chart

84.6% approved directly after LC,
12.6% approved after going through AR
1.8% went back to SG meeting

LC = Last Call: " four weeks"

SG = Study Group

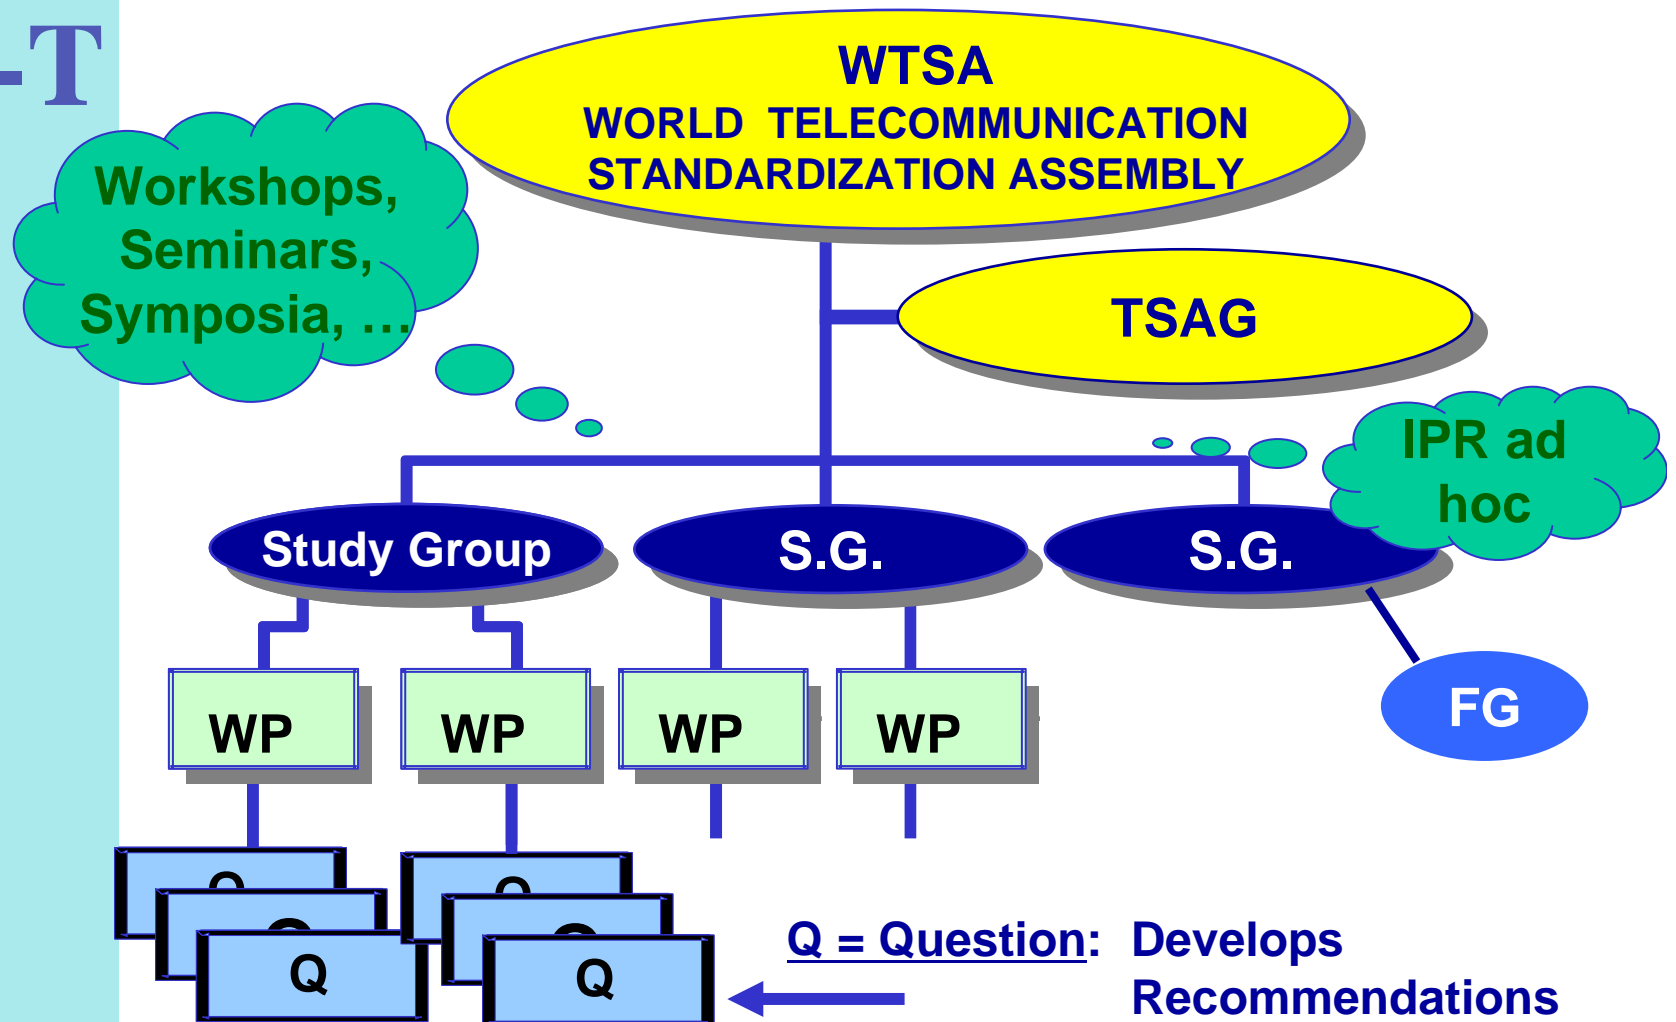

AR = Additional Review: " three weeks"

WP = Working Party

ITU-T

ITU-T Structure (FG)

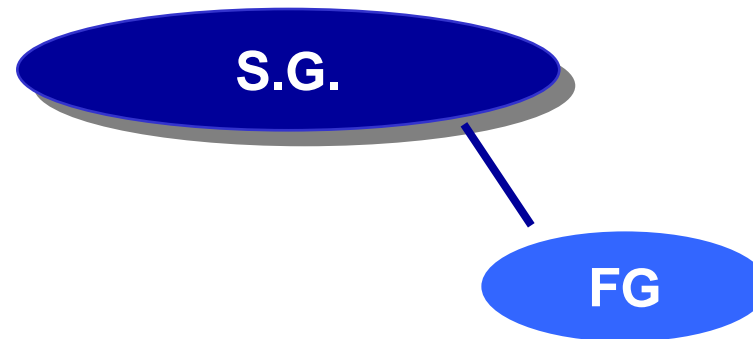

ITU-T

ITU-T Structure (FG)

Parent Study group

Cannot develop Recommendations
Outputs = Technical reports

Focus Group
well defined ToR
assigned timeframe

ITU-T

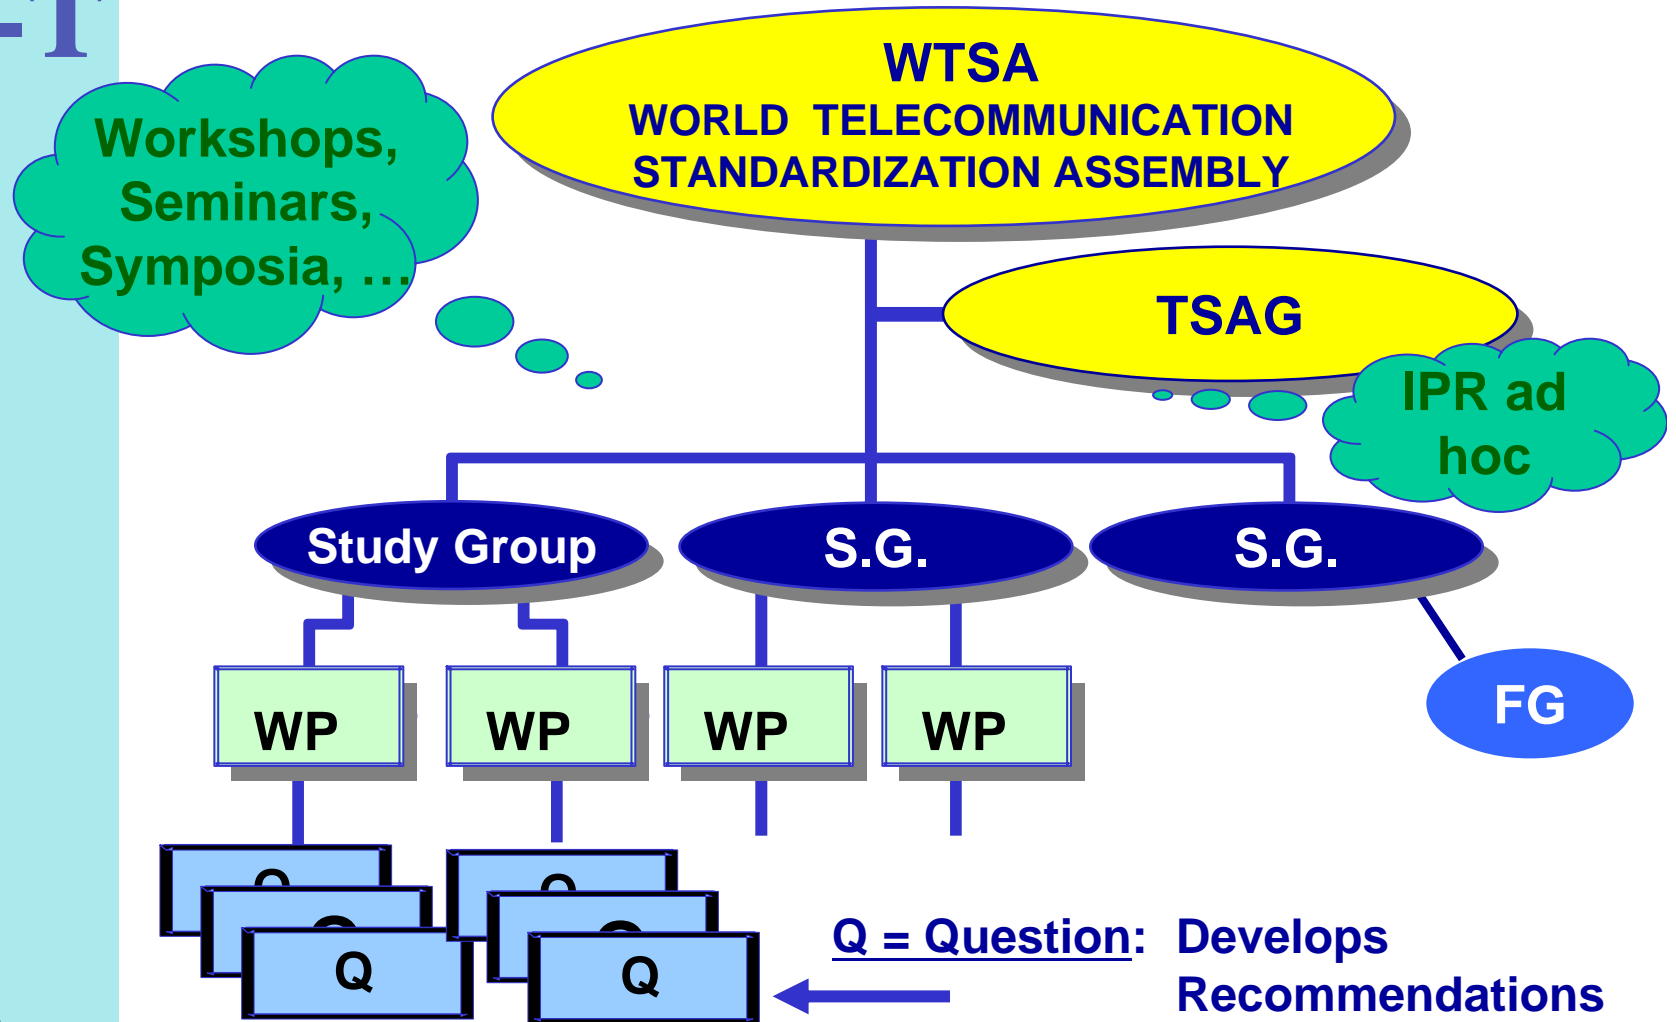

ITU-T's Focus Group Concept:

- Create forum-like entities as an “arms-length” organization under ITU-T Study Group
- Work on a well-defined topic, scheduled for completion at a specific time
- **Goal: encourage participation of non-members / members of other organizations (fora)**
- Focus group has lots of freedom to establish its own rules
 - can keep own brand name and at the same time benefit from ITU's branding
 - Non-ITU members can participate
- Recent examples:
 - IPTV Focus Group
 - NGN Focus Group
 - NGN Management Focus Group
 - OCAF Focus Group = Open Communications Architecture Forum

ITU-T

ITU-T Structure (JCA)

ITU-T

ITU-T Structure (JCA)

Joint Coordination Activity (JCA) groups

Coordinate a broad study by more than one study group.
They **do not** perform **technical studies** nor write **Recs.**
Very important activity to **avoid duplication of work.**

Joint coordination activity

ITU-T

ITU-T Structure (JCA)

Examples of current JCA in ITU-T

NGN-JCA (Next Generation Networks)

JCA-HN (Home Networking)

IPTV-JCA (Internet Protocol TV)

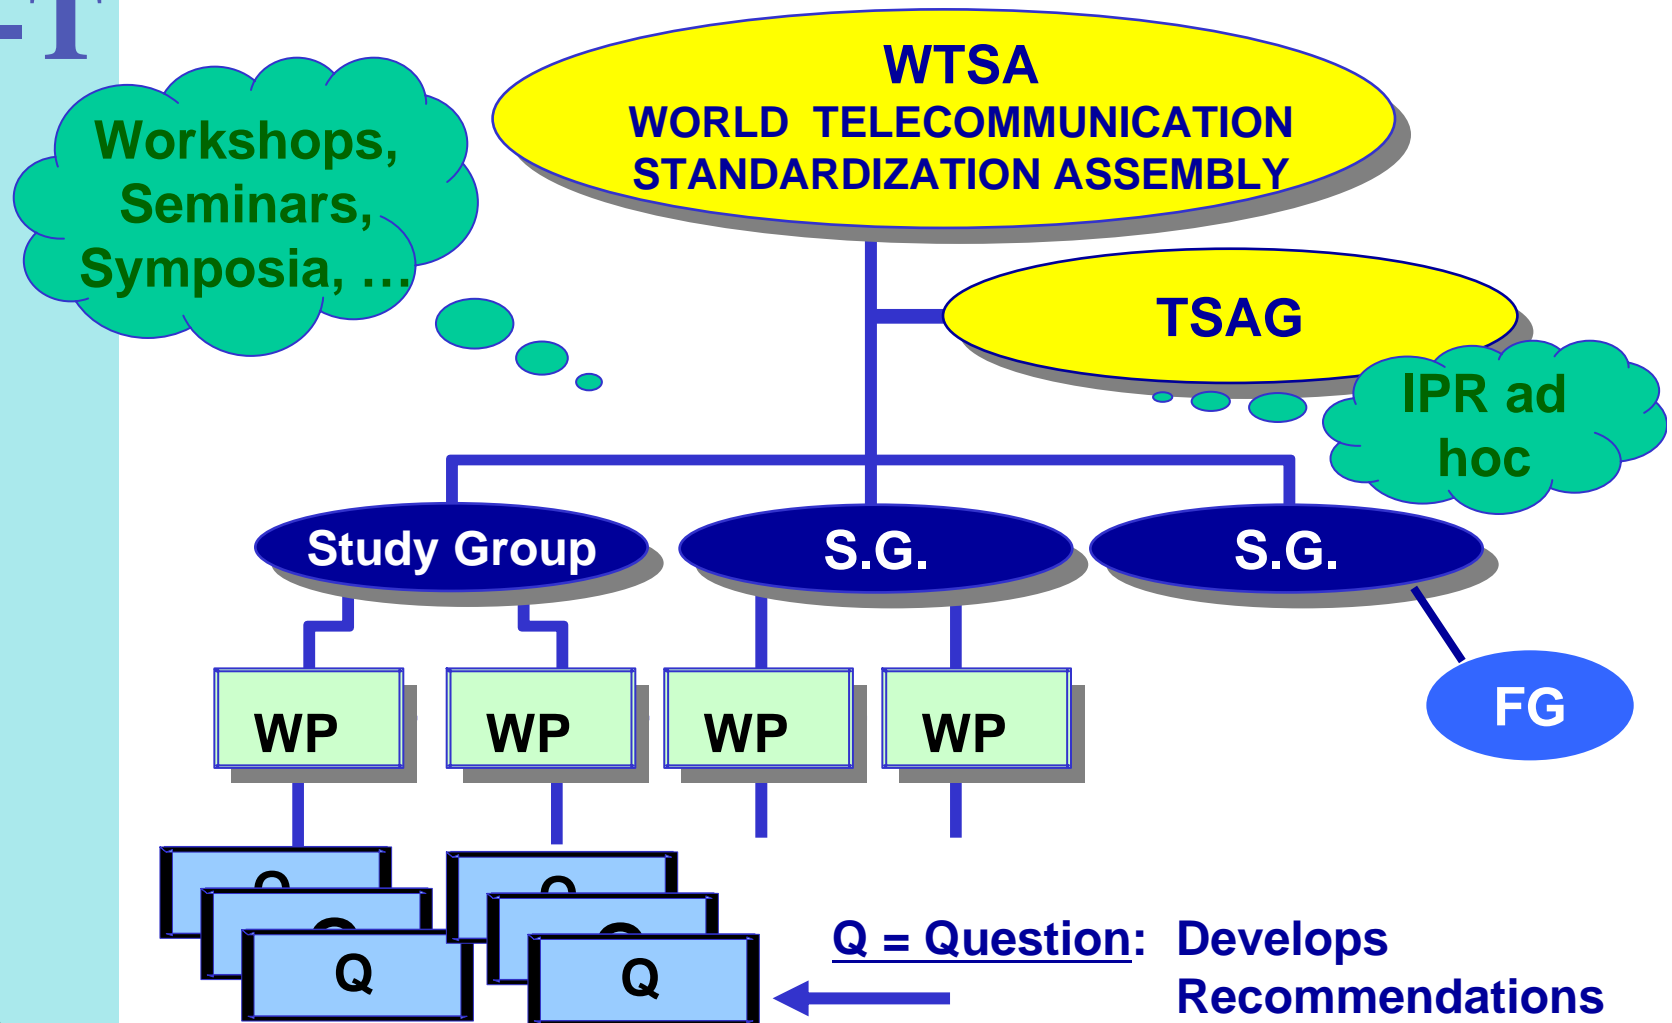

JCA-NID (Network aspect of IDentification systems, including RFID)

ITU-T

ITU-T Structure (Workshops)

ITU-T

ITU-T Structure (Workshops)

**Workshops,
Seminars,
Symposia, ...**

ITU-T

Workshops and other groups

- Workshops/Seminars

Cover the most important topics in modern telecommunication technology and applications.

Speakers are renowned telecommunication experts.

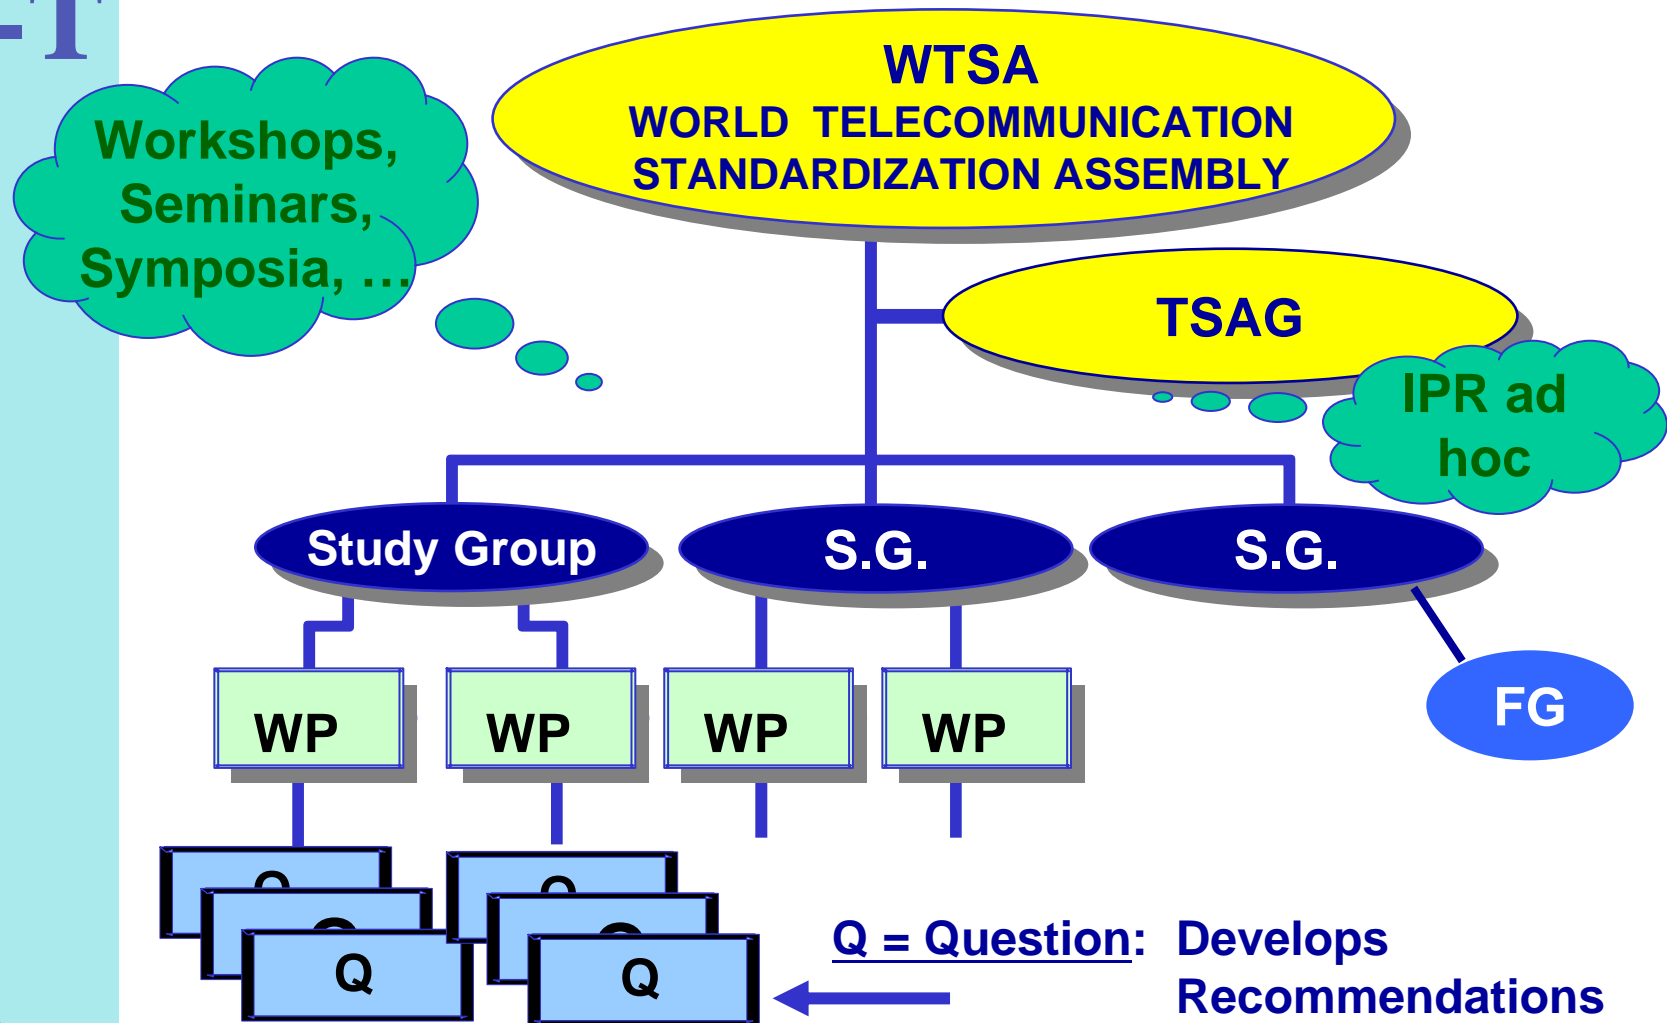

Usually free of charge and open to public

October 2006	Workshop title	Location
3-5	ITU-T/ITU-D "Standardization and Development of Next Generation Networks"	Dar es Salam, Tanzania
12-13	ITU-T "IPTV GLOBAL TECHNICAL WORKSHOP"	Seoul, Republic of Korea
19-20	Joint ITU-T/ OASIS "Workshop and Demonstration of Advances in ICT Standards for Public Warning"	Geneva, Switzerland
23-24	ITU-T/OGF "Workshop on Next Generation Networks and Grids"	Geneva, Switzerland

Intellectual Property Rights

ITU-T

ITU-T
Patent
Policy

ITU-T Patent Policy

Code of practice:

The fullest available information on any known patent should be disclosed to TSB during Recommendation approval.

Three Options for the patent holder:

- 1) Free license to everybody
- 2) Paid for license granted on reasonable terms and conditions on a world-wide non-discriminatory basis
- 3) Unwillingness to grant a license (No Rec. approved)

Either of 1, 2 or 3, the patent holder has to submit to TSB the ITU-T "Patent Statement and Licensing Declaration" form

Available on line:

Patent Statement and Licensing Declaration **database**

ITU-T

TSB Director's Ad Hoc Group on IPR (IPR-AHG)

<i>Role:</i>	Provide guidance to the TSB Director on IPR related matters: patents, copyrights, marks
<i>Chairman:</i>	Mr Houlin Zhao (TSB Director)
<i>Members:</i>	Open to ITU Member States, Sector Members, Associates + invited participants
<i>Participants include:</i>	AT&T, BT, France Télécom, Fujitsu, HP, Intel, KDDI, Lucent, Microsoft, Nortel Networks, NTT, Polycom, Psytechnics, Qualcomm, Siemens, ANSI, ETRI, ETSI, ISO, TTC, etc
<i>Meeting :</i>	Around every 9 months
<i>Next meeting:</i>	Geneva, 20 - 21 February 2007
